The Chief

theReview
1996-1997

A friend of mine recently asked me why I'm doing the yearbook? I think he wanted a short and sweet answer, so I gave him one, "I don't know." Why would anyone want to do the yearbook? It's literally over hundreds of hours of overtime during the summer and during school. Thus far in the summer holidays the core members of the Review staff have come to school to work for three weeks, working 7 days a week and 8 hours a day. But making a yearbook is something special. Beneath all the politics and pressures of making a yearbook there is a river of pride - a river that runs through time that every member of the 1996-97 Review staff and every reader of the 1996-97 Review will feel. We want everyone to say, "Yes, I was a part of this. That year was something special."

As the Editor-in-Chief of this yearbook I wanted the book to have a vision, a direction in which no other book had gone. This year's vision was to have photos which captured the special moments of the year as well as writeups which reflected on those moments. We wanted to make the yearbook more like a magazine; the concept was to have big, bold lettering with eye capturing photos. We were blessed this year to have very dedicated senior editors in Adrian Nusaputra and Amal Jeevanandam who came in during the summertime to complete the Review. These editors helped me shape the vision of the book by taking pictures, designing pages, gathering writeups, discussing design focus and editing work. With their help, the book's layout changed dramatically from the previous years. We hope this adds positively to the Review.

There are two sides to making a yearbook. The first side is the Editor's side, the second is the Chief's side. The Editor's side is pure love; it is the reason I do the yearbook. This side involves making pages, taking pictures and putting memories on paper. The Chief side of making the yearbook is the political side. Being a chief involves hard decisions: which page gets colour? How many pages should this event get? The photos were lost, what are we going to do? We don't have a

writeup for this team, what do we do? The Review's budget doesn't accommodate our expenses, how do we save? The computer has a virus, what do we do? These two sides to making a yearbook are always conflicting. The Editor's side always wants to make the yearbook better, it is the side with the vision. But the Chief's side is like the lawyer, the accountant or businessman; he is always asking the relative questions which do not add to the vision.

This year's staff never quit. They worked incredibly hard, working the longest of hours. I can't thank enough, those who helped out. The book is truly their book.

But I must also thank the teachers (particularly Mr. Treasure) and staff who made the book possible. Without their photographs and behind the scenes work, the Review would never have been completed.

In retrospective, this year's Review has a wide collection of pictures and writing. Even though the colour is held to a minimum and the cover is not plexy glass, even though the endsheets are black and white, even though we're missing some sections, this is one of the best yearbooks ever produced at SAC. Whether it is the best, only time will tell.

For me it has been two years as the Chief Editor of the Review. There were plenty of ups and even more downs. A lot of times I felt like giving up, but now as the book is completed I feel I've lost something special. But with the image that we have produced of the 1996-97 year, I will always have something special to remember it by. Thanks everyone. Much love and more memories.

Every year, while working on the yearbook, I feel like pharaoh surveying the building of his pyramids. What have we gotten ourselves into? Is the design sound? Will we ever complete the project? At what cost and labour? What will posterity say?

Looking around at the work site this summer was certainly a depressing experience. The project was in pieces. Chaos seemed to rule. Scattered across tables were pictures and layouts of unfinished pages. The computer crashed once or twice and the printer repeatedly spluttered offline for no apparent reason. Above our heads the gods who control the budget scowled disapproval and flagging morale among the workers threatened to undermine the whole enterprise. The prospect of finishing the project teetered on the edge of impossibility.

Somehow, however, with a little bit of faith, lots of perseverance and perspiration, and a touch of magic, the yearbook has taken shape. It is bold in its design, ambitious in scope, and is dedicated to reflect the glory of this present school year. In many ways it is linked to the traditions of the past, but it is also a unique landmark for the future.

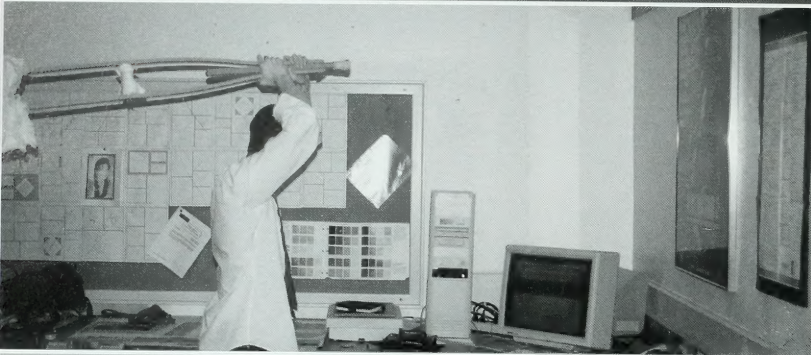

I am proud to have had a hand in this yearbook and to have helped encourage those who have laboured on its pages. They have worked to carry their dreams to completion and to do their determined best to make this student yearbook the best ever. I believe, in many ways, they have succeeded.

May you enjoy this year's REVIEW. It is a fitting 'monument' to you and your time at St. Andrew's.

Mr. S. R. Treasure

The 1996-97 Review Staff

Ever wonder who was the man behind the stern messages which warned of the perils of not handing in your grad comments? Well, after all of the constant badgering of teachers and grads, I am happy to announce the success of this year's grad pages.

Before the school year started, Carey and I wanted to make a book which was different from years past. Although we had only one year experience, we knew that the school's demographics was changing. Therefore, we also evolved. If you compare this year's yearbook to others, you will see how we challenged the guidelines (set by Jostens and previous yearbook editors) of a successful yearbook.

Designing and organizing the Grad section was a Herculean task because we had a couple of roadblocks. The first is changing the design element of the book. In past years, the pictures and the comments were lined up horizontally with a header. We were bored of this design, so we came up with the comments, candid shot and grad photo lined up vertically. We later found out that this design is better because it gave us flexibility in the candid size and text length.

Our second road block was getting the cooperation of the grads. Last year, we had grad comments coming in this year's Homecoming! This year, we are happy to announce that we have 89/90 comments coming in ON TIME! I don't think the Review has ever had this much success! Although we constantly badgered people and sent in secret Review agents to extort comments and photos in the middle of the night, we exuberantly thank you (Grads) for your cooperation.

Many thanks goes out the these agents: Amal Jeevanandam (Toaster!) and Michael Tanumihardja (Mike T.). Without your help, this section would have never been this good.

The Crew -

To the people who made a difference when it really counted.

Adrian Nusaputra is Da Man. 89/90 and 1 special comment, just for you. Wherever you end up, keep it real and remember the wicked job we did. Peace.

Ricky Leung is Da Bomb, you gotta light him on fire for him to explode. Props man, It's been almost 10 years and 10 million experiences. Keep it real and perservere.

Well, I've endured many hardships to get this far. However, I can now say that it's worth it. I hope you can open this book in ten, fifteen, twenty, or fifty years from now and remember all the good and bad times at St. Andrew's. I know I will.

Thanks again everyone!
Yours Truly,

Adrian Nusaputra

P.S. To the future grad editors: Good luck. Hope you have the same success and enjoyment that I have experienced this year.

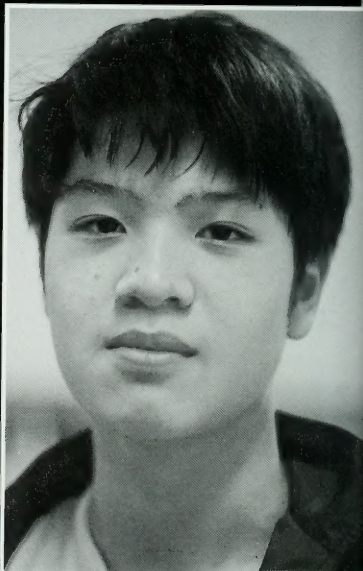

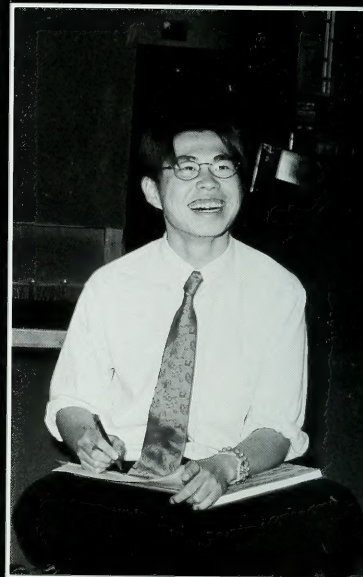

P.S.S. Carey... You're da man. Thanks for all your help... I couldn't have done it without you.

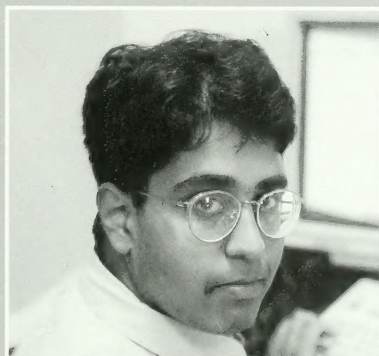

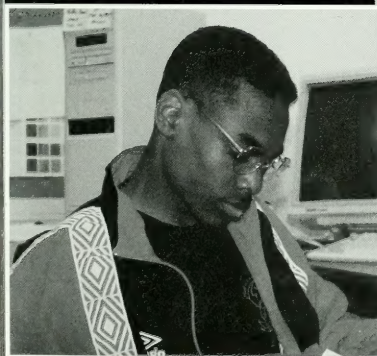

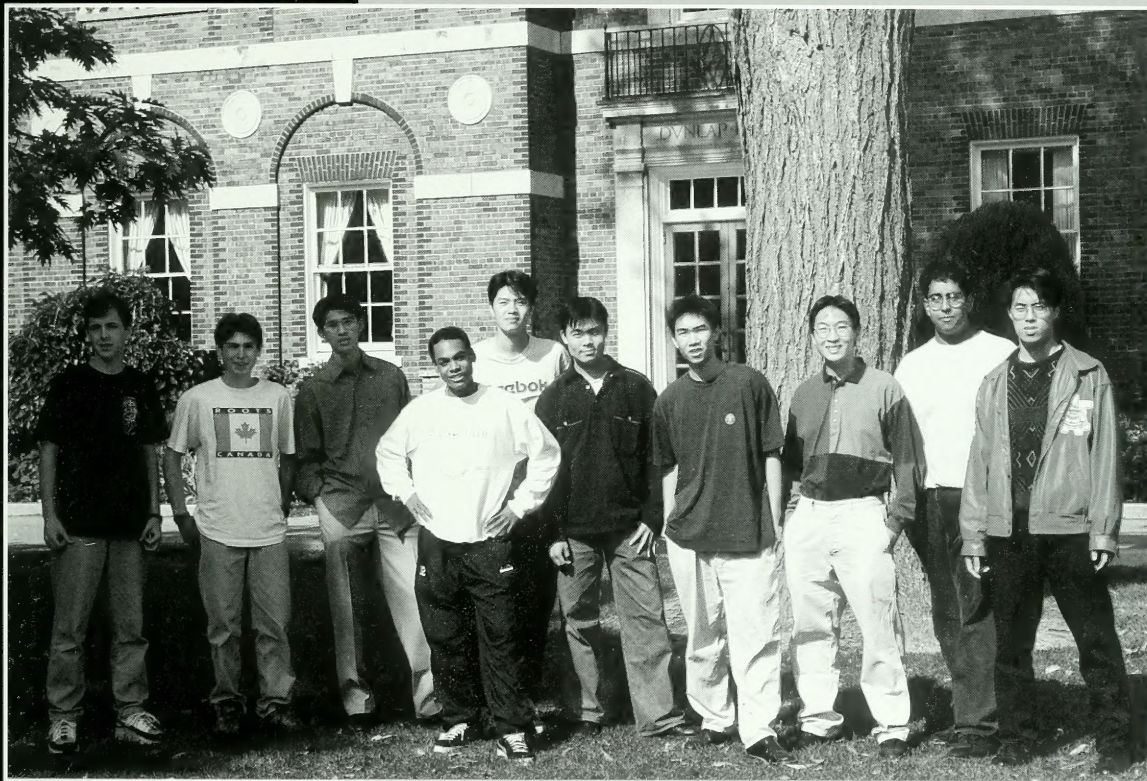

Amal Jeevanandam is Da New Breed. Keep the book real. The 97-98 book is in your hands. Don't look at it as an obstacle, look at it as a challenge that you will overcome.

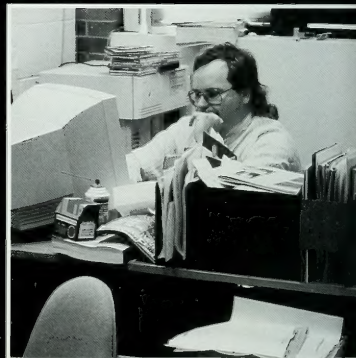

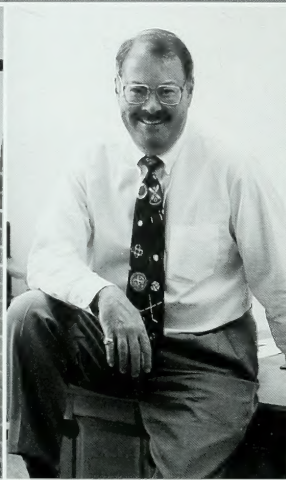

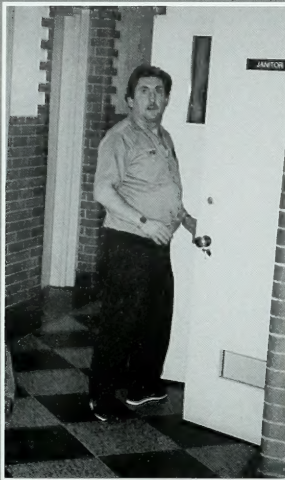

Jeffrey Lo is Da Blue Collar because he works so hard. Thanks man, you worked harder than anyone else. I hope you succeed in whatever you do.

Joji!!!! Props to my secretary.

Grade 12

One more year to go.....

I now more than ever realize as the year is approaching to an end that this will be my last summer as a student. This has made me a firm believer that life is short. It was just yesterday I was a short skinny kid starting my high school career and in four months I will be entering OAC. This year for me has marked my change that has turned me from a boy to a man. I say this not because I have physically matured but because I have learned to focus. I have gained the ability to concentrate and do something when it needs to be done. It is the shock of realizing that my time is limited and I don't have all the time in the world that has done this. I consider this a year of preparation, a year to train my mind for OAC and University which is just around the corner. The reason why I say train my mind is because one's brain is just like any muscle in one's own body. It need exercise or it will become slow and out of shape. I am a believer that one can build his mind

through study such as one can build his body by pumping iron. I say this to encourage those Grade 11's who have lost hope in themselves or feel they are not smart enough to ever achieve highly academically like I once did. It is not too late you have Grade 12, use it to get in shape.

Grade 10 - Into the Upper School

Looking back on my first day of Upper School, you could say things were a bit chaotic. The mad dash for your schedule, the searching for your locker, and of course finding your new House. Being a day-boy, it was an interesting transition, —and no more “Robertson Laidlaw,” if you were late for a house meeting.

As the year progressed, and everyone was finally settled in for a year of school, goals and hopes were set. I am sure some came true and others did not. However, many probably did. Grade 10's were involved with many aspects of the School this year. Some making First Teams, some achieving incredible academic goals. Some, including myself and a few others, even set the goal of starting an on-line newspaper. Unfortunately, the goal of creating a new issue once a term proved unrealistic. We hope to attempt to complete this goal in the future, which is an attitude

that I hope many would take.

Many grade 10's were also involved in the world of music, art and drama this year. The four of us who attended the Drama Festival in Ottawa in the third term were a valuable addition to the rest of the group, and many wish return again next year. Hard effort and time that was put into such events made the m all the more enjoyable for everyone.

In the end this has been a very fun and productive year and we all look forward to returning in the fall.

Grade 9 - Lower School Seniors

Looking back over the year, I can say that it's been a great year for the Grade 9's of Saint Andrew's College. Grade 9 has made a tremendous change in school life for the better and worse. For example, there was more homework, the tests were harder and the projects bigger. However, things have also changed for the better. If you're a boarder, you get to stay up longer and you could go to places without asking for permission from your parents. If you're a dayboy, you're the oldest grade in the lower school so you get to feel superior over the grade 7's and 8's and boss them around!

Grade 9 has given me a chance to make decisions. I get the chance to decide where my future is going since I get to choose between 4 subjects and also take advance courses for certain subjects. I will probably spend the rest of my highschool years at SAC and so far, it's heading me to a better road towards tomorrow.

Grade 7 1st Year at SAC

This year was an incredible year for grade 7. We had lots of fun and rivalries between Mac House and Laidlaw. We had a water-polo game that Mac House won, but then Laidlaw came back by winning a hockey game. Mac House experienced a new housemaster, Mr. Giel, and assistant housemaster, Mr. Tsioros. Laidlaw had the steady experience of Mr. Whitehead, who will be leaving as housemaster at the end of this year. Mr. Cowell and Mr. Kimmer will be the new housemasters for Laidlaw house. Both houses had lots of barbecues and fun activities like: basketball games, Laserquest trips and also a trip to Sega City.

In Mac House we did pottery and stained glass with Mrs. Giel and each Friday pop & donuts with a movie. Laidlaw house was well equipped with a Nintendo 64 and a Sony Playstation. At the beginning of the year, nobody knew anyone and it was hard to find the classrooms. All the grade 7's were lost in the middle of nowhere and it seemed as if a whole bunch of people looked at us in a funny way. After a few weeks, everybody had very good friends and knew the entire school like the palm of his hand.

In expansion week, the grade 7's were expected to go to the waste dump. The trip wasn't as bad as it sounds. We learned how the water is treated and how many steps the water goes through before we drink it. We also went to Pioneer Village where we learned things about the early settlers of Canada. We were a little mad because we couldn't go to England, Costa Rica and other places like that, but it wasn't that bad at all.

There is one student counsellor in grade seven. This year the counsellors where Ryan Lo for Laidlaw and Paco Ortiz for Mac House. The counsellors plan things to do for each house and help out with things inside the house. The counsellors are chosen by the other students in the house. The counsellors did a great job this year.

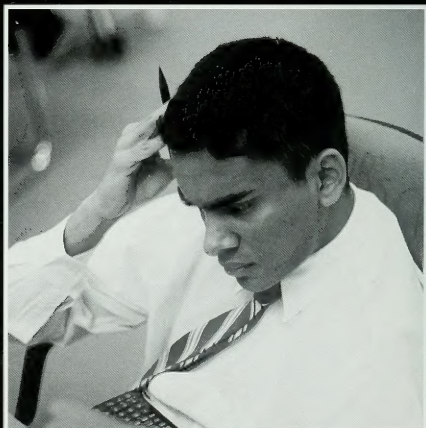

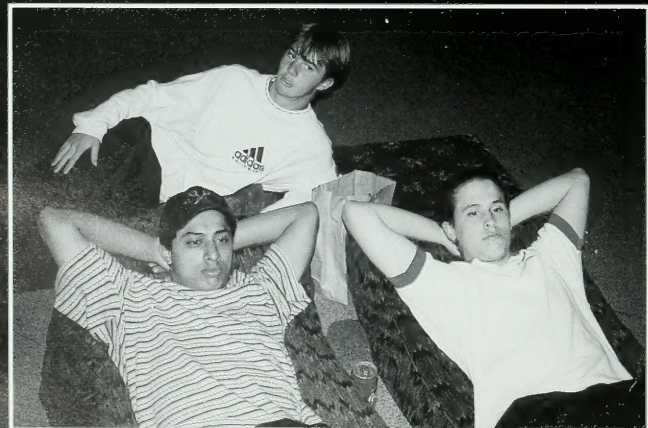

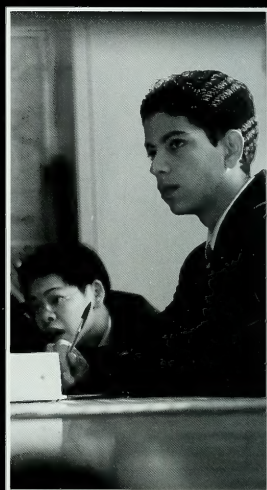

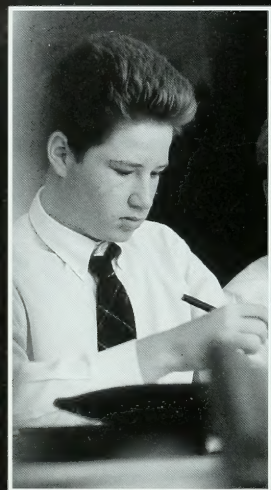

This was one of the greatest years for the grade sevens.

First and foremost I will like to thank my parents for their support in every way. "THANK YOU". It would not have been possible without you. I guess all those lectures about grades finally kicked in when it was most important. I would like to say a big thank you to all my teachers, without you I really don't know what I would be doing with my life right now. Mr & Mrs Perrie were the parents I had away from home. They made settling down when I first ventured the walls of SAC easy and they most definitely advised me when I was going astray. "THANK YOU" I will always have you in my prayers. Lastly I will like to say thank you to all my aunts and uncles you know who you are, thanks for not giving up. (England Crew)

This section is dedicated to all the guys that I had to put up with while I was at SAC. Seven gun salute to Victor, RDL Sands, Bren, Sean, Nathan(Roomie), Daddy Shields, Ray.

Three gun salute to the up and coming crew members Ibo, Omar Sands, Omar Sleem(Big respect), Alex, Mosaic and all the guys who made life at SAC a breeze. I guess I'll be seeing you around.

GREGORY P.E. BERDETTE

House: Ramsey (1990-1997)
Nicknames: Birdy, Birdman, Bird

The seven years I have spent at St. Andrew's have flown by. From the first inaugural days of grade seven (a.k.a. - "the class from hell") to the work-a-holic attitude of grade thirteen, St. Andrew's has sent me on a roller coaster ride of understanding.

For seven years I have been trying to figure out St. Andrew's complex levels of teachers, their different ways of marking assignments, and what type of work they like. Now, in my last year of high school, I think that I have successfully unlocked the secret world of academics.

I leave this year with my highest average ever. I would like to thank all my O.A.C. teachers for an excellent

job done. This year I absorbed a plethora of knowledge and skills that I feel will give me a fighting chance in university.

To Mr. Timms - one day you will see my name on the cover of a best-selling novel. This novel will perhaps even be used in SAC's english department. I owe you a large thank-you for your wisdom in writing and the help you gave to me. In fact, my first novel will have a thank-you addressed to you.

To Mr. Walden - I had a stash of magic mushrooms in my locker, growing in a corner, that I rolled and smoked before each and everyone of your classes. This might explain my bizarre interpretations of literature. But through all the hyperbole and fantasy you brought me closer to understanding myself as well as the characters we read about. By the way, do you know where I can pick up a hot bike?

To Mr. Kinney - If I end up pursuing biology or/and kinesiology and business at university, I'll offer you a free lifetime membership to my health club, even a ludicrously high paying job if you feel like retiring from SAC.

To Mr. Swan - Thanks for cutting the biggest, hardest hitting, fastest (with steadily increasing endurance) and skilled rugby player you had this year - moi. To Mr. Cameron - you should have passed either to Shaw or me, a lot more in the finals. Both teams' running games were being stone walled and the TCS coach realized this. You should have, like the TCS coach, utilized the leagues finest starting wide receivers. You wouldn't believe how many experienced adults have told me this.

To Mr. Giel - If you want a job that pays big money under the table, stop by my fitness center sometime. I'll even pump you up so that you can be the meanest and baddest lieutenant in the Canadian army (Pardon my grammar). I just hope I can remember all my O.A.C. accounting in university.

"My life will be great!"

CHAUNCEY BIRCH

House: Flavell (1992-1997)
Nicknames: Toonsis, Chimpco, Chimp, Dudeman.

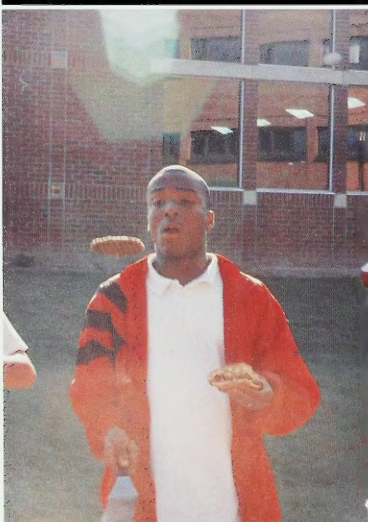

Sayings: Bren, your tops in my books! "Van, Fan, get it? DAVE! Rev. where's my Rolling Stones? Dude! Dudeman! Are you doing History?"

Activities: U16 Hockey, U16 Soccer (MIP), U16 Soccer (2 years), Track and Field - Pole Vault (1st in ISAA), Discus, Javelin, Rock Climbing, CO-Founder of Erborfor, "Bloom, Bloom!"

Well I guess this is good practice for my Oscar speech. What a five years it has been. Mr. Foy, thanks for putting up with me, you have played a large part in my career here. I'm putting out a heart filled thank you to my mother for this opportunity to have these high school days. Dave, missions were great and we'll keep doing them next year. Al, I'm sure I'll pay you the money I owe you, sometime. Bruce, it was great living with you, I know we'll stay in touch. Constantine, why won't you talk to me anymore? and be careful with the opposite sex, and Bren, you're tops in my books. Best course while I've been at SAC - OAC Politics. Best teacher, in my view, - Mr. Scoular. If I could redo one thing during my career at SAC it would be to share everyday, and won't have to fear running into Mr. Smith. After all is said and done, SAC has turned out to be a fulfilling stop along the road of life. There are a few things at SAC I would like to see gone, especially some people, but in everyone's life a little \$@!# must fall. I guess it would be appropriate to end with - I'm going to Hollywood to be famous!

"Only Socrates knew, after a lifetime of unceasing labor, that he was ignorant. Now every high-school student knows that. How did it become so easy?"

CRAIG J. BROWN

House: Sifton (1995-1997)

Nicknames: Brownie, Brown-Dog, a.k.a. Cpt. Corruption, Day-Boy Brown, CB, Brown Train, Brown Town, Kai, Jay and/or Tim (for kitchen staff use only).

Sayings: Fair enough. It's all coming together now. That's not cool, eh? Foy? Sleepy-time B.J. Why? Not. I tipped it in Perouse. I swear! It's your turn to fill up the Omega Fish. Let's do it up! Welcome to my world. I can accept that. I'm a retard. Don't patronize me. Let's be honest with each other. All the cool kids are doing it. Nobody likes you. Are you sure? Hey everybody, look at me.

Activities: Prefect, Assistant Head of House, House Captain, 1st Football (1a) (One Year Wonder), 1st Cross Country (1a), 1st Hockey (2a), Assistant Captain '97, MacPherson Champions '96, MacPherson Silver Medalists '97, OFSAA '96 Quarter Finalists, OFSAA '97 Silver Medalists), Lacrosse (1a), Subway Gold Card Holder, Oshwegan Golden Eagles Head Scout, Founder and sole member of the S.A.C. KISS Army, Breakfast Club (2a), Undeclared in Summit Series action '95-'97, Ticket Taker for Fischer's Late Night Movie Emporium, Co-President of the (0) ER Club (Thanks to Kam Chan), Eternal Room Wrestling Champion-Injuries Inflicted: 1 broken finger.

St. Andrew's appeared at a crossroads in my life. The decision to attend was, in fact, spur of the moment. As I entered the gates of SAC for the first time two years ago, I was filled with mixed emotions. Part of me was prepared to meet the challenges that lay ahead while the rest of me was uncertain of the future. Could I live away from home? What does man-on-man defense mean? Would I be able to co-habitate with Fischer? Only time would tell. In retrospect, my years at SAC have been short but entirely memorable.

I can easily recall my first day at SAC-I was a complete stranger to the people who are now my best friends. (You know who you are). I would like to thank my older brother Kai for serving as a role model for me and blazing the trail at SAC. Without your influence I wouldn't be where I am today. Thanks B.J. and Fisch for being guidance counselors and true friends. Thank you Mr. Dunford and Mr. Galadja for two unforgettable years of hockey. Thank you to the prefects for teaching me the meaning of dedication and hard work. T.J., M.F., P.A.H., B.L., K.D., M.N., M.F.) Above all, I must thank my parents for making the sacrifices necessary to send me to SAC. You once again have led me in the right direction. I love you both. Good luck Graeme. The torch has now been passed to you. SAC cannot be explained, just experienced.

I chose the one less traveled, and it has made all the difference."

I came from Appleby having never boarded before and not knowing anyone (except my Bro.). It was sort of a shell shock: no girls and way the heck out in no-mans land, but I was here to stay, and I'm glad for it. Now I realize that I wouldn't have excelled in sports, art, or academics as much as I have now. Sport wise it doesn't get better than SAC; you have a large base of athletes to pool from and your team tends to get looked at because you are usually competing at a higher level. Something Appleby just couldn't achieve. One of the deciding factors for me going to SAC, as trivial as it sounds, is the fact that my old school sold it's high jump equipment. A big mistake. So I came to SAC, the track power house. Art here like the athletics is so much more challenging. Mr. Paolini pushes his students to do their best work and even with our facilities, artists still excel. A commencement to the art staff. Up until I came here, I was never pushed to do my best and I'm for-ever grateful for the kick in the rear. Another-thing that hit me was the attitude of the students, they wanted to succeed. The back row of the class no longer was the best place to sit but the front. I can't say more about what this school has done for me and what it's doing for all of it's students. Academics & sports are a big part of St. Andrews but out side of that, is where I've got most of my memories.

To Costa: time flies... eh bud, where ever you go next year never stop that smooth operating! To Chance, your such a character, and a great room-mate for all those years. Don't drink your self to death I might want to come and visit some time! To Bluch I wish you the best, but promise me you'll try to keep to one girl at a time (I know it's tuff when you're so sexy). Haney I hope you enjoy Mr.A. don't spend all your time in "the Pub" and come down to the heat some time.

To call the guy's: CB, CC, BC, SW, JH, AC, CR, KC, JS, RJ, DJ, MF, MG, MF, PC, DS, GM, MN, GC, FP, DR, MR, HL, RC. We've had some great times, and some questionable incidences but, where ever you go keep the laughs and good times going and Oh yea when the stress has got to you and you can't take it any more, just think, I'll be painting... go figure!

To my parent who have supported me through out these last four years, of SAC and the nine years of private schooling.

KELVIN CHAN

House: ??? (1997-1997)

Nicknames: Kelvin, Mommie, Chan Mestro, Natas, Dennis Rodman, GUMBY.

Sayings: Hey... Yo momma... Hey buddy! The truth is out there....

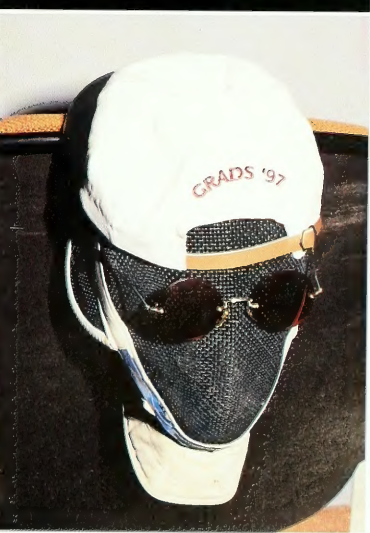

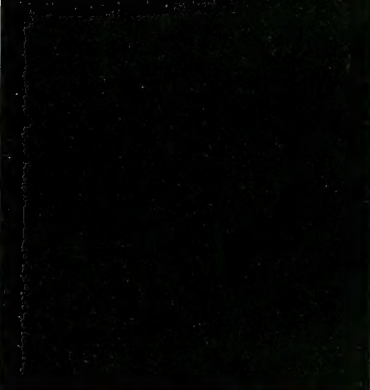

Activities: Nothing... 1st nobody, 1st not handing in his grad comment period.

First and foremost I would like to thank the Review staff for their consideration, patience and "English Skills". I really wish I handed my grad comment, but I thank them for writing one for me. I realize that SAC was the greatest endeavour I have faced so far it is the beginning of all beginnings. In line with beginnings, I am beginning to realize that I should've finished my grad comment in on time.

In accounting class I was convinced to invest in Bre-X. To bad I lost all my money. Oh well. You win some, you lose some.

Through the years, SAC taught me the values of life. I will never again brag that I have a girlfriend when I don't have a girl friend... I will never ever try to exclude myself from a team photo when I'm part of the team... I will stop phoning girls when then they don't want to talk to me... I will never again say I will complete something when I never will... I will never make excuses to cover up my inadequacies... I will never again...

May everyone learn his lessons in life.

All our dreams can come true -- if we have the courage to pursue them.

Time to come time to go. Time has passed so quickly as I realize that I only have two and half month left at St. Andrew's. The last two years in SAC have given me a memorable experience. I have been taught self-confidence, discipline, respect for on another, sportsmanship, and also survival. This helped me to build my character academically, physically and spiritually. Thanks to Mr. Foy for being a great house-master, Mr. Smith for giving me support thought the years, Mr. Wenk for giving "problem of the week" that improved my skill in copying and Mr. Inglis thanks for giving me such a hard time in school.

Also, thanks to all of my friends especially to my brother for teaching me how to survive in S.A.C. Also thanks to D.H.(P.K.Boy) W.L.(Lily) K.F.(Gold Mind) A.H.(M.P.V) M.K.(The chairman of skipper union) J.L.(Trouble Maker) L.F.(Doctor) R.N.(Big Mouth Ng) for given my a great time in S.A.C. Finally, thanks for my parents for given me a great opportunity to come to S.A.C.

Activities: 1st swimming (2 years), senior squash, 2nd rugby, Head of House, T.J.'s marathon spender.

Respect to: Dave, Bren, Victor, Shields, Cozier, Bubbles, Omar, Nathan, Craig, Moodie, Sands, Bruce, C&C, Beetle, and to rest of the West Indian posse. To Mr. Foy, Mr. Myrants, Mr. Jamieson, Mr. K., Mr. Smith, and Mr. Schoular, Nuff respect to all S.A.C. crew, keep it alive and running.

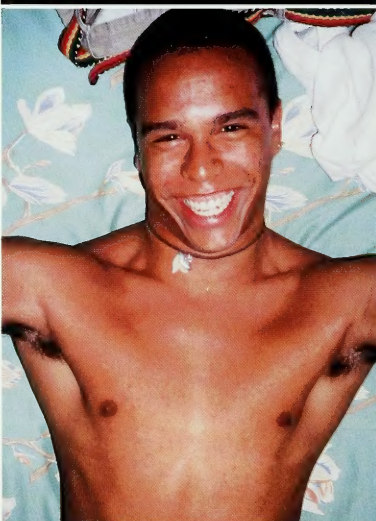

As soon as I set foot on school property I could tell that it was going to be the best two years of my life. It was. I've been through the rough times and have enjoyed the good times. The people are the ones that make the school what it is and I hope that it remains that way. Thanks to Mr. Foy, he showed confidence in me and always backed me up 110%. I think it was the late night ginger ales that helped him to cope with me. Thanks to Mr. Jamieson, who's motto I quickly learned, "Do as I say and not as I do." Thanks to Mr. Smith and Mr. Bedard for giving me a piece of their precious time when I needed to talk to them. I'll miss all of you.

When I first entered SAC, I was quiet and innocent, and hesitated to speak up. My first night at MacHouse was a memorable one for it was my first time away from my family. During the four-year school life at SAC, I have acquired a few valuable habits such as self-motivation and discipline that will serve me well for life. In all these years, the staff of SAC has helped a great deal in making my life easier, especially Mrs. Pilleci, Mrs. Lamb and Mrs. Marsh. In particular, I would like to take this opportunity to send my warmest acknowledgement to Mrs. Doreen Hiltz, who always encouraged me to strive for the best and eventually my English improved greatly with much effort. Special thanks to Mr. Smith for inspiring me, Mr. Inglis for all encouragement and advice plus all enjoyable Mathematics classes, Mr. Scoular, Mr. Hanson, Mr. and Mrs. Perrier, Mr. Somerville, Mr. Halstead, Miss. Foster and Mr. Padolini for all the support, diligent care and guidance. It is really my honor to be a part of the Andrew Community and the #142 St. Andrew's College Cadet Corps. "Quil Ye Like Men, Be Strong." Thanks to all my friends: your support and friendship meant a lot to me. All the best of luck in your future studies! Keep in touch. 'Bye now! Most important of all, I have to thanks my Dad and Mom for all the sacrifices in order to grant me such an opportunity to study at St. Andrew's College - 'an institution of high quality education.' May God bless you all.

Years As An Andean

A 14 year old boy walks through Dunlap Hall confused and scared Saturday classes, and no girls! How will life fare? Quickly, he realizes the great bonds formed within the red walls. Learning lessons of life, with great leaps and hard falls. But each time he fell, his friends were there to lend an open ear. He knew there was no obstacle in life that he had to fear. St. Andrew's didn't only give him an education from books. Sports, cadets and other unique opportunities that he eagerly took. He still walks down Dunlap hall, more clear minded than ever. When does he want to leave the school? The obvious answer is never. He is now a 19 year old man, and an Andean for life. With the greatest friends in the world to help him deal with any strife. Five years have flown by unbelievably fast. Unfortunately it's soon time for him to leave the St. Andrew's gates of brass.

I want to thank my family for coping with me for the last five years. Mom and Dad thank you for giving me this great opportunity in life. I love you both very much! My appreciation goes out to all my teachers and Mr. Smith for guiding me through my years, guiding me down the right road and correcting me when I went down the wrong one. And my most sincere thanks goes out to all my friends: CC, SW, MG, JH, JS, MN, GM, MF, GC, and all others. Without you guys St. Andrew's wouldn't have been nearly as memorable and unbelievable. Keep in touch boys!!!

Words of Wisdom: Live your life, not theirs. U gotta B real; Fight the Power

Thanks to God, It's been five years. Imagine, five years with the same people, teachers and friends. I have learned so much; SAC helped me focus and persevere through my life on goals and dreams. Where else would I be able to have a LIVE magazine, be editor of the yearbook, play varsity basketball, and participate in so many other activities. All the terms I played and the friends I made will always be remembered; each experiences and lessons I've been taught will never be forgotten.

Mr. Perrier, thank for coaching me. Thanks for introducing the love of the game to me. Mr. Robson, thanks for your coaching and the tireless help with LIVE). Thank you Mr. Smith. I have never seen a teacher with more dedication and perseverance. Thanks for helping me with my University apps, my chem, the Review, and showing me, by example, how a man should live his life. As masters at SAC you have taught me to never give up and to live my dreams. Also thanks to Mr. Myrns, Mr. Treasure, Mr. Whitehead, Mr. Wenk, Mr. Timms, Mr. Jones, Mr. Somerville, Mr. Roy, Mr. Gierner, Mr. Hiltz, Mr. Giel, Mr. Swan, Mr. Service and Mr. Josselyn for being there when I needed a little something along the way.

Thanks also to my mom and dad who decided to send me to SAC. I never wanted to leave the old school but now I want to don't want to leave this school. A special thanks to my sis, Shirley. Thanks for being there for me. What's up!! to the '96-'97 CISAA bball champs. A shout out to the '95-'96 II Bball team, we rocked the house. Peace to the boyz younger grades, especially my little basketball buddies (H.S. A.K. the Berts, C.D. Rabs, A.W. C.C. the Taiwanese boys, Chinese posse, W.M. J.L. R.E. V.I. Keep the bball spirit alive and play hard! Thanks Rick. Thanks for being a friend and for listening when no one else could. Ivor, you're da man. Thanks for being yourself and for being a Freak. Gerald, I know we've argued a lot but we're still boyz. Thanks for helping me with my car troubles. James, you are truly a PD, Geek and true friend. The talks in the balcony/dairy/Queen/phone really help me. Raymond, electric circus was da bomb. Ron. Thanks for that incredible 3 pt. show and playing Avengers with me. Jeff, we should've hanged out more. Peace. Keep the rhythms bouncing and the grooves counting. K. Liu thanks for playing ball with me. Leather Baby! Will, what can I say but I hate arguing with you. I love your thirst for life and your everyday smile. What's up K.Siu!! Let me drive you car man!! Carson, I know you're going to make 1st cuz you take it hard to the rim. Way to play strong - keep it real. Adrian and Mike, believe in your religion and keep the faith. I may not be a Christian, but I have faith that one day your belief will change the world. Amal remember your gangsta roots. And last but not least Alex. I think you might take me the wrong way, I'm the kind of brother that wants you to do good and be the best, it doesn't matter what I say. Make me proud and do more than what I've done. Be a man Alex. Final shouts to J.T., A.P.D.C.P.M., D.G., K.D., A.W., and all the members of LIVE magazine and the Review, thanks for the help, you guys R my boyz.

I want to end this comment by encouraging all my friends, family and those who know me: you may not be smart, but you can make up for it with tenacity and perseverance. I know I'm not smart, but I made up for it.

I always wanted to get out of school and live my life. I never thought about what it would be like to actually approach this point. Well...here I am. It isn't quite the sensation I was expecting. The staff, my teachers and my fellow students who went out of their way to make my life any easier: thank you. I may have never appreciated you in the beginning but SAC has taught me much. Mom an dad I love you and thank you for sacrificing your comfort to make my life better. Marc big up. Big up to Badman crew: Nathan, Victor, Sander (Fellow Bahamian Badman Justin, Alex (Stay away from crackhead girls) Omar, Shields, Raymond, Kirk, Dave, Peter, Iben, Domine, Constantine, Batty Bruce Jube Jube any I may have forgotten I am sorry. I can't forget to big up all those on the Organized Kaos crew (I can't mention your names as I don't want to reveal any names) Special thanks go to Mr. Foy, I don't know if I could have endured the trials I went through without your help. Mr. Perrier for your help in my constant (hopeless) struggle in calculus. Mrs. P for helping me keep my brother in line. Mr. Hiltz, Mr. Kinney, Mr. Smith and Mr. Myrns whose incredibly challenging style of teaching has greatly helped prepare me for university.

To everyone good luck in your future endeavors and when the chips are down you must never give up. You are as strong as you think you are.

Never tell people how to do things. Tell them what to do and they will surprise you with their ingenuity.

Five years come and go as if they are five weeks. Every year seems to go by faster and faster, to the point where it can't go any faster. Well, I'm wrong! This last year has flown by, and before I know it I'll be in university. These last few years have been the best of my life, and I'll probably never experience something as great as SAC ever again. Most of my friends I've lived with almost longer than I have with my parents! It's going to be hard to say goodbye, but all good things do come to an end, no matter how perfect they seem to be. I've come to a point in my life which will determine my destiny. I've gotten this far, there's no reason why I can't get the rest of the way! Primarily, I should thank my parents for privileging me with such an excellent education, and fascinating experience. Not many people have the opportunity to go to a school as prestigious as this one, and a lot of us take it for granted. Everyone, at one time or another, has made a complaint about the "food" or "those dumb cadets", but in the end hopefully all of them will realize how lucky they are to go to what extra discipline will help us in the future. I know one thing is for sure, SAC has made me a better person, and I will leave those gates proud to be an Alumnus!

Before I end this I'd like to say goodbye and thanks to all my buds at SAC, hopefully I'll see ya next year. AC, JS, SW, BC, SB, JH, (MF)2, ARP, MG, GM, JT, RJ, AT, GC.

J. GREGORY COOKE

House: Sifton - MacDonald (1995-1997)
Nicknames: Cooke, Cooker, Light-house, 99
Sayings: Hey, you going to work-out?; Whats up?; Shut up, I'm trying to work!; Your gated, O'Hea, get fired up!; Big game boys, I need to get outta here; Lighthouse Cove; It's near Windsor in the heart of South-western Ontario!
Activities: Co head of MacDonald(Giel's) House, I Football(2a, MIP 96), I Hockey(1a, ofsa silver 97), II hockey(3a, lunchbox team 96), Cross Country, Track, Lacrosse recruit, Weightlifter (I hope I put your scholarship chance in jeopardy Birkett you feedbag!), Focus:producer, Housecaptain, proud cadet private, Chapel skipper, Captain procrastinator (2 year Canadian History ISU for bunk), and most important of all, member of the S.A.B.H.L.(Beaters and Blue Collar Paul Trues!)!

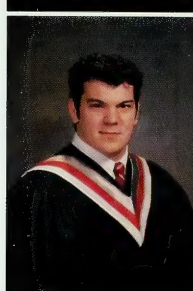

I'm sure if you would take a poll among many people and ask the question, "What is your opinion of private schools?", you would probably get answers like stuck up!, or snobby white collar institutions! Well, I can't speak for all the others, but at ST. Andrews, this is simply not the case. As a student, you have to get up every day, put on your blue collar shirt, and get ready to go to work, with many down to earth, simple, great people!

There are many people here at SAC that have influenced me and I would like to take this opportunity to thank them. Mr Cameron and Mr Shields, Mr Dauford, Mr Gagliardi, and Mr Grenier, thanks for being great coaches of great teams. Mr Smith and Mr Sommerville, thanks for your university guidance! (I don't know where I'd be without BS with GS), and to my friend Mr Harper, thanks for being there to care and being a great friend. Your humor was greatly appreciated! To my friends Cowan! You are the best player I and the Innisdale coach have ever seen!; Foy, Couture, Freddy, Constantis, Hodgy, Donnelly, and Rooker, best of luck to all of you in the future. Johnny O, it's been a blast!!!! See you next year on the ice in the East Coast junior league. We have business to finish!

Last but not least, I would like to thank my parents for making the sacrifices to send me here. If it wasn't for you guys, I never would of had the chance to partake in the self improvement course known as ST. Andrews College. I'm in debt to you Dad. Thank you!! To the boys next year, beat TCS when it counts and bring the gold back where it belongs!! So long.

party, S.A.B.H.L. (Blue collar trues)

Thanks to Mr. Bedard and Mr. Foy for believing in me and supporting me during my two incredible years at SAC. I have to mention Mr. and Mrs. Perrier for everything they did for me. I really appreciated living with them in Memorial house. The next man I want to thank became a good friend over two years and it's my football coach Cameron, Merci Michel pour tout ce que tu m'as apporté. To my family, thanks for all the sacrifices you've done for me.

SAC will always be in my best memories. I would never forget the friends I made (John, Mike, Glenn, Hugh, Cooker, Mitch, Blaine and Keith). Thanks also to all my 96 grads friends. The last two years have been incredible and I had a lot of fun. I can hardly believe that I'm able to speak English (I mean almost). I wish to all my friends good luck for university. For those who are not going, don't get too lazy.

I hope we will see each other again, in order to rock and roll all night and party everyday.

House: Memorial (1995-97)

Nicknames: Killer Cowan (thanks Newton), Glenn Chen, the Sheriff, Smack

Sayings: Scram Somerville, there's a crowd! That girl's not fat...she's hot! Don't worry Abe, I'll get someone else to do it; Hey Rich, can I use your bathroom?; Babcock!; Who's the slapper of...?; Huh!; Don't hassle it; We'll smoke a few babes too!; I was watching Party of 5, SIR!

Activities: 1st Football (2A), 1st Rugby (2A), 1997 OFSAA Championships, 2nd Hockey M.L.P., CSM Memorial company, House Captain, Founding member of the Friday night club and the W.B.society and the S.S.S.S.; Mel's Diner junkie; Scotland tour '96; co-conspirator of the Wet bandits; Greatest player the Innisdale coach has ever seen!

It seems like just yesterday, a scared kid attempted life at an all-boys private school but retreated to refuge among the familiarity of skids and short-longs at M.D.H.S. I returned the following year with a vengeance and got everything I could out of SAC. Between sports, academics and growing up I haven't stopped once to think about my experience until now. I will never replace the friends I have made, nor do I want to. Foy and Richard, I am honoured to have played on the same field as you. Mitch you are the slickest guy I know and finally Sugar Ray O'Hea, you are a brother to me—thank you. To the rest of the grads, I wish you all the best; keep in touch. A special thanks go to Mr. and Mrs. Perrier for being there when I needed them.

Scott and Bradd, amid all the crazy humour and antics of the Cowan family, I am proud to say you are not only my brothers but my best friends. Finally Mom and Dad, you have always been there for me and I am thankful for your support and love.

As I bid farewell to SAC I enter the world a man and a proud Andrean.

KEITH DADSON

House: New (1990-1997)

Nicknames: Jed, Keifer, Keither, Black Lightning, Black Magic, Little Jed, Shorty, Keetch, Super, Bomba

Sayings: Jeecceffff! Hey Rick... you can't be eating, you have to help me with my [insert ANY subject here] homework!!!; honestly, yo man... that's crazy!!!!; tough love (in any context); I'm HUGE!!!; Hey... I'm not your chicken; I dunno, ask [any other Prefect]; Hey Miss Thang!!!; most impressive, but you are not a slacker yet (in Darth Vader voice); Yes I am really 18, no I am not considered a midget, no, they haven't amputated my legs....

Activities: Prefect, Lieutenant of 1998 best platoon, member of 1st Soccer for two consecutive years, ISAA 200m senior record holder, Member of the ISAA Champion Outdoor Track and Field Team, member of the LIVE magazine staff, member of the St. Andrew's College Dramatic Society and Players, permanent library duty, co-founder of the Indoor/Outdoor Track-Slack Team (other elite members include M.P., J.M.), member of the UNDEFEATED ISAA and York Region senior 4X100m relay team.

It's hard to believe that my all too brief seven-year stint at St. Andrew's has finally come to an end. While climbing the ranks in S.A.C., I have met many people from all walks of life, all of whom I am extremely proud to call my friend. I was never one to be classified with any one 'group' of people, instead, I have made St. Andrew's my 'group', my 'boys'.

Many people in the past have thanked influential others in their lives by writing down their initials in their Grad comments. Unfortunately, there isn't enough paper in the world to write down all the names of the people, students and staff, who have made a great contribution to helping me find who I am.

However, I do feel that certain members of the staff deserve special recognition, as they rarely get the appreciation they deserve. To begin with, I would like to thank Mr. Whitehead for helping me through my early years at the school as my Housemaster and until the end of my S.A.C. career as my tutor. You have helped me in more ways than you know. Thank you to Mr. Smith for all your help and guidance over the years, thank you for believing in me. Thank you to Mrs. Pilicet and Ms. Marsh for always being there when things weren't going too great, and even when they were. Thank you to Mr. Sommerville for being my Housemaster and for helping me get through those University applications, the school will truly miss you. Thank you to Mr. Scouler to helping me find the actor hidden within me. And last but not least, thanks to Mike (you know who you are) for just being someone to talk to.

To all of the other members of the seven, six, five, four, three, two and one-years clubs, I will greatly miss you, there is a part of all of you in me; I will never forget. To the rest of the review hangout staff, good luck in your futures, I know you that each of you will achieve anything you desire. To the track/slack team, be hungry, you can do it, now prove it. To all of you I am leaving behind, I will sincerely miss you. Continue to carry the badge with pride; live your lives to the fullest. To ALL of the Prefects, I could never thank you enough, you have brought out the best in me. It is an honour to be associated with such a great group of leaders, I will miss our many adventures together; never forget - TEAMWORK, TEAMWORK, TEAMWORK.

To my family, mom, dad, Jed and Nicholas, I love you all for putting up with me, even when it was hard. Thank you for seeing me through till the end. Although I could never repay any of the sacrifices you have made for me, I will honour your names forever.

Although I may not have grown much physically since I came to the school seven years ago, I have definitely grown mentally, spiritually and as a person, and thus, as an Andrean.

Do you think I'm getting bigger?; Bitch n' dude; Huh, where's my money?; Any calls? What's he gonna do...hate me; I'm come n' outta the booth!; It hurts, Some day I'm gonna own a Fountain.

Activities: 1st Football(2a), 1st Lacrosse(1a), Sr. Track(1a), U17 Rugby(1a), U16 Football(2a), Indoor Track(1a), 1st Physior(2a), Weight Room Fanatic, Indoor Climbing Club, House Captain, Sergeant, Sports Store Assistant, HancyDeCarli Wellington Running club, Co-founder of the Wet Bandits, Founder of the On The Bean Coffee Club, Late Night Repelling Club, Obsessive E-mailer, Perfect Hair Club, Slurpie Runner, Black Ninja, Grade 11 prank team that failed, Niacin addict, Member of the A Team, Driveway Screamer.....

Pushing myself further into the world, I leave this place. With a preparation of values, knowledge, and friendship, I am not scared. St. Andrew's College has helped me find myself and has let me be that person. It has sculpted me into a confident, considerate, and responsible man. When I entered SAC I expected so much, I was returned with so much more.

The excitement of starting something new hides my sadness of leaving however, I'm sure the spirit of this place will come back to haunt me. It's hard to believe that I'll have a new roommate when I go away to university. I don't think they will ever be able to live up to my former: Hancy, I thank you with all my heart. I can honestly say that I wouldn't have been able to do it without you. May you do well in all you do.

Growing up is something hard to do. Doing it away from home is even harder. I could have never picked a better place. This institution has an never ending dedication and sincere love for all its students. A big thank-you goes out to all the staff.

The snow is melting and the weather has become warmer. I know my time to leave has come. I am a man now. It is time to start acting like one.

St. Andrew's College! Wow! What a place to be in. Looking back at my SAC career, I definitely have no regrets. This is a place of opportunity and acceleration. The work load is very demanding because of the tight schedule, but the holidays are great; very long. I always liked that. The heavy work load forced me to organize my time. I could not come home and watch TV for a couple hours anymore; I had to start my work soon after I returned from school in order to maintain a decent eight hour sleep. I did not like it at the time, but now realize that it was a kind of mental conditioning to prepare me for university; no pain, no gain.

St. Andrew's College also had a policy I really hated; mandatory sports. I just wanted to get home after school. Sports is exhausting and used much of my precious time needed to do homework. As I tried out for many teams, I learned many different physical skills: throwing, catching, hitting, swinging, and many more. I discovered a different dimension of skills that I had besides school. Little did I know. I was also training my physical fitness. Sometimes it takes someone to give you a little push in a direction before you realize what you can do.

Thanks mom! Thanks dad! Thanks sis! You guys have provided me with warmth and support. Financially, going to St. Andrew's, is quite hefty. I know you guys had to sacrifice many vacations and pleasure for me. I know I will never be able to pay you back, but I will try!

St. Andrew's College trained my mental and physical fitness and organization; not only that, it provided a beautiful environment for meeting many good friends. I have learned many different social qualities and skill from them; I thank them deeply for that. I thank Mr. Sommerville (HouseMaster), Mr. Treasure (Advisor), Mr. Smith, Mrs. Belle, my teachers, my coaches, the staff, my friends, my family, and everybody who have impacted on my life. Thank you!

I leave you with this final saying:

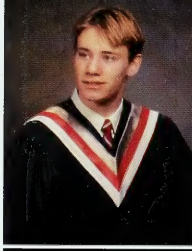

What is important and should be respected is not what one has not done or failed to do for you, but what one has done or tried to do for you.

Hey!!! Well, it's been a long and interesting seven years. During that time many tears were shed, many fists were pumped, and many friends were made. St. Andrew's has had an astounding impact on my life. It had the ability to raise my spirits to new heights, or crush my soul as if it were a piece of papaya. It is a place that fits all people, regardless of shape,

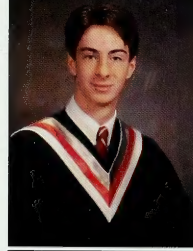

through the same hole. If you are a dresser it will make you cylindrical, if you are a bicycle it will still make you cylindrical; in short, whatever you were before you arrived, you will pop out an Adrian. A well mannered person, who can do a number of things well. To Mr. Swan, Mr. Kinney and Frank Service, your relaxed and understanding demeanours make you a trio of perfect role models for the student body. I'd like to thank my parents for realizing that St. Andrew's would take me where I am to today, even though now is the only time that I am prepared to except that. To the boys and girls that saw me through it, Mike, Mags, Rob, Sarah, Mark, Matty, Matt, Greg, Carson, Griff, Jori, Kristy, Robin, Aubrey, Mark, Hodge, Guiggs!, Jeff Rabnett, hailing from the southern breeches of Scandinavia with too many air miles of public transit under his belt, and of course my high school sweetheart Rosanna. An enthusiastic thanks to my extended family, Mr. and Mrs. Perrier to Mr. G. wow! Its gone by faster than 800 metres with Burski in hot pursuit. To the memorice: casablanca drain master, bombing of all sorts, glockling with J.C. and ManRon, picking up hitchhikers that won't get in, and throwing up for every reason except for the one you would think! Take it easy to the mad man Kudalla from Tripoli, and take care St. Andrew's.

How can they expect me to sum up 6 years of life in one paragraph? My thanks to Mr. Smith for always making time to hear me out about what ever I had chosen gripe about on that particular day. Mr. Dominato for making me plan before doing. Mr.

Scoular for putting up with me during those very long hours in the auditorium. Thanks to all my friends, DR, SF, JM, MY, RB, SD, CA, IM, JR, PH, AB, past or present for making my stay at SAC one that I will never forget. And most of all a huge thank you to my parents for deciding to enroll me in SAC and then putting up with the ensuing extra-curricular activities I joined up with and the crazy hours that came with them.

As my St. Andrew's career winds down, I am filled with mixed emotions. I am ready to move forward but reluctant to, scared I won't find another place that I can feel so at home with. I didn't come here to earn a few measly credits, I came here to grow up. I must say that it has been the friendships that tie me to school the most. Friendships with bonds that may never be broken; friends who will continue to be there as they did through the years of St. Andrew's. I must thank a BIG German, an island bum, a radioactive northerner, and a "Crazy" man for putting up with me as roommates. As said by a past grad, "S.A.C.'s biggest asset is its family atmosphere." Teachers like Mr. Cowell, Mr. Roth, and Mr. Service have truly gained my utmost respect. I thank you for your guidance and wisdom. A large component of this nurturing environment are the extracurricular activities. The "teams" on the field, in the classroom, and in the house that I have been on have helped build my character and has implanted in me all the necessary tools to succeed in life. Special thanks goes out to my siblings. To Lecanne for always being there to talk with, to Johnny for blazing a trail through S.A.C. for me, and to Joseph for being not only being a brother but a friend. Finally, my biggest appreciation goes to my Mom and Dad who have literally put blood, sweat, and tears into the person I am now. I love you.

"Moving forward, looking back."

It is never easy to look back and reckon on the past. Memory seems to be so short, so inefficient in capturing the essence of the past time. To remember is in many ways to confirm how much we forget. As I write this comment I realize that my days at St. Andrew's are destined to wither as I go along. Hence, this is my opportunity to try and arrest some of the emotions, some of the individuals that had an impact and will stay with me.

What is most striking as I consider what this school as given me, is how my mind is out of the classroom. It seems that more than the superb education and work habits, more than the exceptional computer network, St. Andrew's will have given me an opportunity to push myself to the limit, to fall and to try again. For I cannot say that my years here were perfect. In fact the extent of the joys I had seems to be proportional to the obstacles and setbacks I met. Yet as this bumpy ride comes to a close I would like to salute the people who gave me the strength to achieve what I did and encouraged me when the will was shaken.

Mr. Myrans thank you for teaching me the powers of history. Your class and our numerous conversations will have helped me shape a different perspective on this country and this world; Mr. Ray thank you for being more than a debating coach and teacher. Your insight will stay with me forever; Mr. Arril: *Mon Directeur de Conscience*. Thank you for the many words of wisdom and the support you gave me. I will never forget; Mr. Dominato: well we had a rocky first year. Thank you for sharing with me your discoveries on life and being a supportive adviser; Mr. Smith my one regret as I leave is that I never had you as a teacher. Thank you for your constant optimism and desire to stick to the point.

To Joji and Israel I want to tell my gratitude. Joji your capacity to adapt and to see the best in the situations will have served as a great lesson to me. Israel your support in my hard times and your true friendship as meant more to me than I can say. Raymond and Constantine you can always come to Montreal. To the rest of the class thank you for your respect. It was an honour to be with you.

A vous muman et papa: MERCI. Vos sacrifices, votre support constant et votre amour inconditionnel auront été le moteur qui m'aura permis d'avancer et de terminer. Aucun mot, aucune citation ne pourrissent dire ma reconnaissance. Véronique tu es la meilleure sœur que je pourrais avoir. Tes encouragements et ton empathie m'ont donné la force d'espérer. Papa, Maman et Véronique: Je vous aime!

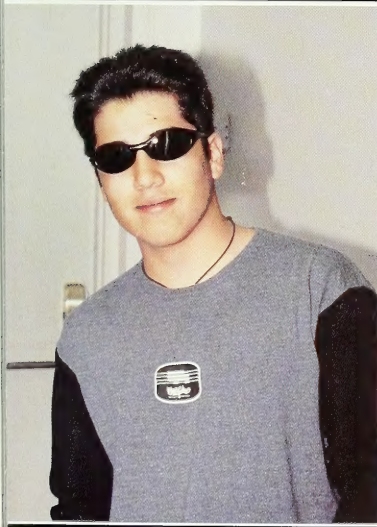

"When life walls us in, our intelligence cuts an opening, for, though there be no remedy for an unrequited love, one can win release from suffering, even if only by drawing from it the lessons it has to teach. The intelligence does not recognise in life any closed situations without an outlet."

- Marcel Proust, Time Recaptured

My three years at SAC are gone forever. Who would have suspected I could have stood that much time in a boarding school away from home. I cannot say I am happy leaving because I will definitely miss this school. I still remember my first day in Canada. I thought this was going to be an incredible experience and I wasn't wrong. In a way this has been my home for three years. During this period of my life I can say I have become a more mature and independent person. SAC has done so much for me. It is a great place to live - at least for a while. I cannot think of another place that offers so many opportunities for young men to improve their leadership skills, broaden their knowledge, tie new and lasting friendships, and become a better person in life.

I would like to thank the teaching staff for helping me in my dismal years: I want to express my gratitude to Mr. Sommerville, Mr. Harper, and Mr. Myrans for helping make History so interesting and my favourite subject. And to the rest of my teachers who always there to help me. To my friends who always cheered me up in my moments of sadness, especially Pierre, thanks a lot for being a great roommate and for your wise advice on girls. Finally, I would like to recognize my parents for giving me this great opportunity, your love and support means a lot to me. I could never forget all the great times I had at SAC; I will always be happy when I am remembering my life as an Andean.

David espero que esta experiencia te haya servido tanto como a mi. Te quiero agradecer por tu compañía y apoyo, ten en cuenta que he estado siguiendo todos tus consejos. Emmanuel, me gustaría que pusieramos nuestras pequeñas diferencias en el pasado, recuerda que eres mi hermano menor y que nunca dejare de quererte; espero que hayas disfrutado tu estancia en Canada, nunca olvidare mi primer día de clases cuando llegaste a mi cuarto para saber como habia estado mi día. Estoy eternamente agradecido por su apoyo y el de toda la familia que me han ofrecido a traves de los años, en los buenos y malos momentos. Jamas los decepcionare.

(Thanks Kam Chan)

During the summer of 1996 I made the difficult decision to leave the small town of Listowel and take on a new challenge, St. Andrew's College. I believe I made the best decision of my life. I would like to thank the Brown family, especially Craig for getting me here, without them I would have never had the opportunity. While on the soccer field I was introduced to the best dressed man at SAC. A very special thanks to my good friend Jeff Marshall for making these two years the best of my life. Thank you Mr. and Mrs. Marshall for allowing me into your home and making me feel like one of your own.

Thanks to all the friends I've met throughout my short stay at SAC, a special thanks to Mr. Inglis, your guidance has meant the world to me, you've all helped me become the person I am today. Keep in touch.

Finally, where would I be without my parents. I know the sacrifices have been larger than I realize, thank you for believing in me enough to send me to SAC, the place I called home for two years.

STEPHEN FOSTER

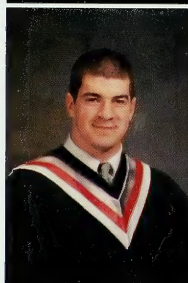

House: Ramsey (1990-1997)
Nicknames: Doogie, Fosbag
Sayings: Whatever; Hurry Up!; Where the hell is Scoular?; I don't need this sh*t!; No Sir, we really do need this or it won't work; Ah what's five hundred dollars, don't you want a good play???; I can't hear anything, you'll have to speak louder; Oh I forgot that at home I'll get it umm... (yeah right)
Activities: Member of the second Swim Team, Head Sound technician for entirely too many plays.

The end has come and not a moment to soon, the times they were fun but it is time to move on. What can I say seven years is a long time to be in any place. I regret little, and hope that I will not leave with too many regrets.

emies. But I know that I will leave with quite a few supporters and I thank them all. I must thank my good friends: A.E. D.R. P.M. G.B. K.D. and especially my girlfriend who has supported me through the last two years (even though she may never see this). I must thank my teachers, especially, Mr. Smith, Mr. Inglis, and Mr. Scoular, for making my life just that much easier (or harder as the case may be). I must thank my mother and father, for if it weren't for their support (both moral and financial), I would not be here I just hope that in my life I can repay the service that you have done for me. My most heartfelt thank you must go to Mr. Walden, for if it were not for his persistence, I would probably not even be alive today. I will never forget what you did for me and hope that one day I will be able to truly thank you.

I now must move on, and though my future is unknown, I am confident that I will have a good life. For even if I am not prosperous, I will have many of you that I love still with me. But now with my close future starting to unfold, I must leave this place, but I hope that I have left enough of a mark to be remembered in some way.

Sayings: Brownie, that's not cool; Did you see her...??; No, I don't do work anymore; Nice; No worries; Shit happens; That guy's dead!; Guess what I did this weekend, yup a new record; Simon, how was your weekend, nice!!; Tim, wanna go get some food; Glenn let's get fucked, no you're not!!; What a joke.
Activities: Prefect; Head of house; Pipe major; House Captain; 1st Football (3a, Captain '96, 1997 OFSAA Champions); 1st Rugby (3a, Undefeated champs '96, England Tour '94, Scotland Tour '96); 1st team mowing and finger painting; Subway; Hanging out; Procrastinating and all the other wonderful SAC traditions.

Not only am I leaving the wonderful school I've attended for 7 years, I'm also leaving my home of 19 years. I look into the future and worry about where I will be without all the friends I've made here, but I realize that our friendships extend past the gates of SAC and to where ever we go. I wish the best of luck to all of you, please write or call. I would mention names, but there are so many to mention.

I must thank Mr. Smith, not necessarily for what I've learned, but when I was down you could always make me laugh. Mr. Swan, you've given me a work ethic that I will carry with me for life. Mr. Cameron, not only have you been a coach and a mentor, but a friend. You have taught me how even through the tough times I can stay strong. Thank-you so much and I wish the best to you and your family.

Finally, I should thank my family. Mom and Dad I realize the struggle of the last 7 years and I love you both so much. Andrea, just keep it up and you'll get what you want. Chris, You'll be a great teacher. Jay, keep up the hard work, your going to be huge soon and a force to reckon with. Now there is just one more person to thank, Jill, we will be the best of friends and more forever.

A lot of memorable experiences have been gained through my four years in SAC. There is no way to put down thoughts that have accumulated for 4 years within a few hundred words. So I just want to thank some people here.

First I want to thank y parents (Mom, Dad, Tom and my Uncle) for giving me this opportunity to attend this school. And to all my friends: Angus (my roommate for 3 years), Ken Lai, Chetwin, AXX ho, Thomson, Herbert ("Chu"), Choi, Eric Lam, Richard Ng (my roommate for 1 year), Michael, Mao, Yu, Billy, Chu, Ronald, Berby, Andy Ma, Danny Leung, Harry J. Leung, Alvin, Willy, Tony, Alan, Kelvin, K.K, Alex Wong, A. Yung, Fat Go... etc. Thank you for always being there when I need you most. Good luck to all of your future, we'll keep in touch.

Special thanks to Mr. Foy (my Housemaster for four years), Mr. Hemmings (my fencing coach), Mr. Wenk (my Math teacher), Mr. Treasure (my English teacher), Mr. Inglis (my Advisor) and Mr. Giel (my Accounting teacher).

I have too much to say in this short comment. It is always hard to say good bye, and I will not forget these four years in SAC. "God Finally....! Good-bye SAC."

DUANE GAFOOR

Nicknames: Gafoor

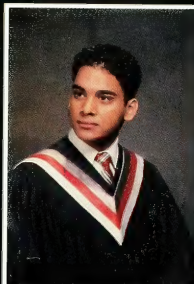

Sayings: What are you talking about?. It's all you baby. She's not my girlfriend. We had class today! OHHHHH S-S@!!! I was sleeping. Let's go to the Review Room. Where were you during DECA??? What's her name?? Kevin can I drive your car?. What the hell, Do you have a sister?. It's for you man, I'm hungry. I didn't do it. Don't tell her, Serious. Seriously, She's my girlfriend, I didn't speed it was Kevin. Honestly.... Oh, can I ask you a question?

Activities: Debating, Track and Field, Cricket, Basketball, Karate (club capt.), SAC Drama Society, House Captain, DECA (sac's first business club, Founder/President), Pipes and Drums (Master Warrent Officer), 100 mph dash down the driveway, "Live Magazine", Library Loungin', and much much more.

The memories and friends I have made during the last SEVEN YEARS I will never forget. It's hard to believe it's all over. When I first came to SAC I was only eleven (1990-91's youngest student) and I had no idea that I would have learned as much as I did during my stay. St. Andrew's has given me more than an academic education, but it has taught me the lessons of life.

I would like to thank my parents for making all the sacrifices necessary to send me to St. Andrew's. "MOM, DAD, THANK YOU FOR ALL THE LOVE AND SUPPORT." I would also like to thank my brother, Chris, for being there when I really needed him. "THANK YOU" Mr. Bedard for giving me the opportunity to come here. I would like to thank my teachers, especially Mr. Foy, Mr. Halstead, Mr. Walden, Mr. Smith and Mr. Myrns for all you have done for me. I would like to thank Mrs. Perrier and Mr. Perrier for making my stay in Memorial House an experience I will never forget. To my friends graduating, soon to graduate, and graduated, "THANK YOU FOR ALL THE MEMORIES AND SUPPORT. I WISH EVERYONE ALL THE BEST!!!!"

ENJOY!!!

I would first like to thank the two most important people in my life: my Mother and Father. Without you none of this could of been possible. When I first came to St. Andrew's, I missed home until it became unbearable, but thanks to my beloved guardians, it became a little easier. For all you have done, I say with deep gratitude, thank you. A big respect and thanks goes out to all my teachers but in particular Mr. Walden who never allowed me to forget the "Spices!!" of Jamaica and to Mr. Perrier for "engineering" my phone bill in times of need. Most of all I would like to thank Mr. Bedard who co-operated in giving me time off school to pursue my volleyball future. I have grown in two years to appreciate St. Andrew's and the great things I have attained and learned. Great friends, raising my level of education to 'Higher Heights' and exposing me to endless opportunities are precisely some of these things. The great future that I have and see now was all because of my attendance at this great institution. Thank you to all the people that made it St. Andrew's.

I came to St. Andrew's feeling like a criminal. I'm leaving with a couple of morals I picked up along the way. As I sit back and look at my five year stay at the school, I can think to myself, I made it. It was only gated twice, I may not have been involved in everything, but I still got the essentials for the outside world from this school. From the nights in the Bug (123 game), to the parties up north with the boys from last year, I have too many good memories from this place to mention. I have met a lot of people on my journey. Not all can be considered friends, however the ones who are know it. As a changed person I have to give most of the credit to my Mother who raised Mark and me properly. We both love you very much. Mark, keep your head up and do your best. Dad and Kathy, thank you for your support. Na-Na, thank you for everything. Buys, I will be something someday. All of you are the most important people to me. To the Pugliese family, thank you for the great experiences you have given me in the years. To Mr. Smith, that tough exterior makes you too much of a nice guy. Thank you to Mr. Sommerville who put up with me being late almost everyday for chapel. Mr. Scular, you made me understand English. Mr. Whitehead thank you for being a good friend and tutor. To Herce, Churchill and Fred, you guys made this year that much better. As I leave this school for the last time as a graduate I can say one day I'll be back and you'll know it.

First of all I'd like to thank the teaching staff of SAC, especially: GS, JW, MC, GS, DG, BP, SS, CAM, WS you've made a huge difference. The most valuable thing I have gained from my five year experience at SAC are the friends I have made here: AC, GM, MN, JH, CC, SB, BC, JD, MF, AI, BUFF, JS, JT, SW, RC, IM, RJ and all the rest. Abe: thanks for all the nights of losing money at casinos; good job at the Valentines semi-formal, I'll never forget it. You'll never let me live down that damn antenna thing will you? Gaerne: thanks for always giving me a home away from home, a place to crash, along with the "use" of your basement. John: thanks for being the best golfing buddy I ever had, for having relatively the same outlook on life as me and for being mine (and everybody else's) graphic design artist. Who will ever forget Stinky Gaertner, the chintz-bug or Hockley Valley. Constantine: thanks for always listening and offering advice when it was asked for, without talking to you things never would have turned out so well. Buff: you too! Thanks for always running around doing useless stuff with me, sorry I dragged you around on the Newmarket Taxi, and how am I supposed to fit the tree in the trunk? I think the homecoming plan worked out really well, but we'll have to rename it to the "semi-formal plan" Guys (you know who you are): what a bad idea the caper was. It sure screwed a lot of things up didn't it? I'm sorry things had to end the way they did. I'll never forget my years at SAC. If I tried to remember all the good things that ever came of going to this school, well I'd be here for another five years. All I can say is that if my parents hadn't sacrificed to send me here, my life would never have been so happy and so full. Mom, Dad thank you for sending me to St. Andrew's, it's the best choice you ever made, without your help, love and support I wouldn't have made it. I love you both. Finally, Good luck to all the grads of '97 - have a ball at university, but never forget where your roots are and from where you came.

1992-1997: five years of exciting, fun, sad, triumphant, shaky, exceptional bliss. A funny little kid in grade nine evolved into a funnier, slightly larger man in grade thirteen. Mom and Dad: thank you for giving me this priceless opportunity to grow and become a man in such a perfect place. I'm now ready to take on the rest of my life. I'll make you proud.

What a trip! At the end, I tried to make the days go slower, but it wasn't any use—they simply sped-up. I missed SAC life for all it was worth this past year. It was the swan song of my St. Andrew's career. I will deeply miss talking with buddies in my room until three a.m.; sitting in the coffee shop, "reflecting," as Mike calls it. Despite the odd downs, they were far out-numbered by ups, which will make me remember these days for the rest of my life. As much as I am excited to move on to university, I am torn with sadness, leaving this fantastic little world behind.

Forever will I remember rooming with John for three years, Mike for one; trekking around the Himalayas with the Nepal boys. Mike's golfing and movies were priceless! Neil Diamond helped me become a sensation, and to him, I am forever grateful. Now when I throw on my Neil CD's, it will always zip me back to my glorious grade thirteen year, and all of my time spent at SAC. I want to thank all my friends: JD, MG, MF, MN, AC, CC, HL, JS, DR, AH, SB, SW, JT, JO, MR, TJ, PF and CR. Congratulations Mr. Kimmerer, you put up with me for four whole years! Thank you JW, GS, DG, and TP—you had an astounding influence on my life. At the ten year anniversary, I'll be the tallest—you just watch John! This is the end of the beginning, thanks everybody. Cheers!

To Tom: Make it great, enjoy yourself, and don't take a single day for granted!

What does St. Andrew's mean to me? It means preparing for a life-long journey and SAC has provided me with everything I need to better prepare myself. St. Andrew's means joining friendships which last a lifetime. Another meaning of St. Andrew's is the morals they teach here which will keep you on the right track. Most of all St. Andrew's has done to me just as it has done to others, turning a young helpless boy into a strong, distinguished, young man.

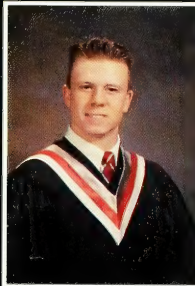

I would like to thank St. Andrew's for giving me the experiences and responsibilities which will better prepare myself for all of life's road blocks. Thanks to all the masters and staff who supported me and kept me in line. To all my coach's for helping me produce skills. Thanks. Especially thanks to Coach Dunford and Coach Galajda for teaching me to be the best that I can be and that "winning is everything".

Special thanx to Michelle Crow for being there when I needed her throughout my final year and to my "big sis" Julie for being the best role model anyone could ever have. Most of all to my parents, Earl and Donna, for making certain sacrifices for me to have the chance to attend such an excellent institution.

Thanks, Mom and Dad!

I have been an Andread since September of 1992 and will be for the rest of my life. During the five years at S.A.C. I have made some real good friends. The kind I hope never to lose touch with. I owe it to these friends for making high school an unforgettable experience that I will cherish for the rest of my years.

I have had the privilege of playing on some incredible sports teams that were just as fun as they were competitive and that is saying a lot. I thank all the coaches of 1st Football especially Michel Cameron and Steve Rush for showing me the ropes. To the coaches of 1st Rugby: Stuart Swan and John McMillan I send a sincere thank-you for making my two years of 1st Rugby so much fun and making rugby a passion for me. I would like to thank all my teachers for making this a priceless learning experience, while making it as painless as possible.

My parents, however deserve the biggest Thank-you of all, because without them I would never have had the opportunity to experience life as an Andread. I am forever in debt. Thank-you.

Words of Wisdom: "If someone asks you to do them a big favor, (like driving their car across the border)... THINK TWICE!!!"

It's been a long time since I had first crossed the gates of SAC. Seven long years of happiness, frustration, enlightenment, friendship and discovering oneself. I must admit that I was not too exhilarated when I first heard that I would be going to a all-boys boarding school. I thought to myself "I must have done something seriously wrong to deserve this punishment". But after lacking for 7 years, now I feel I will miss this school very much when I leave. Through the years of happiness and hardships I must thank my friends for supporting me and always being there (the brothers down at Denlow). I also have to thank my mom for giving me the opportunity to attend SAC and my grandparents for always being supportive. Final shouts out to Kev, Carey, Angus, Milkboy, Igor and the rest a'ya.

House: Memorial (1990-1997)
Nicknames: Hodges, Hodgy, Salodges, Captain Rogers
Sayings: No, it's a birthmark... No really... Yes yes, it has always looked like that... no it doesn't hurt.
Activities: Prefect, Head of Memorial House, Captain of Memorial Company, First Badminton (4a), Cross-Country (4a), First Basketball (2a), Thrice elected Mrs. St. Andrew's, Morgs' conscience, Hiding under my desk.

I entered St. Andrew's College with a shy demeanor, an appendix, tonsils and a frown. I leave the school, however, with a twenty-four hour smile, an outgoing personality and my appendix (in a glass jar). The school has

taught me all the skills I need to be a clown. I have learned to juggle three balls at once, the academic ball, the athletic ball and the social ball (although I have been known to drop that one from time to time). I would like thank the Perriers for all the important work that they do. To my parents, I am eternally grateful, not only for their financial support but also for all the love that allowed a shy twelve-year-old to last seven years so far from home. My friends, Morgs, Guggs, Jackson, Don and Rabs you guys have like my liver. I couldn't have survived without you. To Keith, Diane, Tony, Nancy, Chris, and Grama Lil, all of you represent the rest of my vital organs. To Mr. Harper, thank-you for being my person to talk to, Mr. Dominato and Mr. Robson, thank you for all the positive reinforcement. Thank you Mr. Bedard for making the school what it is, and good luck with the rest of your career. To all the masters, thank-you for your attention. Finally I would like to thank the student body for making me part of a community, a brotherhood, a family.

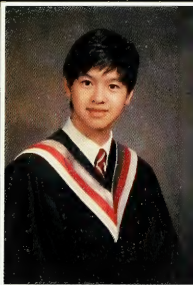

Wealth is not his that has it, but his that enjoys it.

"If it's meant to be, it will be."
 Seven years ago, I detested this place and shed tears of frustration and anger at the thought of living here. Today, everything has changed beyond all my expectations. I vividly recall my experiences here; there were the days of lower school when I followed every rule as well as the times when I turned in the opposite direction and stood firmly against all the standards set. I will not classify which days were good or bad because they all contribute towards who I have become. In my opinion, St. Andrew's College is a microcosm of the world in which we live because issues that are prominent in our society apply here on a smaller scale. As much as the academic programs are extolled, the essence of St. Andrew's lies much deeper and cannot be found solely by attending 50 minutes of a class. I sincerely thank all the masters that I have met throughout my seven years for being tolerant with my changing attitudes. I am fortunate to find two true friends whom I can share all my feelings with and I hope we can stay that way no matter what lies ahead in our lives. I'll never forget the good times; Thanks to all the others A special thanks to Miriam, for you have taught me to think positively as well as given me confidence and hope when I needed it most. To my parents: to say thank you would be an understatement because your unconditional encouragement, love and support could not be described by any words.

TIM JACKSON

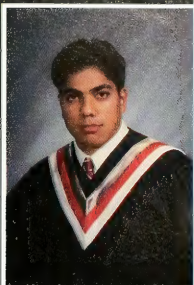

House: Memorial ('96-'97), Ramsey ('93-'96)
Nicknames: Timbo, Action Jackson, Tee-Jay, Jacko
Activities: Head Prefect, 1st Basketball (4a, Captain), 1st Football (1a), 1st Rugby (3a, Captain, 1997 OFSAA Champions), Cadet Commanding Officer, Member of Outreach Committee (raises money and aid for charities).

Because I feel I have been given so much, in different capacities, during my time at St. Andrew's, the only comments I would like to make at this point are "thank you's".
 Thank you to Ian Craig, Rich Rabbett and Derek Bulas for helping me to find my niche at school, and for making me feel a part of the team on Under 16 Basketball. Those times are some of the purest memories I have of St. Andrew's and mean more to me than I have ever told anyone. Rich, I'll always care about you and respect you, no matter where you are. Deke, keep me a space of floor to sleep on when I come to visit your pad in Carolina (sniff sniff!). You're a great friend. Thank you to Kevin Hanley for having energy and leading our team to a second CISAA championship. You're a very strong leader and I learned a great deal from you, in and outside the sports arena. Rabs, we've had our ups and downs and I don't know where the future will take our friendship, but I'll be thinking of you and if you ever need anything... Thanks for all your support over the years; you always make me feel good. Thank you to Mr. and Mrs. Peacock for their warmth. Eric Morgan, you've influenced my life athletically and otherwise. Thanks for all your help (Large and In Charge!). Thanks to Hodge and Gaipis for making Memorial feel like a home. Take care Donnelly (I mean that seriously). To the 1996-1997 Prefects, we did it. You made everything happen this year (Brown Dog, Hollywood, For Toy, Hodge, Keith Sweet, Match, Newis, Buffer - Thanks also to Simon for successfully planning the school's first Lower School Dance along with everything else he did, and to Bren for all of his help). It was a pleasure and honour to be associated with such a great group of leaders (all 10 of you).
 Thank you Mr. Perrier for being such a positive influence in the formative years of my life. Your guidance and coaching has had much to do with the person that I have become today. Mrs. Perrier, thanks for being you. Mr. Foy, your advice and time was much appreciated and always valued. Mr. Swan, thank you for the valuable contributions you made to my rugby career and for being a first class person. Mr. Bedard, your guidance and friendship I will always remember. Finally, to the greatest family in the world - THANK YOU AND I LOVE YOU ALL. Mom and Dad your love and support have always made me feel special and valuable. Boy were you right! I'm glad you took me out of Hell (public school). I can't pay you back for all of the money you've given to my education (and to Ultra Whey) so I'll just try to make you proud. I love you. Eric and Lara, thank you for your love, you are my best friends. And thanks to St. Andrew's for giving me opportunity and giving me something to shoot for. This school has shown me that hard work pays and that people, when all is said and done, are what really count.

The past 2 years at SAC will be the most memorable years of my life. This school has brought so much to me that it will stick with me forever. I have made so many friends at this school. Many thanks must go to both my parents for all their encouragement and love. Without them I would be lost in this world. I would also like to thank Mr. Perrier for his patience and help. I have learned a lot about basketball in the past two years, and it is all thanks to you. I would also like to thank Mr. Walden for waking me up and making me realize what I really had to do. Mr. Foy, thank you for being there whenever I needed you. Thank you Mr. Smith for helping me get into university.
 Bigups to all the West Indians, Mexicans and Canadians who have made SAC a wonderful place. Victor, Tommy, Ibo, Bren, Constantine, Bruce, Kirk, Sands, Dave, Joji, Jeff, Carey, Weber and the Chinese Mafia (Kwokie and Koh) and anybody else I might of forgot.

Two years have flown past quickly, I can still picture the first day coming to the school, going past the school gate, thinking of what was awaiting for me in this new strange place. Now here I am sitting in front of my laptop in my room writing this Grad Comment. There were times that were up and downs in the life of S.A.C. but I have to admit that I have grown from a little immature kid to a more mature person. Life is just like reading a book, and life in S.A.C. is just one of the chapters. Now I have come to the end of a chapter, not knowing what is awaiting me in the next few years. (University)

It is quite impossible to sum up the two years of fascinating life in S.A.C. Therefore I will wrap up by thanking those who had made all this possible.

First of all I have to thank my parents who have went through so much hardship just to bring me to S.A.C. and the encouragement that they have gave to me both spiritually and economically. Thank you Mom and Dad. (I did it.) Thanks to all the teachers that have made my graduation possible. And also all my good friends at S.A.C. that have went through sadness and joy with me. Specially to Colin Hsu (Being my all time wrestling partner, also teaching me baseball.), Harry Lyi (Best partners in computing and disinging), Albert Tsai (Always there for me to diss at), Alan Wong (Thank for all the Calculus tutoring), Michael Cheng (Being my best roommate.), Vincent Kwok (Nothing special), Terence Liu (Sissy Liu, you owe me big time baby), Andy Ma (Chinese foods that you have owed me are uncountable.), Dennis So (My biggest benefactor.), Felix lo, (Thank you for teaching me lots of computer stuff and always fixing my computer.) Brian Liu (My favorite Small White (Xiao bai), Alex Ho (Thank you for letting me play Iphone even though you have exams.) Carey Chow (For teaching me all the skills in basketball, that had made a better player.), Best wishes to Atsushi and Tom Takada and to all that I have missed out. Here I will like to give a special thanks to a person who has been a good pal with me for the past 8 years, and that is my roommate Barry Wu (don't cry lah), for bearing with me for the past years and not say a single word of regret. For those whom I have missed out so sorry man!

Farewell Saint Andrew's College, I am proud to be an Andrean.

The four years I have spent at SAC have been the most significant years of my life. For this opportunity, I would like to thank my parents and family (especially to my sisters). I really can't express how grateful I am for all the support you have given me. Special thanks to Ada (LP) for all her love and support.

Studying at SAC has been a turning point of my life. I have become enriched in countless ways that I could never even begin to describe. I also met two "true" friends, J.H. and R.H.. Thanks guys for always being around when I needed someone to talk to.

Last, I thank all my friends and teachers at SAC, specially to Mr. Perrier, Mr. Myrns, Mr. Cameron, Mr. Ingles, Mr. Giel, Mr. Wenk, CC, AM, RL, BL, GL, AW, JL, KS, DG, AK, HL, AH, and KF.

These four years at SAC, has been so slow yet so fast. I feel like we have reached the end of the road, yet there is a whole new world for us to discover beyond the horizon. Just the other day, Mr. Timms gives us this assignment and asks us to write up our grad comments for our finals years. I sweated over it for nights, yet I couldn't come up with anything good. I couldn't possibly express the feelings and emotions for SAC in so little words.

SAC has given me some of the best years of my life that I will never forget. SAC has given me the best in education and has prepared me for my coming years in this harsh society (where the law of survival of the fittest abides). It's loving and caring environment has made us into loving individuals yet it's challenging environment has also made us into courageous independent men. I believe that what SAC has given me can only be summed up in six words. "Quit ye like men, be strong!"

I'm grateful to my parents for the sacrifices they endured in giving me this opportunity to be at SAC. (Love you Mom and Dad!!) To my parents, I want to thank them for their financial support, the love they gave me, and believing in me. Thanks to my bro (Danny) for his support and love. (I did it Dan, I know you can too!) I give my utmost gratitude and respect to the teachers and staff at SAC that has helped me through the years. My best wishes to you all!

Finally, I want to thank my friends because I can never have made it without them! I just want to say that friends are the most important things in life and these should always treasure friendship. Thanks to A Wong (a best friend to me in one last to years), A Koh (someone for me to hug and beat up at the same time), A Takada (a real friend who has never let me down??), B.Liu (What else can I say Brain?), T. Chan (for teaching me all the bad stuff and made me fied my car!!), D. So (a friend that is sun sun fa fa) F. Lo (Cecilia and I are just good friends. OK?) R. Jordan (Kick your ass any day, you feed!), R. Chen (Buds 4ever man!), J. Law (I always your worst friend), A. Me (I'll make it up to you someday), T. Liu (sissy liu), L. Chen (You are my idol, Lori Ge!!). I could have never done it without you guys. Thanks for the incredible B-Day bash, I was really touched!! Best wishes to those who are on the same boat as I (Good luck in University). For those who are still on the road (TOUGH! Heheheh) to University, just keep on trying and never lose sight of your dreams! Forever an Andrean!

At the first time I entered the front gate of S.A.C., I realize that the journey of my rest of highschool life will be special, unforgettable and challenging like the long, narrow and winding driveway running up to the Macdonald House. During my three years at S.A.C., I have learned so many things that cannot be mentioned all in this comment. Besides the academic aspect, more importantly, my life in the boarding house (Sifton) gives me a valuable opportunity to meet different people from all over the world and learn how to get along with them harmoniously and happily which is the aim of proposing multiculturalism in Canada. Moreover, the friendship established during the time at S.A.C. is also a treasure that I have found and earned.

Finally, I would like to thank all the teachers who have ever taught me either inside or outside the classroom. Special thanks to Mr. Kimmmerer, my housemaster, for giving me a hard but enjoyable and memorable time in Sifton; Mr. F. Hiltz for clearing the physics' concepts over which I once struggled (I always in the dramatic ways that we enjoy very much); Mr. J. Smith for not stepping his big foot over me when I was in his chemistry class; Mr. R. Kinney for giving me a chance to learn freely and independently in the Biology class; Mr. Inglis and Mr. R. Bedard for correcting me from the deviated way. Again, there are many people whom I want to thank. It I missed you, please forgive me. I do not intend to do so.

Most important of all, Mom and Dad, thank you for supporting me financially and spiritually to have such a luck to be a member of S.A.C. Honestly, I have learned a lot. Thank you!

I would like to thank all the Masters of St. Andrew's for making the past 4 crucial years of my life as enjoyable, educational, and prosperous as they were. I have learned things I would never have learned at another school. My thanks to all the masters who gave endlessly of their extra-time for help and sometimes just a friendly talk; for all the coaches who put so much time and effort toward great seasons.

To my parents: I owe you both very much, mom and dad. You have invested an awful lot in me for which I will always be grateful. Thanks for insisting that I should come here, and most of all for putting up with me during it all

As my final days at SAC approach, I feel extremely ambiguous. I am very excited as I advance toward a major intersection of my life; yet knowing that I will not see many of the familiar faces at SAC next year, I feel quite uneasy. Thanks to mom and dad, who made a wise decision four years ago when they decided to send me to SAC. I assure you that it was money well spent. Thanks to i4, who encouraged me to strive for a career in computer engineering: something that I did not have the courage to pursue. You made me believe that interest should be the main consideration when deciding what to do in life. Thanks to 726, 417, and I 130, who have given me a time that I will never forget for the past two years. We have walked through what I believe is the most interesting part of life together. You will always be in my heart. Thanks to all my pals from both inside and outside of the school. You all took part in shaping my character (well... I dunno if that's good or not), and you all made high school fun for me. Finally, thanks to all the teachers who have taught me over the last four years. You have enriched me with knowledge, skills and experience that will last for a lifetime.

Most of us will be going off to different places to face new challenges next year. It is not exactly pleasant to go to some strange places alone, but nonetheless it is an essential part of a journey to good education for some of us. I hope those of us who will be going away to educate themselves will find the experience rewarding. I wish all the best to everyone at SAC, especially to my friends who will not be going to the same university as I am. It is always difficult to keep close when distant, but I do certainly cherish every friendship I have made through the years. Guys, friends forever.

Well, it has been four years since I was here at SAC and seeing the changes is a really amazing experience. Although most of the people that I used to know are gone now, knowing that there are still some people here that remember me is really comforting.

Four years ago, while I was still in grade nine, I didn't enjoy SAC life at all! I mean, there are so many rules, like while you are studying you can't

even read a comic book! Lights out at ten and sh*t... So I guess all these rules has made that year a really difficult year for me. But this year, it's totally different. I can't say that there are no rules what so ever, but I guess being a Grade 13... Well... The rules are a bit relaxed, and you can do much more fun stuff... so I really enjoyed this last and final year at SAC.

Finally, I think I really have to say thanks to some people. First, I have to say thanks to Mr. Inglis, Mr. Smith and Mr. Sommerville for being so tolerant of me and for being such nice teachers. Next I have to say thank you to some friends of mine: Angus, Gerald and Andy for helping me to create G.O.D. and for being such nice friends (even though sometimes you people can be quite an asshole). And Kevin Liu, Wilson Yu, and of course Kelvin Chan for being such a good listener and friends, and to Kelvin, thanks for being such a good roommate although you are NEVER here!

Finally, finally, I HAVE to say 'thanks' to Mr. Hiltz.

St. Andrew's College has surprised me in how it has become so much a part of me. It has surprised me with its unique environment and undying traditions. It has surprised me in how much fun I had with the friends and people of the school. It has surprised me in how deep it will remain in my heart.

Carey, I've known you since grade six and you have become a person I respect and admire. I can't ask for a better friend. Will, I envy you. Your ebullient attitude is so contagious that there is never a dull moment with you. Keith, what can I say, you made school so fun, it's crazy - I will cherish my high school years forever. Alvin, Ivor and Dennis, this last year would have been even better with you guys here. To all my friends who set foot in the Review Common Room, it's been great. Friends forever. I thank all my teachers for their enthusiasm in teaching and their invaluable guidance in making me the person I am today. You were the true gifts St. Andrew's had to offer. To Mrs. Marsh and Mrs. Pilici, your tenacious helping hands and welcoming smiles made school a lot more cheerful and pleasant. Thank you, Mr. Sommerville, for being the best Housemaster possible and for being so understanding for all the times I mixed up my books/bag for class. Special thanks to Mr. Scouler and Mr. Hiltz for your relentless encouragement and faith in me. I will never forget that. To my loving family, I thank you with my heart and soul. I am forever grateful for the sacrifices you have made and the love you have shown in bringing me to such a marvelous place. It is a miracle to have the friends and family I have, and the memories of St. Andrew's I cherish - life is like a dream.

Walt Disney once said, "All our dreams can come true - if we have the courage to pursue them." Like all other dreamers, I have dreams for my future and how I will change the world. St. Andrew's College has given me the courage,

Leaving Sac is not ending a chapter in my life, but finishing off a book. Six years at SAC has given me life-long friends, life-long memories. From the scent of my grade seven roommate DEB to the memorable soccer trip in Hamilton, Sac has become part of my life, my history. Sac has taught me everything I need to know to be a success out of the school gates.

Without my two loving handgums (parents) - I would not have been able to attend a school of this caliber. You've been supportive of all my decisions and sacrificed many things so I could attend SAC. Without you, nothing would be possible. To my Grandma, as stubborn as you are, you've been there when I needed you (doing my laundry). Thanks to all the teachers at SAC; you've made my journey pleasant; Mr. and Mrs. P, thank you for your understanding and care. Mr. Sommerville, sit to see you retiring; without you I would be back next year. Mr. Bedard, for being kind and generous.

Thanks to all my friends; you guys made it fun and exciting. As sad as it seems, Chi (loves big ass), you are my best friend. To Carey (who still owes me one for the little car accident) and the Cru, Rick (brain), Will (Shane) and Keith (Tanita lover) James, I hope we are still friends. You have been great! To new friends, Andy (cum-sau) and Ricky (you really are really a God). Mess, Fu, Tom, Piers, good luck next year.

HUGH ANDREW LONG

House: Flavell (1992-1997)
Sayings: I see... (just to appease Mr. Giel)

I took my first step into SAC five years ago, the changes were not apparent until years later. I have seen much, experienced much, and learned much. I have discovered how to appreciate trust and friendship. Even though I cannot say I leave SAC as a man, I have gained much in wisdom, and more important, taken a step in the right direction.

To round things off, thank you Mr. Foy for taking care of me the past five years as my housemaster. Thank you again for advising me academically as my advisor, and for always having time to see me (I assume that I can find you). I would like to thank Mr.

Bedard, Mr. Arl, Mr. Ray, and Mr. Somerville's (sometimes) enlightening chapel sermons. I would like to thank Mr. Smith; if there's one thing I will remember from SAC, it's your voice. It kept me awake at night. To Mr. Timms, who labored to discern my readable writings from the unreadable (or vice versa).

Finally, to my pals on third floor: Styles and Phish; you two owe me favors still.

House: New (1991-1997)
Nicknames: Buff (I am thinking of having it legally changed), Buffy, Buffer, Buzz, Bufferino (and other forms of "Buff"), Afro-boy, Winston, Brian (????)

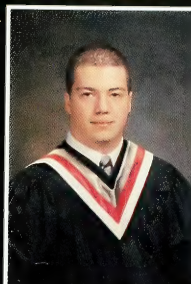

Sayings: Nighty-Night... I am in trouble! Hey Graaf, can you give me a ride to (put destination here)? HAAAGGGHHHGRAAF! I've got to go to a meeting. No Simon, I don't want anymore swamp things! Richard, you don't know what your talking about!

Activities: Prefect, Co-Head of New House, 1st Football 3a (Co-capt. 2a), Sr. Squash 3a, 1st Rugby 2a (CISAA Champs '96, 1997 OFSAA Championships), U16 Football 2a, U15 Football 1a, Jr. Squash 3a, 2nd, U17, U15 Rugby and U14A Cricket 1a each, Debating Society 5A (Executive Member), Pipes & Drums 4a (Co-Lead Drummer), Rugby tours to England '94, Scotland '96, New Brunswick '96 and Stansstead '97, Grad Trip '97 to the Dominican Republic, Sampling Dominican Plants as a bed, I line Carol Service solo, Forum '97 with Carry (Who's the...?), 1st Can Eating (MVP 2a, only cut myself once!), Newmarket Taxi Passenger, 1st Truffle Shuffle and Zuma Warrior Dancing (Yes, they are two different dances!)

If anyone there to tell me six years ago that I would have done all the things that I have while I was at SAC, I would have thought they were crazy. From the first night in Mac House watching King Ralph to Prize day sitting on the Quad for the last time and getting my diploma, I feel I have managed to get involved in just about everything the school has to offer and I wouldn't have wanted to do it any other way.

There are many people who need to be thanked for the impact they have made on my time as an Andrew. To all my coaches over the past six years, particularly Mr. Cameron, Jones and Swan who have helped me to add a number of great sporting memories to my time at St. Andrews. Thanks also to Mr. Somerville my long time house master and to all the teachers who have taught me so much. Of course, what would a grad comment be without mentioning a few names. Fred: Thanks for driving the name that I will take with me for the rest of my life. Mike: Thanks for creating me all over the world for various things. If you ever need a ride somewhere let me know, cause we both know I love you. Lowes: You'd better be dancing next year! Keep the traditions alive! To all the rest, thanks for the memories and we'll meet again at Homecoming. As well, thanks to my parents for giving me the chance to come to such a great school. I can never repay you for what you have given me.

To all the Andrews I leave still at SAC, I offer this piece of advice: Get involved. There is much more to SAC than school books and classes, and you will never get a chance to do many of the things you are given the chance to while you are here so take the time to get involved. Good luck to all!!!

Sayings: Ahh, there's plenty of time to work! That was due yesterday! Where's the party? Sorry sir, I forgot. Fish, let's go get food! Here's to the food Prefect. Hey, Church! Odell Pecchall! Mitch, you STINK! And I bet she has a great personality too, right Glenn? I'm the best! I'm a ninja! I have splinters in my butt from riding the pine for so long! Why do I have to go first? Let me go, I can walk! Mum, I need more money. It wasn't my fault! The place looks a pure white! Damn those cement benches!

Activities: U16 (ISAA) champs,

1st, Football 3a (2-time finalists); 1st swimming 4a (ISAA champs '97); U17, 2nd, 1st Rugby 1a (ISAA champs), Scotland Rugby tour 1996; 1st Pine Riding 3a; Elite 1a; House Captain; Stu in Waiting for Shuggie's Ma; Co-founder in the Secret Society of Black Ninja's; Sifton water bomber; Original Snow football squad; Woodstocked 2a; Gr. 13 Canoe trip with servas; Strong defender and integral member of the destroyed, debunked gr. 13 prank

I don't know whether to start off by apologizing to or thanking my parents, teachers and friends. Thank you for all your guidance and relentless efforts to ease, coerce and eventually force me down the right path even though I still managed to stay on the fringes. Thank you Mr. Walden for your eagle eye, but I still can tell whether you're being serious or not and you're the only one that caught me with my brother's scholar's tie. Mr. Kimmerer, what can I say? A rational voice, but an admirable adversary. It was challenging but who won? I'm leaving, you're retiring. I guess it's a stale mate. To all my coaches at SAC, Mr. Cameron I don't think you realize the extent of your influence, Mr. Walden no swim coach ever put so much into one team... Congratulations Mr. Walden! That was your victory as much as anybody's and to Mr. Swan for whom I didn't play for in my final year, but the Scotland '96 tour is one of the best memories thus far.

Mum, dad: well it's come to this. I'll fulfill my potential someday and finally make you proud. Even though I never performed like wild, I still did my share but the work will come in time. I'll go to university when I feel I have mature enough and feel I won't waste your cash. But until then, I hope I can relieve you of the burden of supporting me, at least for a little while.

And to the friends and fellow graduates I gaise my glass to you all. What a fine grade 13 year. I will remember you all. The Sifton boys: Sifton House was my home and you, my brothers, I will never forget the times we had. Thank you for your support and friendship on the journey from a grade 10 gimp to an omnipotent gr. 13. Good luck with you Mr. DR. H. JD. MR. MF. CD. DJ. JT. [AC] I wish you could have been here Church! Thanks guys, I'll never forget you. And one last cheers to the pay boys, I mean day boys and their mothers because they let me stay for the weekend when Elliot Lake was just too far. Give 'em Hell Boys!!!

Time flies by, this is now my last year of SAC life. During the past four years at SAC, I tried hard to adapt and involve myself into school community. As a foreign student, I was never alone here. Studying at St. Andrew's allowed me to make many new friends each year. My daily SAC life was just exciting enough for me to anticipate with those friends I have. Now, I would like to say good-bye to all my friends at SAC and wishes all good luck in the coming future. Remember, friendship never dies.

It was a great honor to be a manager for St. Andrew's Varsity Hockey. I learned the methods to organize and serve a 20-player team that played intensely all season. Of course, I also gained a lot of knowledge about hockey and many secret tactics. Thanks to Mr. Dunford and Mr. Galajda who gave me this perfect chance to be part of this powerful club. Thanks to Fred who showed a very high class of skills and sportsmanship on ice, and other players who dedicated to the team. Skating Saints, the winning tradition continues!

For the past four years, I was assisted by many masters around the school. Thanks to all, especially Mr. Perrier, Mr. Giel, Mr. Smith, Mr. Inglis, and Mr. Kinney. I would not be as behaved as I am now without you.

I indeed, I had a very wonderful high school career compare to those students in Taiwan. Thanks to Dad and Mom who had gave me this great opportunity to study at St. Andrew's College. I love you forever!

This is the first time in nineteen years that I have to write a comment about myself. Looking back and most

importantly, I want to say thank you to my mother. I'm grateful to her for spending nearly two decades on me, preparing and supporting everything I need. I like, I want and I hope in both spiritually and materially. Without her, I cannot imagine what I'll be like today.

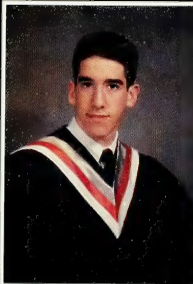

For the knowledge and experience I have gained in the past five years at SAC, I would like to thank all the teaching staff, my housemasters, and my advisor. Thank you to my roommates throughout five boarding years: Andy, Wilson, Alex, Dave, John and Antronic. It has been my pleasure to be roomed with you guys. I also have to thank my friends who helped me get through most problems in SAC life. They are: Ng, Fu, KK, eddie, Yukit, Anthony, Ben, Paul and all the others.

Lastly, thank you SAC. This place will remain in my memory forever and I will always be proud to say that I graduated from St. Andrew's College.

Three years ago my family gave me the opportunity to attend St. Andrew's College. Three years later I realize that St. Andrew's has been an experience that I will always cherish. I have made some of my best friends inside these gates, and the memories will last a life time. I would like to take this opportunity to thank all the people who made my time St. Andrew's memorable. To my family, I owe you more thanks than I express today. Dad, thanks for always pushing and providing me with everything I needed, even if I did not deserve it. Mom, thanks for always being on my side. Leigh and Meghan, your generosity has meant a great deal I owe you both, thanks. And Ross, thanks for being Ross. To Mr. and Mrs. Perrier I thank you both for encouraging my dad to keep me at SAC. I would also like to thank Mr. Dunford whose coaching has enabled me to reach the next level in hockey. Mr. Inglis thank for helping me with my math problem, it helped me more than you know.

As I close out my last chapter at SAC I must say that the red and white crest of St. Andrew's college will forever be tattooed across my chest. The College and the experiences I have had here will always be close to me. Take care St. Andrew's College.

(Presto Shooters), Co-Founder Neil Diamond Fan Club (SAC Contingent)

It's hard to sum-up my St. Andrew's experience in a mere paragraph; luckily the memories will last a lifetime. These five years of my life have had their twists and turns, but through all the fun and the stress, I have found my talents and discovered who I really am. Although I don't know exactly which path my life will follow when I leave the gates, I do know that I will have what it takes to get over any obstacle, whether it be in a classroom at university or the much bigger classroom of life. I will have much more than an education. I will have the experience needed to succeed, I will have life-time friends, but most important, I will have the memories of five great years. Most prominent are the recollections of football (especially Homecoming '96), Nepal, Cadets, Carol Services, Homecomings, Mayfests and Formals. St. Andrew's would not be the vibrant community it is without the completely dedicated staff that don't even realize what a profound effect they have on their students, guiding us to a wealth of knowledge and beyond. To them I am truly thankful. Thank-you to my friends. Without you I couldn't have kept in balance. Thank-you mom and dad for your love, support and the sacrifices you've made to give me this opportunity. I can't imagine what my life would be like without SAC.

Leaving S.A.C. is not the end but rather the beginning. I leave S.A.C. after five years of torture to enter a "higher learning", I hope. The lessons I have learned at S.A.C. were not limited to just the classroom. Although the studies within the academic school environment did teach me to work hard at anything I attempt, I would like to thank the teachers at S.A.C. who helped me through the years. As well, my parents for sending me here and putting up with me all these years, and my brother and sister for always encouraging me to strive for my best. Also, I thank my friends at S.A.C. (RL, KD, CC, GB, SF, JPT, WD, AN, DG, KS and JM) who have helped me through the tough times academically and socially. Thanks to all who have helped me realize that "Life is what you make it."

Well I have finally made it to the end of this long road taken from 91-97, and I can say that I never thought I would see the day. But when I think back to start with the wrath of Mr. Hanson and Mr. Galajida in Mac

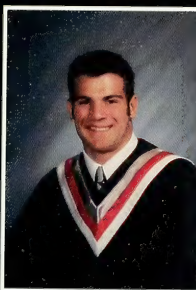

House to the wonderful years in Memorial house under Mr. and Mrs. Perrier, it has all been worth the experience because this place has made me a man. A man now that holds high his self-esteem, motivation, and self-respect. This place has taught me the importance of team work, as well as personal independence, and that even when you push against the waves you can still win.

I would like to thank my mother and father for all their support, both financial and emotional through the good times and the bad. To my brother Mike and you have always been there for me when I just needed to talk or if I was feeling low during contest preparation. Mike I can't thank you enough because you have been more than just a brother, but a light of guidance. To Hodge and Tim, you are the only guys that truly showed support and an interest in my affairs with training and life, I thank you very much.

When I sat down to write this grad comment I really didn't know what to say. I've experienced so much in my seven years at this school that it is really impossible to write it all on paper. I've climbed mountains, I've won championships and I've learnt many lessons in between. Mr. Smith, thank you for your guidance, you helped me more than you know. Mom and Dad, I couldn't thank you enough for making the sacrifices to put me through SAC. Adam, you the man. Finish off strong, I know you will. To all my friends, it's been a wild ride. We've come a long way since our dorky prepubescent days in grade seven, to manhood in OAC. You guys are the greatest, our friendship will never die.

If you're reading this for advice, the only thing I can really say is to take your life at SAC and live it to the fullest of your ability. Get involved, because before you know it, it's all over.

A lot of memorable experience have been accumulated through my three years in SAC. This school has been credited for the development of my mind and character. Looking back, SAC was more than a preparatory school for University, it was a place where friendships were built. Most important of all, thanks my parents for giving me this opportunity to attend St. Andrew's College. In SAC, I have learned lots of knowledge of success. First of all, you have to know how to communicate with different teachers. Secondly, before a test, dream what's on it... This is the path where you can find accomplishment.

Friends are one of the important parts of my high-school life, and I could never have survived here without them. I can only visualize myself as the barren desert of the moon; void of any personality and sign of life. I have craters of skills, and a frozen ocean of untapped talent. However, with each challenge I meet, I take a step. When I make a friend, I take another step. With each triumph and failure; happiness and grief; love and hate, I take yet another step. Soon, you see tracks of footprints on the once barren, lifeless desert.

St. Andrew's College has enabled me to take these steps. Here, I have challenged my limitations and formed friendships that will last eternally. As I grew physically and mentally, my horizons also grew; I now know my strengths and interests. First and foremost, I thank God for helping me endure five years of SAC. Second, I thank my parents for sacrificing their own opportunities in order to make an investment in me. I also thank my teachers: Mr. Jones for being my tutor, Mr. Ray for guiding me through all of my five years at SAC, Mr. Smith for letting me badge him for everything, Mr. Arril for his stories about Bob, Mr. Hitz for setting my path straight with his professionalism lectures. A lot of thanks goes to my friends: CC, RL, WD, MT, JL, PF, KD, PM, KS, people inside the Review & Live Magazine Common Room (too many to list), debating team members (too many to list), and all the grads that have gone before me (also too many to list). You guys have truly enriched my life in ways that cannot be expressed in a short comment. I hope our friendship will never break.

Good luck to future grads and members of the LIVE Magazine and Review. (Jeff & Arnel...Don't disappoint me.) To the debating team: Good luck with future tournaments. I hope you will continue the tradition and further improve your skills.

To this day, the footprints left on the moon by the Apollo 11 crew remains; it will stay there forever. In the same way, my experiences with SAC will stay with me forever, no matter where I go. I have cherished these moments, and I hope that everyone else I've met has done so too.

St. Andrew's College serves many different people in many different ways. To some it is just a school, a place to learn and grow, and to others it is home. Over my two years here as S.A.C. I have grown and learned many things. I have learned in the classroom, on the playing field, and on the parade square, and through combining all of these I have attained many values pertaining to life. It takes a special teacher to teach at St. Andrew's one who is willing to sacrifice a great deal of time. It takes a special person who can commit themselves to the demanding job of coaching and leading a team to the general success of S.A.C. teams. Most of all it takes a special boy, one who is willing to accept the tasks, and opportunities that are offered here at S.A.C.

Academically I would like to thank all of my teachers for their time and for preparing me for University. To Mr. Walden, Mr. Smith, and Mr. Arril I thank you for your guidance. I wish you all the best of luck in your future teaching careers.

Athletically I would like to thank all of my coaches for their support both on and off the field. To Mr. Cameron, thank you for all of your support you are a remarkable football coach, good luck next year. To Mr. Dunford and Mr. Galadja, thank you both for giving me the opportunity to play with one of the best high school hockey teams in the province.

To the wonderful friends I have made. Rich you were the best roommate I will ever have, Hugh and Hanev thanks for all the laughs, Foy thanks for all the "wake ups", Cooker I hope to see you next year, Mitch we have shared many a good time, and lastly Glenn thanks, for always being there you are truly a best friend.

To my fellow grads. I wish you all the best of luck in your future endeavors. And lastly to my family. Mom and Dad I thank you for giving me this opportunity. To Bri, Paul, Francie and Grandy I would like to thank you all for your ongoing support.

But soon it will be time for me to go, to travel over mountain and through valley low. So I leave you here the final verse to my song.

Seven years have flown by. St. Andrew's has allowed me to totally engage myself in a positive environment where we are taught to learn, be it on the sports field or in the classroom, the lessons will stay with me forever. S.A.C. allows you to stand up and be counted—in one of many areas. Some may get more recognition but, all are just as important for the show to go on—from the guys in the lighting booth to the big wheels on the ice.

There are many people to thank for making my experience what it was. To my teachers who have instilled in me the love of learning be it in subjects that I don't even understand. The coaches who allowed me to use my imagination and grow as a person, especially Mr. Dunford and Mr. Galadja who went beyond the call of duty for me over the years. They have not only prepared me for my upcoming university career but taught me that preparation is as important as the performance itself and that there is victory in defeat. To all my grandparent's thank-you for keeping us going, you are true inspirations. To my parents who kept an open mind and saw that there is more to life than hockey. Thank-you for putting my interests before yours and giving me all the love and support that I could ever asked for. Charlie thanks for sticking up for me during my "growing up stage" and being a true friend. To Lisa thanks for showing me that energy is contagious. Finally to all the boys, it's been a great ride—thank-you.

I closing I would like to say—Get involved in the S.A.C. experience, when your lying in bed at night and you've giving all you can—you know that you gave your one hundred percent, and have quitted yourself like a man and were strong. "For soon, always too soon your page will be filled and your chapter will end, just as the next will begin with new authors, a blank sheet—and a million possibilities." Leave an impression.

St. Andrew's College will always remind me of French Onion Soup. Yes, there is some cheese floating around, but its still good. It is impossible to run an educational institute without lactose products. It is the nutritious broth of knowledge below the cheesy surface, therefore, that

makes St. Andrew's such an effective device for education. I have drank the soup of knowledge and now I am off to college (which I incidentally hope is more of a salad than an entrée, as I love to eat). I would like to thank J. McGee for being the salt and pepper that makes it all a little more palatable. St. Andrews has taught me that even if you are lactose intolerant, should the broth be nutritious enough, anyone can enjoy dairy products.

I wouldn't trade the last five years for anything in the world. SAC is an incredible place where the action never stops; especially after nine-thirty. I ran naked through the fields of Aurora, such a quaint country town; and danced on some girls Nipple, laid under moon trees, initiated the Incas, cruised Rosedale, mastered the art of stealth (rad-panzo: there is no substitute), and went crazy over a Toad. I loved it all. When I reach the top of that hill I look to the houses and feel secure, scared, happy, sad, and @\$\$&-faced in one brain-wave. It's such a rush and it goes so fast. Wardo & Charlie: remember your lessons, you guys rock; Hugh, giv'er the boot if she eats crackers; Rook: so straight, so stubborn; Rig: so resourceful and clear-cut; Russ: my host, mentor, and friend. I wouldn't be here without you guys. Mr. Bedard thank you for your understanding and my second chance. Mr. Smith: a gentleman in the true sense. Mr. Paolini-a master. Mr. Kimmmer-My time is done. Respect: I have to give respect to all of the people who I have come in contact with over my three years here. I have to special mention to all of the "Islanders" who have been my family away from my family. First I have to biggup all of the Islander Massive who have already graduated or left before this year: Biggup to Uncle Biggsley, Rhudra, Larry, Roker, Sands, Randy, Daryl, Mottley, Robert and Sean. Biggup to the Islander Massive who are present at school now: Biggup to Shields, Nathan, Tomiwa (The Roots of the Islands), EEEEEB, Omar, Sands, Bren, Dominic, Kirk, and Dave. My apologies to al those I left out.

When I think of Saint Andrew's College the first thing that comes to mind is tradition. Every wall and classroom on this campus are sacred to many people. Three years after being exiled from my home country and sentenced to three years of all boys hard education, I can reflect on it and say that it was a growing experience. My father and my older brother attended this school and they both loved it. My cousin just started at the beginning of this school year and my younger brother is planning to start this upcoming school year. The Andrean experience has become a tradition in my family. These last few weeks have been dedicated towards preparing for University but I also think they also have been dedicated to the departure from a tradition. Its not easy to leave a place where you've met friends for life. Its harder to forget it. As I leave this sacred place I become just another Old Boy and just another memory in this school which has created so many.

I came to St. Andrew's college with a little sister and a twin sister. Since that first day at S.A.C., my family has grown. I am leaving S.A.C. with a little sister, twin sister and four brothers. Russ, Rev, Heing and Hugh you guys are the best, the ELITE!

My thanks to Mr. Dunford and Mr. Galajda for giving me three years of fun, hard nosed, gritty, smart

hockey. The hockey program at SAC made me a much better hockey player but more importantly, a better person. Some of my fondest memories happened on the ice.

Special thanks to Mr. Kimmmerer for always keeping a watchful eye over me. You were the authoritative figure and friend that I to keep my priorities straight and focused. Mrs. Perrier ever since I attended this school you have been a person who I could trust. You also believed in me from the day we first met. This community would be lost without you.

St. Andrews College is a community that has many different elements to it that have contributed to my growth as a person. I came to this school in grade nine a small shy kid but I am leaving as a OAC Andean graduate with confidence.

Thanks Mom and Dad for making the sacrifices you did to make it possible for me to attend such a fine institution. We've had a lot of talks throughout the years and I think they finally made it through my skull. You guys are the reason I am able to have so many great memories of this place, thank you. Everything I am today and will become in the future is because I was able to lay such a solid foundation here. Thank you, SAC.

Before anything else is said, I would like to first and foremost thank my

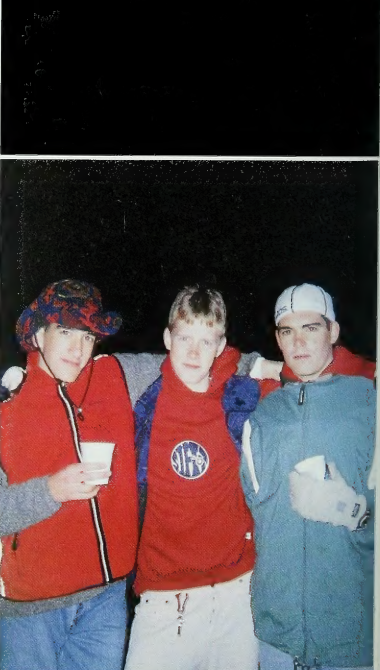

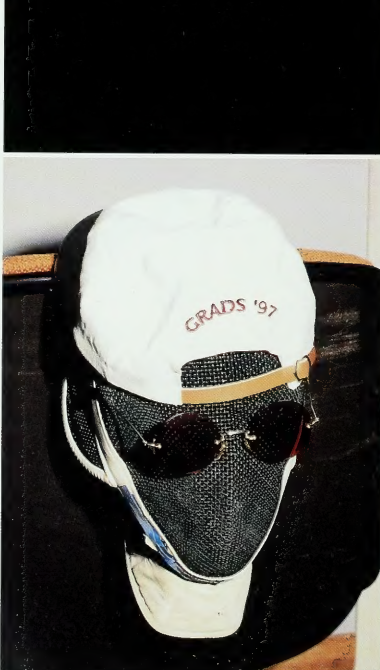

parents. This opportunity is a perfect example of their invaluable guidance and support. Being away from home has made me realize the value of a family; my family will truly be there in good times or bad.

Without question, St. Andrew's, particularly my fellow grads and those special members of the faculty, have provided the basis for the most influential year of my life. As I move on to university I am confident I have acquired the skills necessary to, not just survive, but thrive. The experience is what you make of it, or take from it. In this regard I made everything I could from it and will be taking from the experience for years to come.

However, you can't do it on your own and I think a special thanks goes to Craig Brown and his family. Brownie, when working, relaxing or partying we kept it together. Even so you can't do it with just one person's help either, so a nod of appreciation and thanks to all those who supported me, you know who you are. To those who weren't there for me, a thank you for showing the value of those who were.

Alas my highschool running is at an end and I am forced to now get thrown around at the university level. To two competent runners I pass the torch, Jeff and Dan, beware of the Greeks.

A friend is yours needs answers and never have so many different people answered my needs. The community is what I will miss most. Ever has it been that love knows not its own depth until the hour of separation.

HUGH SIDDELEY

Here I sit in front of a computer, trying to sum up and extract meaning from a six year career at St. Andrew's College. A brief summation of this part of my life is impossible, so a brief synopsis and a thanking to the people who have made it possible will have to suffice. S.A.C. has been a very wise investment, and will be an important ingredient to my success. Perhaps one day, when I am complete, I will be able to look back and tell you how influential and important S.A.C. has been to me, but not today.

Having lived most of my life in the southern hemisphere in countries such as Bolivia, where I was born, Uruguay and Chile, I had to adjust to a very different way of life at S.A.C. From boarder life, to the absence of the opposite sex, to the international pool the student body comprised of. It has been a wild roller coaster ride with an infinite number of ups and downs and inbetween. I have been able to test out different strategies and attitudes, and examine things from a myriad of viewpoints. Since I have been at S.A.C. the population of Aurora has doubled and I have seen over a thousand different Andromeds come and go!

I would like to thank my advisor Mr. Paolini for keeping an eye on me, my housemaster Mr. Fay for his deep insights, Mr. Hiltz for not only teaching me the wonders of Physics but being a role model in professionalism and initiative and for being so inspirational, and Mr. Cameron for putting up and sharing many great times with me. I would also like to thank my Mother and Father, whose huge sacrifices allowed me to set foot inside the gates of St. Andrew's. Finally, a special thanks to my brothers and sister who looked after me while my parents remained overseas (pictured Catherine, Edward, me, Andrew).

To the graduating class: See you, out there.

During my years at S.A.C. were memorable even though it didn't seem like it. The knowledge I have gained here have given me the opportunity to grow up and move on in my life. The past five years I have actually learned a lot out of all the staff and friends I have met. A sincere thank to my parents for sending me to this school, for which my life had been changed. There are actually many people I have to thank and many others which I can forget for the rest of my life. I don't know where to start, just want to thank a few people: W.D. (setting the example of a strong guy), C.C. (you were definitely a bitch + a good friend), R.L. (another target, which encourages me to get better marks), J.H. (had fun talking about cars & girls), R.H. (how did you REALLY like the massages?), so how about the \$160 deal), D.G. (we dug up the gold together-good work), Mr. Somerville (for all the support that kept me going), and thank all my other friends who I have not mentioned - I'll never forget you. For all the back stabbers, you know who you are - damn you!! Well, I must say these five years had made a great impact on my life which I'll never forget. I guess it's time for me to move on and once again 'Thank You' to all my friends.

Coming to SAC was the best experience I have ever had. The first two years here were fun but they don't even compare to what I experienced in my graduating year. Over the years here I have made friends that I will never forget and will hopefully remain in touch with for the rest of my life. I was involved in many social events this year, within the school and obviously outside of the school.

Within the first couple of weeks of arriving at the school in grade eleven I was introduced to the exciting pastimes of Aurora. Mark Newton and Mike Farrugia pleasantly introduced me to Mailbox baseball and the art of picking up estranged hitchhikers. Those events can basically describe my whole confusing grade eleven year. My grade twelve year was a year of athletics. I made three first teams that year. The most memorable part of that year was the time I spent in Montreal with the basketball team and visiting all the local establishments frequently every night of the trip. One person I must not forget is who my roommate was for my first two years at St. Andrews, Constantine. Although we had many differences we eventually made it through the years without murdering each other. There were differences but we will always remain close friends. My third and final year at SAC was definitely the most memorable year out of the three. The boarding aspect this year was awesome and the good parties were consistent. The dance teams of the J.Zs and the C.Gs will never be forgotten (M.N., S.W., A.C., J.H., and J.S.), also the amazing grad trip to the Dominican with Havelog College.

I could have never accomplished anything without the great support from my parents and family. They pushed me on to continue and to achieve my dreams and goals. Also with great support from all of my friends I was able to pull through and accomplish many great things.

I hope all my fellow grads had the same amazing experience I had and I hope the rest of your lives are full of amazing experiences just like the SAC experience.

To my young brother Tom and sister Mari, thank you for keeping me on the right track. To my close friends Pierre, Vincent, Jason, Constantine, Jeff, Mike, Brian, Dave, Raymond, Israel, Jason and his fellow islanders, Leslie, Johnny, John, Ryan, Scott... I'll keep in touch! Best wish to my fellow Japanese Joji, Yamato, Leon, and my brother Tom. Last of all, thank you SAC for giving me unforgettable memories and experiences. I now realize how honorable thing it is for me to be a St. Andrew's graduate!

Sayings: What? , Say that again!?, Who cares!!!, Shut up you Korean guy!!! Sir but my English is my second language sir!! I need more time please!!!!. Come on!!!!!! Hey Costa

let's go get some food!!!

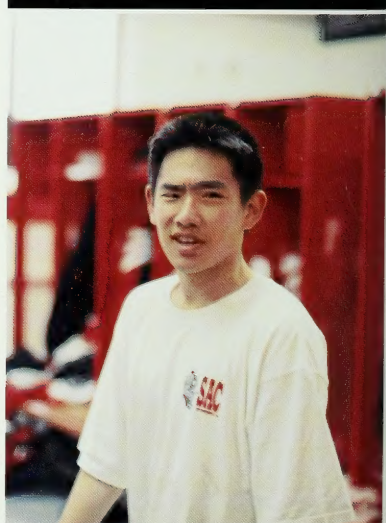

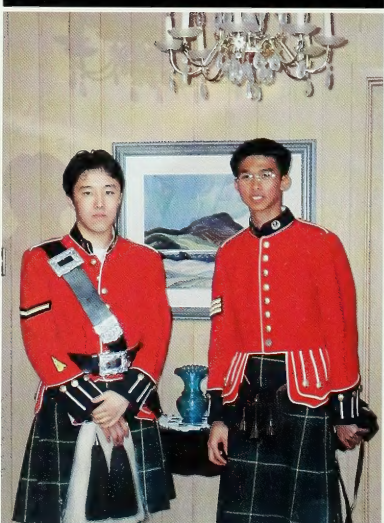

It is hard to write down the last five years at SAC in words. I had learned a great deal of amount in this five years, and for the years I've been here SAC became as my home. place I sleep, wake up, eat breakfast, lunch, dinner, and where I meet my friends. I realize some of my friends became like brothers, we argue, play jokes to each other, go to party and etc. Been an international student all of my life every where I tend to lost contact with my old friends but I well never forget or going to lose contact with these friends that I made at SAC. I would like to thank my Friends, especially, Costa, Bren, Haney, Graaf, Ray Mich, Pierre, Israel, John D, Buff, Astusi, Mark, Gram, Jeff, Carey, Ivan, Matt, Mike Foy, Hugh, O'Hea, Cooke, and So on and so on. You guys are the greatest friends that a man could have. Thanks!!

Also some of the Masters had great influence to me, specially I would like to thanks Mr. Kimmere for being my house master for five years and letting me stay at school every major holidays, and Mr. Harper for being my tutor and helping me with my English, and all the other master that I did not mentioed.

FINALLY all of this wouldn't happen if some one did not pay the money for me. I would like to thank my Mom and father for giving me this greatest opportunity and experience. Thanks.

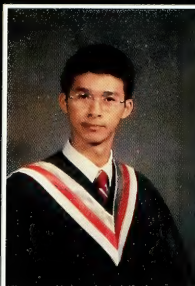

I well never forget the five years at SAC.

"Home sweet home."

Words of Wisdom: You don't know what you have until you lost it. Appreciate what you have.

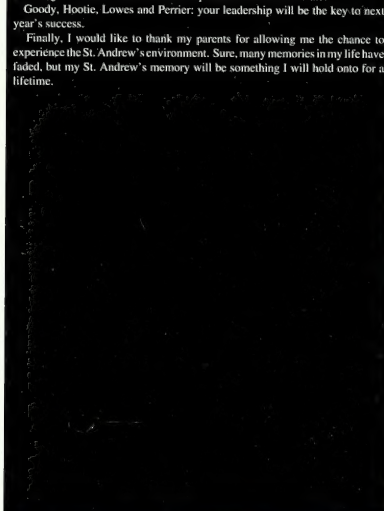

Graduate, at last, on my second year. I was going to graduate on my first year in SAC, but my marks wasn't good enough to go to a decent university. I didn't really feel that I have some close friend on that year. But when I return this year, I realize that I'm missing so many people in my life. So this year I try to involve in more things and appreciate people around me, even though some are annoying. I am so glad that I have to spend the extra year, because this year I learn many things that I didn't see last year. I see some great people. These great people are just ordinary persons who put just a bit more effort, pride, and sacrifice in every things they do.

 My two years at S.A.C. have gone by quickly, but looking back on all the great moments makes my time here that much more memorable. I would like to thank the people involved in making my two years as beneficial as they were. First, many thanks to all the teachers and staff members: without your constant efforts and willingness to help, nothing could have been accomplished. Thank-you to Mr. Dunford and Mr. Galadja for the two most monumental years in my hockey career: from back to back York Region Champs, to Macpherson Champs in '96 and Finalists in '97, to the '97 Finalist finish at O.F.S.A.A. Without the unbelievable job of coaching, we would have never accomplished as much as we did.
 Goody, Hootie, Lowes and Perrier: your leadership will be the key to next year's success.
 Finally, I would like to thank my parents for allowing me the chance to experience the St. Andrew's environment. Sure, many memories in my life have faded, but my St. Andrew's memory will be something I will hold onto for a lifetime.

 I really want to thank my parents for sending me to a school which I really like. This period of time in high school will certainly be the happiest time in my life. The name St. Andrew's College will be remembered in my mind for the rest of my life. Here I gained a lot. I learned how to make friends, how to listen, and how to learn. I also experienced a lot of sadness, for example, I lost some of my best friends on the way for no reason! I am now sharpened with experience and I am ready to reach another starting point in my life. I realized that friends are important to me, without them I will not have a chance to finish high school. To my parents: I love you. I won't let you down; I swear to God! To my friends: Cherish your true friend! Which is ME! I really want to say thank you for some of my teachers: Mr. Somerville (house master who allows me to be late for 4 times a week, hehe) Mr. Inglis (A very unique algebra teacher), Gerald, you are my best buddy. Andy, you are a person who has the most potential of becoming a success. Carey, I enjoy being yelled at by you. Ricky Leung, I really sorry for all the insults I made to you. Ricky lau, you are a GOD. Kevin C, I have nothing to say. Alex Ho, thanks for the comics. Jonathan Hui, you are a true singer. Ron Ho, wooo Cool man! Ben Kwok, how's Bre-X? Guys, I really want to say thank you. Without you guys, my life will be so boring. Although we are going to different universities (maybe colleges), but we are friends for eternity.
 To Mr. Smith: Sir, you are a true "GOOD TEACHER". You have influenced, and helped me the most. I say this sincerely, THANK YOU VERY MUCH. MR. SMITH.

It's been seven years of the worst-best-hardest-greatest-fastest-funniest-busiest-happiest times of my life. I emerge from my SAC career stronger in many aspects and bruised in others, but I emerge. There have been many great friends, many adventures, many shared triumphs and defeats. We have sweated blood and tears with each other on the sports field and off. In a tidal wave of testosterone we grew close and excelled, we competed and rose to the occasion, and some of us even found time for girlfriends. Looking back I cannot imagine any better fostering for an education and a personality than the time I spent here at SAC. It is the unwavering faith, the steadfast determination, and the selfless love and sacrifice of my Mom and Dad that I hold in deepest regard. Without the twinkle in their eyes or their pat on my back nothing would be possible. Thanks Mom. Thanks Dad. With a sigh and an air of relief I lift my head high above the Gates of Brass, and await the future: strong, and a man.

I am grateful to my parents for the sacrifices they endured in giving me this opportunity at SAC. To my family, you have been the most important people in my SAC career. Thanks, for not only the financial aid but also believing in my abilities and me. I love you all. My respect and gratitude to all the teachers and staff here.

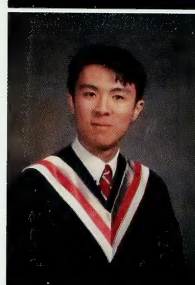

you were all great.

Although SAC emphasizes individualism, I would have never made it this far without my friends: Felix Lo (my ex-roommate and ex-pet HIPPO), Vincent (my roommate), Andrew Koh (FAT KOH), Terence Liu (sissy lin), Thomson Chan (TONG SEI [Snake killer]), Joseph Leung (JO SIT, fast gunner), Leo Fung (Firefighter), Barry Wu (BEAR LEI, pear), Dennis So (AH SOHHH, Dinosaur, Beggar).

Well, it is always hard to say good bye, but it is time to move on. I will remember what I gained from the school and I will use the skills I learned, to overcome challenges in the future.

These four years I have spent in SAC can be summed into two adjectives, "interesting" and "memorable". It is interesting because I have met all sorts of people and have a unique experience that is unprecedented. It is memorable because there are many occasions and hardships arising during the four years. How can I survive them all? With the help of friends. Time would be very difficult to pass by without the help of the valuable friends. Although sometime they loaded you with very embarrassed situation to deal with, they just want to make the quality of life in SAC better. The dedicated work of the teachers is important too, therefore, I want to thank you the following people, AY, BW, EK, KL, BL, AY2, EC, RN, AK, RL, AN, AK2 and more. Without you people, my life in SAC would be miserable. Finally, I want to thank Mr. Smith for helping me so much during the last two years, especially in chemistry, and guidance, Mr. Halstead for inspiring me so much in learning, Mr. Hiltz for his profound insight about life and my tutor Mr. Jones for giving me valuable advices as a friend and as a teacher. Good luck to all the people next year.

Activities: Track and Field, Yearbook Photographer, Pay phone club(coins), House meeting no-show club, four seasons club, community service, inching Alex Wong (my roommate) club... etc.

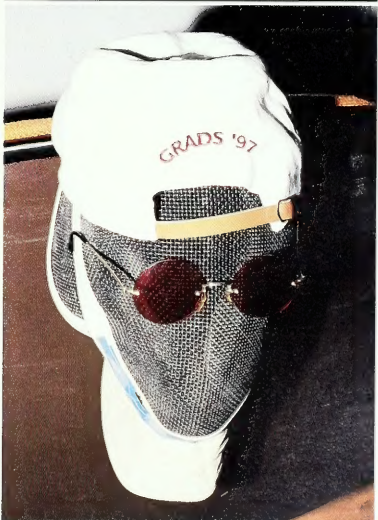

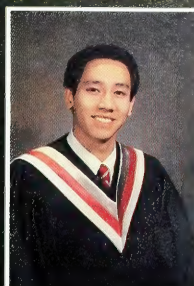

Two years made many unforgettable memories for me at SAC. There are too many things to mention but sitting with the graduating class on Prize day will be an event I will never forget.

Friends are an important part of SAC and I could never have survived here without them. Thanks to Ben who always ordered Chinese food with me, Kevin, who teaches me Wenk's P.O.W. Richard, for teaching me accounting, the Kwong brothers for letting me play FIFA '97 all the time, Eric, for driving me home, Andy, being the inching Alex Wong club president, and the King of Chemistry-Alex, for being my roommate, helping me in Calculus, World Issues and that sort of thing. Ymao, Kfu, Aho, Kchan, and all the rest of you, for just being terrific.

Meanwhile, I'd like to thank my parents of course, 100% support at every moment, Mr. Kimmmerer (my housemaster), for taking care of me all the time, Mrs. Hiltz and Mrs. Josselyn, for being my English tutors, that really helped me a lot. Mr. Treasure, who teaches me what is real English, Mr. Wenk, Mr. Dunford, Mr. Halstead, and all the rest of you who have taught me throughout these two years. You are the best teachers I have ever met in my life.

Special thanks to Miranda who gave me full support and care under whatever circumstances, and staying with me always - LOVE YOU!

Last but not least, "The world is tough but with SAC's help, I'm fully armed and prepared for any challenge in the future."

I have a dream that one day this nation will rise up and live out the true meaning of this creed - We hold these truths to be self-evident: that all men are created equal...

Laidlaw House

This year Laidlaw House took part in a record number of activities. Whether it was killing Mac House on the court in the pool or on the field we always remained disciplined and had an enormous amount of fun. Our house also traveled to the high tech LaserQuest game, the Segacity Playdium and we also watched the Toronto Raptors defeat the Washington Bullets at the Skydome. Also this year we enjoyed having lots of BBQ's and with the entertainment of Ross the place was always jumping.

Tejus and I would like to extend our gratitude to our grade seven representative Ryan Lo who showed great enthusiasm toward the house. But most of all we would like to thank Graydon Stock for

helping us accomplish so many things that seemed impossible.

This year we all bid farewell to our long time house master Mr. Whitehead who did all he could to make our days easier. I believe that all the members of the great Laidlaw House, past and present, will never be able to repay the debt which we owe this super teacher because nothing can compare to the hard work and determination which Mr. Whitehead has done. To show our appreciation we threw him a surprise party at the end of the year and presented him with a gift from the whole house. Thank you Mr. Whitehead!

We would like to congratulate our house captain of the year; Andrew Weedon and

the elite eight award winners who were the most determined in making the house a better place. The winners were Rob Carter, Tom Haney, Ivor Skala, Gord Birkett, Ben Arril, Graydon Stock, Ryan Lo and Ross Marshall. Also Tejus and I would like to thank the members of council (you know who you are R.C., R.M., J.P., T.B.)

As the year raps up, I would like to wish everyone the best of luck to everyone next year and those of you who are going to be in Laidlaw House again next year good luck with Mr. Cowell and Mr. Kimmerer. HAHA!

MacDonald House

MACDONALD House is an experience that few can forget. This year was most interesting in that there was a rookie House Master and Assistant House Master, boys from many different lands, some returning, many here for the first time, House Captains some with memories of how it was when they were here, others who had never stepped foot in Mac House before, plus two or was it three Heads of House and just to add an extra component, Mr. Whitehead, the Day Boy House Master called upon to lend assistance, while I was recovering (Thanks Mr. Whitehead). Somehow it all came together and we moved forward having fun - movies, bar-b-ques, Laser Quest, NBA basketball, bowling, dances, SEGA city, Wonderland, sports, making new friends, skating on the rink, stained glass, pottery and beating Laidlaw House; sometimes sad - home sick, bad weather, leaving friends; working - first time writing exams, last minute projects, tests and assignments and final exams.

House leaders were recognized: Jason Wong, Michael Charlebois and Brendan Farrell as well as clan success - Montrose leading the way. Athletes were rewarded, J-R Lennox and Baillie Ferris and rogues were uncovered (you know who they were). Mr. T. was married and we welcomed Buffy. We had our Hassells - one for sure, we had quiet guys, noisy guys, neat guys, messy guys and nice guys.

All in all, a good year.

MacDonald House a place to live in, a place to grow in.

Track and Field Champions; sundae Night; sleep-in breakfasts and Hodge with a bath-robe on. These are some of the elements that gave Memorial House the ability to stand above the rest in 1996-97. This years cast featured a little bit of everything. On any particular day a person could walk our halls and see a whole slew of events. Rabs stumbling down the hall with juggling balls, Harry Lyi posting up the most recent results of the hockey playoffs, or Nathan crushing the next challenger in Ping Pong.

This year's house was a juggernaut of power in every area. In Basketball at the first team level, Memorial house donated a whopping ten players to the eleven man roster not including Jackalopes. Academically, Albert Tsai contributed greatly to the field of computers. Head Prefect? We got him. Best guitar players? Ferris, Ierullo and Rabs aren't bad. After all of this, if we are still insecure about our talents as a house, we possess the most muscle per pound with Morgs and Jackson. So don't challenge our greatness or you'll get subpoenaed into Memorial's courtroom. Thanks to Mr. and Mrs. Perrier for leading this year's edition of troops to the top. Memorial could not have succeeded as it did without their kindness and dedication.

Sifton House

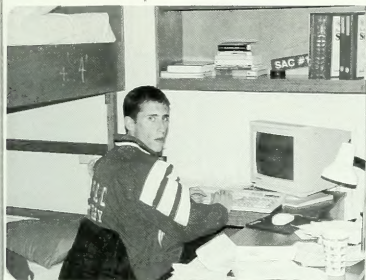

Tucked away between Flavelle and Memorial lies the "Ghetto" or more commonly known as Sifton House. A home and stomping ground for its sixty-one (give or take a few) posse or clan members. Over the past year this family of brothers has sailed the rocky seas of S.A.C. United, they ventured to Medieval Times for a feast second to none, demonstrated their dancing skills in the house plays, and forced Flavelle onto their knees with a crushing defeat over them in a game of snowfootball. The House's two vigilante groups, the Black Ninjas and the Wet Bandits, defended the Sifton turf with

great success. There were many a building repelled and many a people bombed. The gang members proudly wore a collection of new clothing signifying where they come from. All this was only possible with the strong leadership from the Gr. 13's and Heads of House. Many thanks goes out to Mr. Kimmerer for his much enjoyed tour of duty. Good luck to Greg Meuser and Mr. Bedard next year. Keep up the spirit!

Flavelle House

I vividly remember my first impression of Flavelle House:
The showers had no curtains.

The inscription on the front entrance was FLAVELLE
HOVSE (sic).

The only means of quenching ones thirst is the bathroom.

Except that was five years ago. I can scarcely believe the
difference between then and now. Down in the basement,
our battered, long-suffering, cable-less television is re-
placed by a still cable-less Toshiba. Our showers are graced
with white-yellowish curtains. Our thirst remedied by the
double combination of the drinking fountain and the vend-
ing machine (may not be cheaper than Memorial, but
definitely more varieties than Sifton). This year, thanks to
our House master, Mr. Aubrey Foy, Flavelle House is now
officially off the breakfast sign-in. (now if only we can get
that inscription fixed)

Enough about the past already. This year a slightly
confused boarder (who shall remain anonymous) light-
ned up our lives by setting his room on fire. Fortunately it
was mostly smoke and little action, but it supplied us with
a good excuse to stay up late. We have once again proven
ourselves by reclaiming the mantle of Best Company
during Cadet Inspection and won Best Play for the annual
House Play Finally, we gave welcome to a new member in

the house and bid fond farewell to old members: Mr. Peter
Jamieson, our new assistant house master, who worked
diligently to keep order in the house. It was also with regret
we said good-bye to the old couches in Flavelle Library,
they had been here longer than myself and now have gone
to wherever couches go when they die. (but they were fixed
by Luigi, so we have not seen the last of them yet)

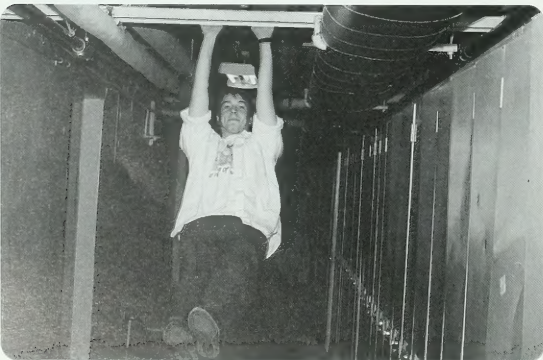

This year we have borders from at least fifteen different
countries in Flavelle, meaning we have people from most
major continents except Antarctica. One of the recent traits
I have noticed over the year is that we are getting more
international. I feel that being international gives us the
chance to experience other cultures, to know what they are
like and how to live with them. Which prepares us for
University, where the culture distribution is much more
diverse. (there's an unofficial rule that states all house
comments should contain 10% educational and/or moral
values, I hope that fills the quota)

Here's a little known fact: Flavelle House is the only co-
ed house in SAC since the islanders' girlfriends visit all the
time.

1996-1997 had been a great years for, best wish for the
Flavellians next year.

Brian Liu

New House

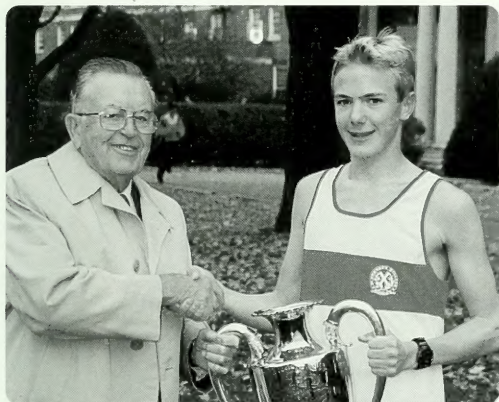

The '96 - '97 school year saw many changes for the men of New House. New lockers, new members, but still the same House pride. With all the events and activities during the year, there was lots to talk about in 1997.

To the untrained eye, New House may look no different than any of the other four houses. However, those in the house know that it takes a special bread of Andrean to be in New House. The year started with our traditionally strong placing in the cross country run with both Nick Abraham and Jeff Messina finishing in the top 5. Members of the house played very key roles in Athletics as well, particularly in Football, Soccer, Hockey, Basketball, Swimming and Rugby. The house continued its ongoing support of the Arts with participation in both the musical and the first term play and a strong contribution to focus in all aspects. Our Cadet Company was lead by Captain Will Diep and the Platoon led by Lieutenant Keith Dadson and Sergeant Chris Fusco showed great promise from the first practice. Latter that same Platoon was recognized as the best in the entire Battalion. As well, members of the house lead both the Flag Party and Mac - Laidlaw platoon.

June of 97 marks the end of an era for both the school and in particular the house. Our long time Housemaster, Mr. Somerville will be retiring with the completion of the school year. The 3 Co - heads of house, Keith Dadson, Brad Livingstone and Fred Perowne would like wish him all the best on behalf of the house and wish him well in his retirement.

Brad Livingstone

Ramsey House

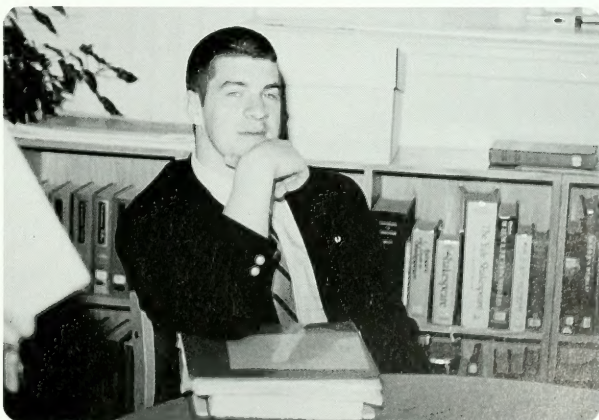

Ramsey had another prolific year in 1996-97, winning the cross-country run both on an individual level (Dan Wells 1st place) and on the house level. Strong academic and extracurricular performances through out the year coupled with a firm second place at the Track and Field meet (we can pull rope with the best of them!) enabled Ramsey to win the Best Clan Award again this year.

The House would like to thank Mr. Swan for his determination and leadership in making Ramsey the best upper school clan yet again this year. Mr. Swan's warm and glowing smile at 8:00 in the morning, on many a groggy Saturday was a gesture that made every Ramsinite's day a little bit easier to crawl through.

With the completion of the year at hand, there remains a few questions to be answered; Are Matt Fordham and Richard Lai in Ramsey?, Does Wells ever stop running?, and are the Leung brothers twins or clones?

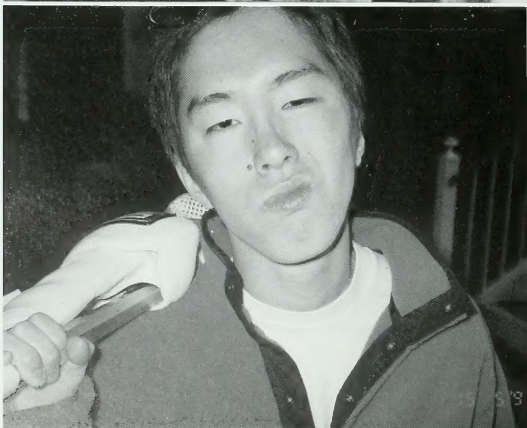

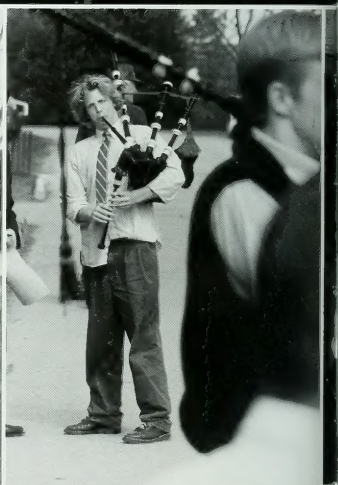

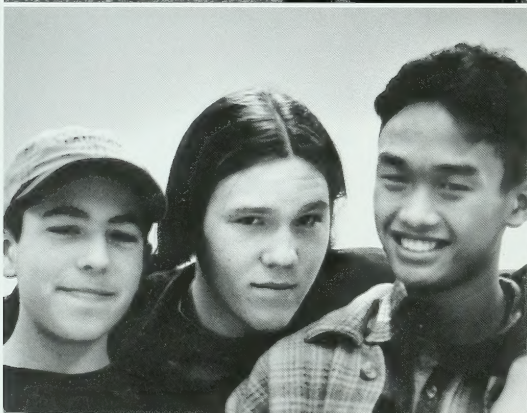

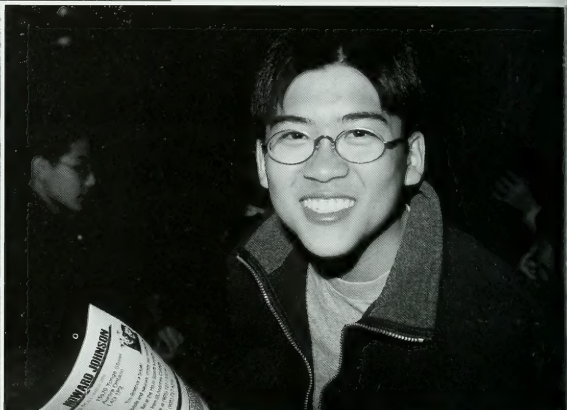

Best of Luck in the coming year and keep up the tradition.

NG TO DINNER, WRESTLING, CHEERING

Head Master's Speech PRIZE DAY, June 13, 1997

Mr. Chairman, Senator Richards, Students, Distinguished Guests, Members of the St. Andrew's Family,

It is a pleasure to welcome all of you to the 98th prize-giving at St. Andrew's College and to extend a warm greeting to four special guests — Douglas Nesbit, Stuart Bruce and Katherine Bruce, the grandsons and the great-granddaughter of the School's founder and first principal, the Reverend Dr. George Bruce, and Barbara Tisdall, the daughter of the second Headmaster, Dr. D. Bruce Macdonald, and granddaughter of J.K. Macdonald, the school's first Chairman of the Board.

This convocation - a "calling together" at the end of the academic year is an historical day for the class of '97 and we are here to congratulate them and to rejoice in their accomplishments. It is also a time for retrospection, for "taking stock". In the past year, St. Andrew's College has been exhilarated by challenge and strengthened by achievement and is, I am pleased to say, in excellent health. A Faculty and staff which is harmonious in its ultimate goals as well as impressively able, Governors, Old Boys and parents enthusiastic in their support, and students whose successes in academic endeavours and involvement in innumerable activities, testify to the overall strength of the College.

At this point, I would like to underscore the exceptional contributions of

the 9 Prefects and of their outstanding leader, Tim Jackson.

You will hear in a few minutes that 42% of our OAC students have achieved the status of Ontario Scholar with an average of 80% or more, and that 30% of the student body has also earned first class honours. Our graduates are just now receiving university offers: our prediction of 100% acceptance is becoming a reality.

This year, we experienced a resurgence in para-academic activities, from the thrilling sounds of our various bands, to successes in Debating, most particularly by Pierre Filion who distinguished himself by coming second in the entire country for debating in French, to the theatrical productions of Henry the Vth - or Hank Cinq - depicting the power struggle between the British and the French adapted to our present-day Canada and Quebec, to the thoroughly enjoyable Musical, *Pippen*, with a cast and crew of 30 students, to the 16 plays presented during Focus, our Arts Festival, and to the outstanding work of our student artists.

1996-1997 has been an astonishing year in athletics. Our First Rugby team competed at the provincial level for the first time, and last weekend, this team won the Gold Medal in the All-Ontario High School Championships, conquering some public schools with over 2000 students. In March, our First Hockey team played to a triumphant Silver Medal in these same OFSSA championships. Four other first teams won championships in Independent School competitions: Basketball for a remarkable 5th time in 7 years, Alpine skiing, Nordic skiing, and Swimming, the last, for the first time in our new facility.

Two of the most notable individual achievements in the athletic field came from unexpected sources: first, a 15 year-old grade 9 student, Sammy Lam, was crowned the Ontario Open High School Badminton champion defeating a 6'6" opponent in the final round. Sammy stands 5 foot 2. Secondly, on May 18, Nick Tsioros, a teacher who spends 18 hours a day tending to the daunting task of keeping Mac House in

proper decorum won the Ottawa Marathon in 2 hours and 25 minutes, a feat that defies reality.

Congratulations to all our representatives, and a special mention to our Athlete of the Year who will be honoured in a few moments.

This past March, our Head of Maintenance for 10 years, Norm Fountain, retired because of ill health. We are grateful to him for his many efforts on behalf of the school.

The end of June marks the departure of Réjean Grenier and the retirement of Bruce Somerville and Derek Inglis. In their different ways, these three men have made an immense contribution to the well-being of St. Andrew's.

Réjean Grenier has shown unusual energy in the classroom and keen passion for everything he has tackled, be it in the gymnasium, on the rink, on the court, or in his basement, practising the tuba. He and his wife, Joanne, with their enthusiasm and engaging personalities, will surely be successful in their next school. Good luck to you both.

To Bruce Somerville, we owe an enormous debt of gratitude for his unstinting service to the school. For 18 years, he has taught and coached faithfully and has headed the Social Science Department. Furthermore, many Gr.13 students have benefited from his assistance in the planning of their university programmes. Bruce is, and always has been, the consummate professional and a strong supporter of Independent Education. Our thanks also go to Bruce's wife, Jackie, for her efforts on behalf of the school and the community. We wish you well, Jackie and Bruce.

Derek Inglis, who with mastery of all the diverse paraphernalia of College administration has been a linchpin of the school, always available to provide the right answer to any conundrum with seeming unerring skill. Under Derek's guidance as Assistant Headmaster in charge of Academics, St. Andrew's has been sagely counselled

SAC...a tradition of excellence

and prudently served. What really underpinned his success as Assistant has been his instinctive love and respect for the school and its ways, and above all, his unfussy but highly effective methods of getting things done. Our thanks to Bettyne Inglis for her support and help at so many school functions over the last 33 years. Health and happiness in your retirement, Bettyne and Derek.

A shadow was cast over the College last November by the death of Peter Harris, Chairman of the Board from 1979 to 1996. When I became Headmaster in 1981, I found in Peter a wise counsel and a man thoroughly dedicated to St. Andrew's. Peter was a strategic thinker of a very high order. He knew the direction - academic, cultural, financial - in which he wished the School to go, and then he took it there. He certainly had charisma, and he is remembered above all by those who knew him for his gifts of friendship, perception and understanding. This is why the Harris ripples will continue to spread across the St. Andrew's pond, and why so many of you today, I know, join me in saluting a dear friend and a good man to whom we owe so much.

Early this year, a grade 8 student asked me, "what does a Headmaster do, sir?" I couldn't blame him for posing that question, and it struck me at the time that there is another official of the school whose role is even less known let alone understood - it's the role of the Chairman of the Board.

One of Peter Harris' last words to me was "Brian". He was referring to the comfort and contentment he felt knowing who his successor would be, and that the school would be in such able hands. Mr. Brian Armstrong, class of 1961, only the 9th Chairman in the school's history, will no doubt lead SAC into the 21st century with energy and vision. I share with Peter his sense of confidence in our newly-elected Chairman.

May I take this opportunity to express how grateful I am, personally, to the members of the Board of Governors for their undying support and absolute loyalty to me over the last 16 years.

It now gives me great pleasure to welcome to the Andrean family my successor, Ted Staunton and his wife, Jane. In less than 3 weeks' time, they will no longer be visitors but permanent fixtures, with all the responsibilities and joys that go with being the Head of the best school in Canada and the heir to a great tradition.

The tradition that the Headmaster of St. Andrew's inherits is a duty not only to foster academic excellence, but to minister to the whole boy in all aspects of his being. This is the cornerstone of the school's purpose and function.

Poised as we are, at the start of the much heralded information age, we must set our sights upon the academic challenges that await us. By the time today's graduates are 21, it will be the 21st century - and it will be a century with global opportunities. In our global village, progress will spread quickly, but so can trouble. As we prepare our students, I believe that St. Andrew's College must continue to embrace with enthusiasm the marvels of the new technology to create an education that will lead to productive careers and noble lives. We must direct the information super highway toward progress in knowledge, culture and citizen-

ship so that it becomes a free-way to a deeply fulfilling future.

With more information being delivered more rapidly in more diverse forms than any of us ever imagined, our task will be to show our students the difference between truth and distortion, between honesty and propaganda, between fact and inaccuracy. And our hope will be

to produce not men who know all the answers before they begin, but men who have the sanity and balance to discover these answers; men who have the judgment to distinguish between what is possible and what is not, and the vision and inspiration sometimes to go for the impossible and achieve it.

From the start, athletics have been viewed as a central part of the educational process at St. Andrew's - and it is my view that sports teach, and teach better than anything else. Nowhere does self-esteem take a worse pounding: failure, hurt, disgrace, physical and emotional injury - these are the facts of life, perhaps the very bedrock of life, which the athlete dramatizes in public. And what you get in exchange is confidence, self-knowledge, the thrill of success and a small but precious sense of how reality works. Essentially, a sporting match is a metaphor

Headmaster's Speech PRIZE DAY, June 13, 1997.

for the human struggle - and at its moments of greatest intensity, it seems to contain a complete and powerful image of life - life's beauty, vulnerability, despair and courage.

During the past 98 years, these two pillars of the St. Andrew's experience - academics and athletics - have grown from strength to strength. During my term as Headmaster, we have attempted to expand more firmly into territory where we were once not so secure. I believe that all of us at this school have a responsibility to preserve and cultivate those qualities of the mind, heart and the spirit that give our lives reason and meaning. One of the most effective ways of achieving this aim is for us to continue to make as many of the arts accessible to the greatest number of our students. In the past decade, it has been a great source of joy for me to watch how the artistic experience has become an essential part of many boys' lives at St. Andrew's.

We have an obligation to provide young men with a chance to learn and grow. To be human - and by extension, humane - I believe, must be learned; and the artistic world is a place where being human can be taught. Music teaches us to hear; the visual arts enable us to see; and drama shows us just what kind of creature man is. But the arts are very fragile. They have to be protected and supported by all of us. And I trust that all future teachers, headmasters and governors will be faithful stewards of this rich heritage.

It is time for Anne and me to go. All that remains is for me to say that we owe our great happiness for the past 25 years at this wonderful school to all those who make up the St. Andrew's family: to the members of the Board who have been so wise for so long; to the Old Boys who soon showed us what it is like to be an Andrian; to the members of the Ladies' Guild whose generosity to the school and kindness to Anne and me have been unending; to the parents whose trust and understanding have been a constant source of comfort; to my eclectic and hard-working assistants, Geoff Smith and Derek Inglis, our devoted and

creative Development Officer, Jim Herder, and my highly valued executive-assistant, Gayle Petri - all of whose friendship, loyalty and wisdom have been inspiring for so many years; to my long-time friend, Doug Campbell, our Bursar, a special thanks; to the versatile and much appreciated secretaries; to Klaus, Rennie, Carol, Mike and their caring staffs - all of whom have been ever-helpful and co-operative in taking that extra step to make any situation easier for both Anne and me; to our teaching staff, and here I find it hard to express adequately my admiration and deep gratitude for these extraordinary men and women - their long hours of work, competently spent on behalf of the students in a variety of disciplines and activities, coupled with their capacity to give, seem to be nothing short of heroic.

But lastly, I owe my happiness to the boys, all of whom have meant so much to me. To them, a final word:

In a recent novel entitled Picturing Will by Anne Beattie, a father muses about what life may have in store for his young child,

Quote: "Do everything right all the time and the child will prosper. It's as simple as that, except for fate, luck, heredity, chance.... his first encounter with evil, the girl who gilts him in spite of his excellent qualities, the drugs he may try once or too many times, the friends he makes, how he scores on tests, how well he endures kidding about his shortcomings, danger when it is least expected, ...people with hidden agendas, and animals with rabies." End quote.

Life, the father seems to be saying is shaped by contingencies we cannot predict. What type of personal equipment is likely to be most useful on a young man's journey through a future that seems full of chance? The best equipment I know is personal values, attitudes and habits.

As Crosby, Stills and Nash sang in the mid 70ties, "you, who are on the road, must have a code that you can live by," - and

we must all develop our own code of conduct for our journey into the future. It's wise not to forget that the most important person we all have to live with is ourself, and it is very vital that our actions should be guided by a consistent sense of personal ethics and integrity that should be able to withstand exposure to sunlight.

You the graduates of St Andrew's College do not have to be reminded about the classical virtues, such as the ability to care about neighbours and strangers alike, to learn to walk in other people's shoes, to treat other people as you would like to be treated. Your quality of life is directly proportionate to the quality of relationships you have with others. If your attitude is permeated by love of your fellow man and a passion for life, there is no limit to what you can do, what you can endure and what you can achieve. As humorist Will Rogers said, "if you want to live a happy, successful and fulfilling life, you must learn to love people and use things, never use people and love things."

From this point forward you will always be known as a St. Andrew's man. I believe that our best hope for a better society lies with caring young people like yourselves who are willing to "Fight the good fight", to enlarge the circle of your concerns to include the goal of a good and a

st society. But what qualities of mind and heart do we need for such a task? Here are the words of Cornel West, one of the leading intellectuals of our generation and the author of a book entitled Race Matters.

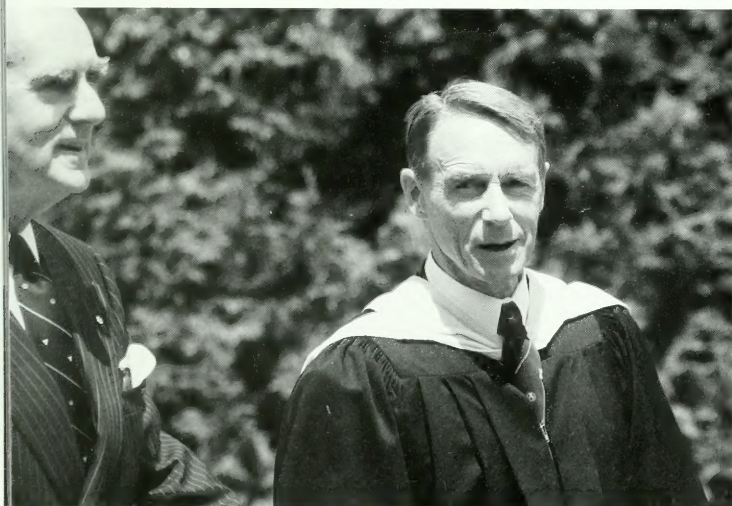

And the following quote from the book is the theme I would like you to remember as my last official message.

"In these downbeat times,...we must accent the best of each other. We simply cannot enter the 21st century at each

other's throats... We are at a crucial crossroad in the history of mankind, and we either hang together by combatting these forces that divide and degrade us, or we hang separately. Do we have the intelligence, humour, imagination, courage, tolerance, love, respect, and will to meet the challenge? Time will tell. None of us alone can save the world. But each of us can make a positive difference if we commit ourselves to do so." end quote.

This is my final address to you in this lovely front quad in this loveliest of schools. These past few weeks I have thought of my feelings as I arrived here as a new master with my wife, Anne, and our four small boys, all of whom are Andreans.

Of course, I've had mixed feelings as the days passed. St. Andrew's is embedded even deeper into our affections than we realized or ever thought possible. It is a wonderful place to have spent so much of one's life and it has become a part of my soul as no other place can ever be.

Mr. Robert P. Bedard Esq.

LIVE magazine

This year marked the beginning of LIVE magazine, the school's first printed and online magazine. It was a representation of the school through the eyes of students. Many attempts at making an in-depth magazine or school newsletter were attempted in the past, LIVE magazine tried to go past just making a newspaper and tried to create a professional quality piece of work. Each page was edited over and over for spelling and grammar mistakes, photography, design and layout and relativity to school life. As Chief, I was able to see all the work people put into the project when contributors submitted articles and photographers took pictures. It was truly a team effort.

LIVE had two issues, one for each of the first terms. The first contained detailed articles on the first term sports, profiles on the Headmaster and the Head Prefect, and articles on major school events. The second issue of LIVE also contained detailed articles on sports, as well as the Play, the Semi-Formal, Expansion Week and other school activities. The Editors on LIVE tried to make the magazine as comprehensive and detailed as possible with vivid photos and in-depth articles. Many people contributed to the project; over 20 different students and teachers contributed in one way or another with pictures and articles. Hundreds of man-hours are needed to produce a single copy of LIVE. Hours of designing, hours of reporting events and hours are needed to write the articles. Working for LIVE is like taking another course in

school. The homework needed to be done takes as much time and effort as practicing a sport. Working for LIVE takes a special kind of person because of the dedication and perseverance needed to spend the extra hours after classes working on the project.

A special thanks goes to Mr. Robson, who tirelessly edited each article which was submitted. It was his idea to put together an Editing Pool so that students could edit work and the writing would be more accurate. Without Mr. Robson, each issue of LIVE could not have been completed.

Another senior member of the staff who put considerable effort into the project was Adrian Nusaputra. Adrian diligently handed in articles on time and also helped in the editing and photographing. I must personally thank Adrian for his work interviewing and transposing the interviews onto computer.

Prefects

1996 - 1997

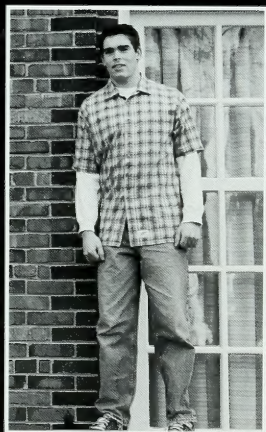

The Start of a New Breed

St. Andrew's College was blessed with a strong group of Prefects for the 1996-97 academic year. All members of the group felt it was truly a pleasure to be involved with such prominent leadership in the form of the other Prefects. In that respect, we were able to learn from each other, and to grow considerably with one another throughout the year.

There were many qualities of the team as a whole that contributed to any of the success we had. One of these was a sense of team and teamwork that pervaded. There was an understanding among all that we acted together, and that if we were going to effectively achieve anything as Prefects, we were going to achieve it as a team. Another quality was the chemistry that

of us fit better than others, and we were able to identify peoples' strengths and maximize them along with the strengths of the remaining members. Basically we worked well together. Lastly, and most importantly, we all possessed a deep and convincing love for the school. This caring governed our decisions, as we consistently tried to do what was in the best interest of the school.

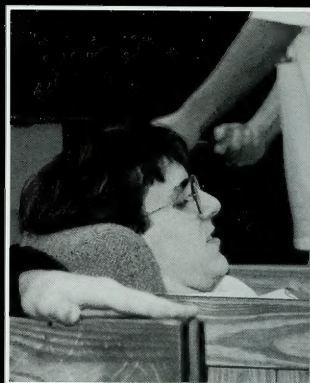

Thanks to Mr. Foy, and Mr. Bedard for guidance and support, as well as members of the school administration who helped along the way (Mike Hillick, Mrs. Osmond, Mrs. Petri, and the women of the Bursar's office). Finally, best of luck to next year's Prefects and to the superstar students

Mr. Robert P. Bedard Esq.
Headmaster
St. Andrew's College
1981 - 1997

'Leading by the silent sermon of example'

(Mr. Peter Harris, Chairman of the Board, 1979-1996)

Mr. Bedard was appointed Headmaster on Prize Day in 1981 and immediately pledged himself to the ideals of St. Andrew's: 'the formation of the all-round citizen, articulate and balanced, with appropriate emphasis on the spiritual, the moral, the academic, the athletic, the cultural. Now, after 25 years at St. Andrew's, Andreans thank him for fulfilling his pledge and for his wonderful legacy to school and community. Every aspect of life at St. Andrew's has improved under the leadership of our headmaster: the academic program, athletics, extra curricular activities, the arts, new buildings, endowment, scholarships and bursaries, and the reputation of the School. Mr. Bedard's concern with each and every boy has been boundless. His interest in the success of students whether, in sport, in the arts, or in winning the favour of peers or teachers by perseverance in some endeavour, has been his hallmark. St. Andrew's has been blessed with the many contributions of Mr. and Mrs. Bedard and Andreans worldwide have been touched by their generosity, kindness and dedicated service. For all this and more than words can express, we thank you. Now it is time to bid goodbye.

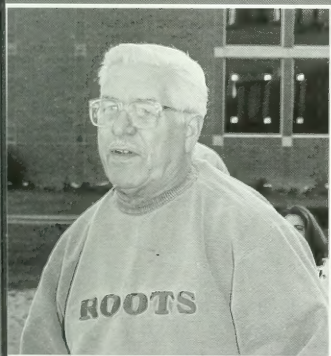

Mr. Derek Inglis Esq.

After 33 years (10 years as Assistant Headmaster) at St. Andrew's College, Mr. Derek Inglis bids us goodbye. Old boys and current Andreans alike thank him for his passion and emphasis on excellence in the Math classroom and his loyal and dedicated service to SAC. We wish him health and happiness in his retirement.

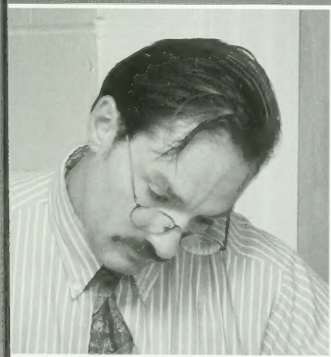

Mr. Bruce Somerville Esq.

Mr. Somerville now retires after an illustrious 18 year career at St. Andrew's. Heading up the Social Science Department he has taught History, Economics, and Politics to countless students. His commitment as a Housemaster of New House and his friendly advice and wise counsel will be remembered by all. Thank you sir.

Mr. Norm Fountain Esq.

Heading up our maintenance staff for the past ten years, Mr. Norm Fountain, leaves a legacy of care and concern for the smooth operation and detailed maintenance of our buildings, classrooms, and residences. The school thanks him for his dedication and efforts to make St. Andrew's a better place in which to learn and live. Best wishes in retirement.

Mr. Rejean Grenier Esq.

After living on campus for many years, Mr. Rejean Grenier leaves SAC to take up a new posting as Head of Modern Languages at Appleby College. We thank him for his unstinting efforts as a coach and classroom teacher. His many contributions to SAC, including his musical talents, will be sorely missed. Au revoir monsieur. Thanks for sharing your skills and friendship with us.

Valete

Ms. Gillian Foster

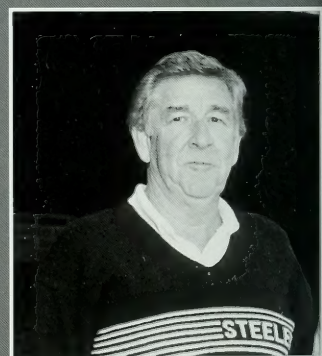

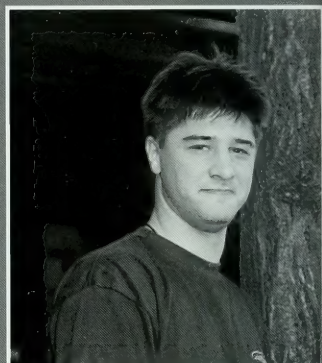

After bringing the flare of her musical talent to our music classes and the zest and spice of her passion for Spanish to St. Andrew's College for some time now, we send our best wishes and thanks to Ms. Foster. May your travels delight you and may you return often to visit us here at SAC.

Mr. Neil Scrase

Although only with us for one year, Mr. Scrase made a huge impact on us at SAC. His enthusiasm and energies were apparent in countless ways: from classroom to outdoor pursuits; from sportsfield to Macdonald house, Mr. Scrase touched the lives of many and his friendship and dedicated service will be dearly missed.

Mr. Tom Kennedy

Mr. Kennedy's good cheer and reliable commitment to the demanding task of maintaining our facilities will be hard to replace. We thank him heartily for his dedicated and unstinting service. Never a bulb burned out but one could be assured that he was on the job...no matter what the hour, what the day! We wish him well in his much deserved retirement.

The Year of the Environment 1996-97

Global warming, the garbage crisis, acid rain, the ozone hole, nuclear waste, water pollution, air pollution, species extinction are just some of the environmental problems we read about or see on the local news channel each week. In fact, the environmental crisis we face today may well be the environmental catastrophe of tomorrow. For example, the ozone hole continues to grow, at an alarming rate. This thinning of the ozone layer already has had a huge impact on countries such as Australia, Chile and Peru. Rates of skin cancer, cataracts and other skin diseases are rising at alarming rates. Children in these countries are encouraged to stay indoors between the hours of 10:00 a.m. to 3:00 p.m. New clothing is being developed with SPF (Sun Protection Factor) fibre built into the garments. Hats and sunblock are a part of everyday wear. In Canada, in particular the GTO region, rates of skin cancer are also on the rise. The thinning ozone layer does not discriminate, we are all being affected by it's harmful UV rays. Sun tans are not as healthy as once believed. The purpose of the "Year of the Environment" is to make our students aware of environmental issues, to educate them so that they are aware of what they can do to

help themselves and do what they can do to act responsibly on a local and global scale, that is, to develop a sense of "environmental literacy." Today the environmental industry is one of the largest employers and fastest growing industries in our economy. Universities across North America are putting together various environmental programs where none previously existed to meet the demand. Specialist are required in fields such as environmental law and business besides the traditional environmental programs. Besides having the 'environment' taught at various levels and in various courses across the curriculum, St. Andrew's College has a grade 12 environmental science course. The students in this course have been involved in many community service programs over the years such as tree planting for the Town of Aurora, participating in Pitch-In week (community clean-up), Great Lakes Alive Study, 1994 Help Us Help the Children Donation Drive (for the children of Chornobyl), and many various Expansion Week Projects (including the Niagara Region River Study). Our students must realize that they can and will make a difference in the future of this planet, they will lead the way!

Summary:

- Environmental awareness was promoted throughout the school
- Recycling stations are successful in the main school building, half successful in the senior boarding houses and are not so successful in MacDonald House despite various attempts
- We found the TWO bins which were purchased by the school (one is in Dunlap Hall and one in the Athletic Building) were very successful and well used (low rate of contamination): it would be advisable to continue to purchase these bins (two/year) if we are serious about our environmental program.
- St. Andrew's was very successful in the York Region Environmental Contest winning best high school, best poster, and best essay.
- I hope to continue to educate students and staff about environmental issues, hopefully we can REDUCE, REUSE and then finally RECYCLE on a more consistent basis. Change takes time and education is one of the key ways to promote the change of poor environmental habits.

Date Line

Year of the Environment: Key Events

September, 1996

- • recycling programs in place throughout the school, residences and classrooms
- • 17 recycling stations are placed throughout the school complete with bins, signs, NOTE: students are placed in charge of these various stations
- • the school purchases TWO RECYCLING stations which are very successful and aesthetically pleasing
- • each residence room is equipped with it's own mini-recycling bin
- • each classroom is equipped with a large blue box and sign, each teacher is responsible for the emptying of recyclables into the main RECYCLING STATION area
- • Year of the Environment kick-off assembly, guest speaker, Ms. Loretta Penny, Endangered Species of the Amazon complete with visual displays
- • Speaker Dr. Roger Payne, CEO and President of the Whale Conservation Institute discusses environmental issues with Senior Science students.

October, 1996

Grade 12 Environmental science students four day trip to Haliburton Forest to study forestry, outdoor survival skills, aquaculture, ropes course and climbing.

November, 1996

- St. Andrew's College sweeps three major categories at the York Region wide environmental "Waste Reduction Week" contest. Jeff Sim wins best poster, Andrew Camargo wins best essay and St. Andrew's College wins best school for a 3R's program.
- Community service work for the Expansion Week at Machell Park in Aurora, tree planting, river clean-up and restoration work.

January, 1997

- Legal agreement finalized with Town of Aurora, St. Andrew's College adopts "Machell Park" as part of the new community awareness program.
- Teaching of environmental issues and current events to grade 7/8 SAC students in the classroom via Dr. Suess video "The Lorax".

April, 1997

- Year of the Environment featured in the school newspaper, LIVE magazine, and the latest edition of THE ANDREAN

May, 1997

- Final Year of the Environment Assembly with guest speaker Dr. Arnie Katz, dermatologist and skin cancer specialist on Wednesday, May 21. I will show the students a 7 minute video on the OZONE LAYER and Dr. Katz will show slides of skin cancer. The purpose of this assembly is to educate and teach students about the dangers of the sun.
- Students continue clean-up work on Machell Park

SAC's DECA TEAM

With no prior experience, brief preparation, and modest hopes, 15 students entered the 1997 DECA Ontario Provincial Competition. While there were 49 other schools, each doubling and tripling the number of students SAC had, we felt like diminutive flounders in a large pond.

Each competitor had over ten different categories to choose from in either associate level or management level. It ranged from Financial Services Management Team Decision Making to Apparel and Accessories. For the first time in its 19

years of existence, there were team events for two competitors to combine their oral talents and knowledge in a chosen field.

Each competitor had an oral event and a written event. The oral event consisted of scenarios in which you make a presentation towards that situation in front of an expert in that particular field. The written event is a multiple choice of 80 questions of various business topics to be completed in 70 minutes.

This organization and its annual competitions are internationally-known and are looked upon by actual businesses and universities. Some finalists receive schol-

arships to institutions and others receive job offers. The winners and runner-ups for each category had the opportunity to go to Anaheim, California for the National DECA Career Development Conference - a real feat to accomplish.

Duane Gafoor, our DECA President, is mostly responsible for bringing this unique experience to SAC. His enthusiasm for business and perseverance through 3-4 months got us to where we were entering the competition in the Metro Convention Centre. For SAC, this is the first entry into DECA. For the Independent Schools, SAC is the first school to enter. With the administrative help from R.

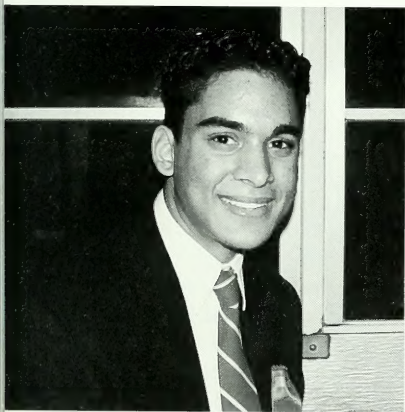

Giel and M. Service, and the tutorial sessions taught by R. Giel, SAC was part of DECA.

While we started with about 50 students attending the first meeting, only 15 stuck around to the end. We had weekly meetings in the beginning, discussing the different categories and events of the competition. By the last month before the instigate scenarios for the oral events. It may seem we made a lot to prepare ourselves and seemed ready to compete against other Ontario schools, but the fact was that it was nothing compared to the intense work and studying other competitors endured. Some have been doing this for several

years, hoping to win the Provincials and a trip to the Nationals in Anaheim.

On Friday, February 21, the Provincials were here and we looked upon it as a learning experience - not expecting to win anything. Once we walked into the Convention Centre, there were a mass of students who dressed even more formal than our uniforms at school. They were running through information in their minds, reading books and the last-minute cramming. We were relaxed and enjoyed ourselves amongst the jungle around us. Some of us took in the Car Show upstairs.

DUANE GAFOOR - DECA Pres.

CHRIS FUSCO - WON it all.

By 4:00 p.m., everyone was done their duties and thought they had done reasonable compared to the lack of preparation. At the Awards Ceremony, SAC lounged at the back. By the end of it all, SAC walked away with 9 ribbons, 5 medals, and 1 trophy. We could not believe the results and were screaming and cheering for every SAC winner who walked up the stage. To cap it off, Chris Fusco won the rights to Anaheim to represent Ontario at the Nationals!

We all had a lot of fun and came out with a unique experience (and a bunch of unexpected awards).

Concert Band 96/97

The Music Department, which is located in the depths of the Great Hall, was the home for many of SAC's finest musicians throughout the year. The bands of St. Andrew's were many, the musicians were hard working and ever improving and the teachers.... well let's just say they were around a great deal.

The music department's premiere ensemble was of course the Concert Band. The thirty musicians who dedicated themselves throughout the year to playing in the band played many gigs both on and off campus. Some the highlights were the combined Havergal/SAC music day in January, the MacPherson Tournament, The Carol Service and the recording session and concerts that took place during FOCUS. The band's first concert was within the first few weeks of the start of the year and they last played on Prize Day. The band performed some demanding repertoire, and as a testament to the quality of the musicians in the band, eleven of the band were selected to participate by audition in the Independent School's Music Festival at Roy Thomson Hall in Toronto. These band members were: Mark Andrew Scott & Hyun Do Kim, flutes; Atsushi Takada & David Park, clarinets; Max Woods, sax; Yamato Yoshioka, trumpet; to make a sound.

The department also featured many other large and small groups which all performed to great success during the FOCUS festival. Among the highlights of the week of concerts and recording sessions were: the "band that doesn't march" aka The Cadet Band, The Grade 7 beginner's playing "The Saints", and of course one unnamed percussionist who could not get a siren to whistle.

The dedication that the music students demonstrated throughout the year bodes well for a truly outstanding music season next year. Special thanks to all the senior and graduating musicians, band members, music stewards and to all those who earned the right to wear a music tie for a great year, and truly outstanding music making.

SAC Choir

The St. Andrew's College Choir, a choir of sopranos, altos, and baritones, was established as part of the "Year of Music" in 1995-1996. This past year, the second season for the choir, saw representation from every part of the SAC community: students, teaching staff, support staff, dining hall staff. The ensemble also included a number of girls from surrounding high schools. In December, the group performed a Christmas concert in Ketchum Auditorium and participated in the annual SAC Carol Service. In May, on the eve of Focus, the choir offered a program of folksongs and show tunes.

Saint Andrew's Night:

A Feast for Kings

HONOURING ST. ANDREW IN NOVEMBER

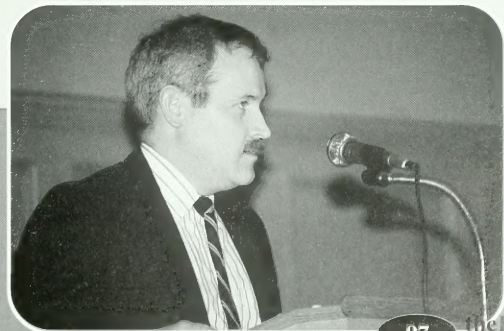

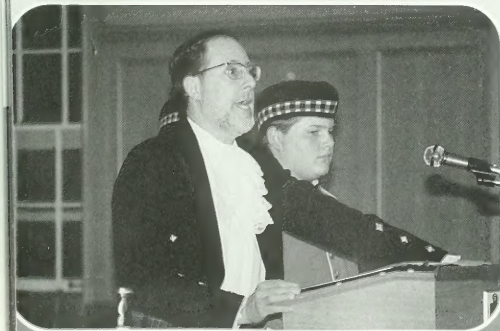

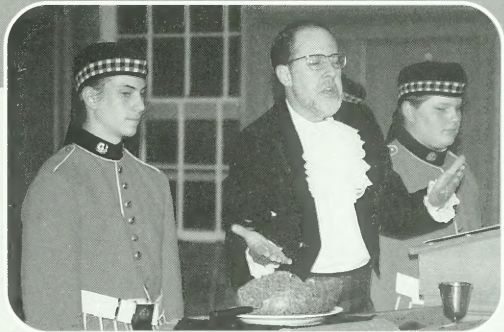

The feast of our patron saint falls on the last day of November and last year we were driven to a new approach, that of having separate banquets a week apart for the two halves of the school. That

takes off some of the pressure for upper school when exams are imminent and enables us to see every one in a more seemly way. Last year's short-term solution is becoming an instant tradition because we did the same again with considerable success.

A week before the official date the upper held its celebration to the accompaniment of pipers from our military band. We addressed the haggis

in the appropriate manner and presented clan awards to the deserving. Space permitting a list will appear at the end of the article. Guest speaker was John D. Stewart, Andean from 1973-79, a good friend and a regular visitor to the school.

Here are a few thoughts from his address about what it means to be an Andean. It is more a privilege than a right, a process that begins when you leave. You want to leave completely, but you

never do. You use it and you pass it on. You are here because of the sacrifice of others, and you have to learn in your life how to make some similar sacrifice yourself. It's the journey not the destination that counts. You have an opportunity, but you have to find out how to use before it can be counted a gift.

A week later with the lower school in attendance our guest was Johnny McGrath, one of the great men in soccer in our country, and a friend of Mr. Ray's over the years that they have coached against one another. A Yorkshireman by birth, an engineer by profession, Mr. McGrath had a brilliant playing career in the U.K. playing for teams as distinguished as Newcastle and Arsenal. Now he is the consummate coach and mentor to young boys not only at U.C.C. where he teaches the game but also at schools like our own. Presently he is throwing himself into a new venture, the organization of Toronto's first semi-pro indoor soccer team, the Shooting Stars who are playing their first season in Maple Leaf Gardens. In his remarks he stressed that it is not the winning that counts most, but earning the accolade that you are a team player. If you contribute to the best of your ability, then you are a winner. But beyond being a team player, Mr. McGrath stressed to each of us that we must never prostitute our own values. Thoughts to ponder!

Needless to say we also used the Selkirk Grace and distributed "Andrews", special coins to those students fortunate enough to bear the name of our patron saint or to be born on his special day. In addition that night we were entertained by a lovely and talented highland dancer who has earned titles in world competitions. Another memorable evening.

In the spring of the year we recognize the "clan fact" at an assembly in late May. On this occasion our guest of honour was another Andrean who spend the full stretch of seven years here from 1971-78. He too now works in the field of specialized engineering and makes a contribution back to independent schooling by serving as chairman of the board of one of our sister prep schools, Stirling Hall in Toronto. Andrew talked about SAC as an environment that supports both worthy traditions and core values, and he made powerful use of the central point in the contemporary novel, "The Power of One" by Bryce Courtenay. Each of us has within him the capacity of belief in himself and that empowers us in a way which we must learn to appreciate and apply with restraint and wisdom. On your behalf I say thankyou to all three of our guest speakers this year. Each spoke succinctly and cogently and they knew how to communicate with an audience of young men.

On the last day of the term additional clan announcements and awards reflecting both individual and group accomplishments during this academic year. The most distinguished of the senior boarder clans was Buchanan Clan, those in Memorial House and they triumphed in the track and field meet. The most spirited clan member in the upper school and winner of the MacPherson Shield was Andrew Hodges. The Laidlaw Trophy awarded to the boy who had made the greatest contribution to his clan in the final two years went to Mark Newton.

Once again the competition for the Housser Trophy was very tight indeed, and in the end Ramsey was able to come from behind and narrowly defeat the men of Leslie Clan or New House. Hats off to the Prefects who organized a wonderful interclan Highland Games on the morning of Mayfest linking the lower and upper school clans together (a super idea!) and inventing some wonderfully imaginative games for all to take part in. Noone knows exactly who won, but it was great fun and will be done again in future years.

The top junior clan in Macdonald House and winner of the RJR Trophy was Montrose clan. They were clearly ahead of Wallace and Bruce this year and even managed to defeat the dayboy clans in the track and field meet. Brendan Farrell was chosen by his housemates to receive the Manny Cominsky Award. As was the case in upper school the competition between the two day boy clans, in this case the young men of Robertson and Douglas, was very fierce but the difference was that the traditional number two in recent years rose up and won the Hockin Trophy.

Congratulations to Douglas clan led by Robbie Carter for this achievement, also to Paul Perrier who received a special clan award on Prize Day for contributing more points to his clan than any other junior clan member in recent years. I would be remiss if I didn't thank Mr. Whitehead, Mr. Somerville and Mr. Kimmerer for their contributions to house spirit in recent years. Each of these gentlemen is changing his job description as it affects the house and clan system.

This year especially in the spring more boys than ever before applied for and earned clan colours at one of three levels of distinction signifying the extent of their contribution to the life around St. Andrew's College. This is heartening indeed. I hope that each of you derived both pride and satisfaction from the clan system and the legacy of St. Andrew (in the words of St. Paul) to acquit ourselves like men and to let all our deeds be done in love.

Well done to each and every one of you!

1997 Debating

We had in our midst this year one of the finest public speakers at the high school level in the country, capable of holding his own in either one of Canada's national languages. Only once in every few years do we have a student who accomplishes so much and gives such distinguished leadership as Pierre-Alexandre Filion has done during the past two years. This article won't detail all that Pierre did beyond getting to the Provincials in London and the Nationals in Halifax, but his name joins illustrious predecessors who have won the Brooks Trophy.

"Pierre-Alexandre s'est merite le prix de la Federation Canadienne des debats d'etudiants pour avoir gagne la deuxieme place dans la categorie des debats francais. Il a egalement gagne le prix de l'Art Oratoire, en etant laureat du concours oratoire en francais." These sentiments are taken from the letter received by our Headmaster after the Nationals were over. This is a distinguished achievement of which we are very proud.

There are other criteria which confirm that this was a year in which debating was busy and successful and in which a good many young men experienced personal growth. This speaks louder than the titles and silverware may happen to come our way. Of wonderful when one can have both! Pierre all the way was Vice President Nusaputra who has devotedly made every year he did everything he could to provide social debating opportunities for the up and coming members at the both the junior and senior levels. Most happy were the home and some engagements we had with the girls at Havergal and Madonna. For the second year in a row Adrian was honoured on Prize Day as our Craig Leslie debater.

The core of the society and executive were those who held our banner high in the Fulfords and the other key tournaments. At the senior level this means Simon Williams, Brad Livingstone, Russell Fraser, Jason McIntyre and B.J. Sexton. The latter was new to SAC, but he proved himself very valuable during his one year of membership. We did everything in our power to defend the Headmasters' Trophy but our friends at the Toronto French School were successful in wresting it away from us in two head to head debates on the same day at our two schools. The Fulford Trophy was shared this year by TFS and Grenville Christian College; our congratulations to them for the fine standard they set each year.

At the intermediate level our Fulford and regional debaters were Alex Naghi, Gene Chiba, Jamie Duncan, Alvin Yeung, Justin Williams, Ryan Brandham and with the Brian Mitchell award going to Gene Chiba. In addition to names already mentioned we shall be looking next year to Danny Kwok, Aaron Styling, Ming Tsui, Jason Allan, Jeff Lo, Stephen Amell, Nelson Chan.

Mark Scott in addition to all the other things that he did on various fronts was our representative in the Shakespeare on the Platform event and gave a good account of himself. Pierre and Jason McIntyre were our speakers at the International Independent Schools Tournament hosted this year by Branksome

Hall. We sent Mark Gooderham, Warren Lowe and Alvin Yeung to the Nora McRae Public Speaking Tournament and Pierre was our candidate at the Winston Churchill Medals. He won his way through the preliminary rounds and was one of the final six to take part in the medal round before a distinguished judging panel including Mr. Hal Jackman who recently completed his term as our provincial Lieutenant-Governor.

In January St. Andrew's College was the base from which the Canadian team and their coaches prepared themselves for participation in the World Schools' Debating Championship in Bermuda. Our thanks to the Newton, Chiba, Hew and Timms families for hosting the five students from five different provinces. Their experience was shared by Mr. Ray because he was invited to serve as an international adjudicator in this significant event which brought young people together from close to twenty countries on all five continents. The eventual champions for the first time were the students from Australia. My personal thanks to Mr. Bedard for allowing me to be attend and to Mr. Arril for all his help at this and other times.

the other members to whom we turned this year:

Palacio, Ian McGuigan, Andrew Hodges, Rehmulla, Matt Ward, Andrew Pitt. The

of next year's society will be led by Antonio and by Russ Fraser. There are shoes to fill and we shall need willing people to step forward and to carry on a great tradition.

It is certainly encouraging to know that Mr. Arril has been bringing on some fine young juniors who will help to respond to this challenge. They include: Dustin

McGee, Jack Popiel, Aaron Racine, Nikki Adelson, Ivor Skala, Warren Lowe, Michael Charlebois, Herbie Heastie, Justin Hassel, Tapfuma and Tatenda Musewe. What are our

objectives for next year? We want to strengthen our training program; we want to be closer to the top of the heap in Fulford competition; we want to win back the Headmasters' Trophy. Most important we want to give lots and lots of young men the fun and satisfaction of standing on their feet and learning what it is they believe in and how to defend it with both passion and dignity.

Henry V

Review taken from LIVE magazine, ISSUE 2, written by Ricky Leung, '97.
Director's note written by Mr. William Scoular, Esq.

The English versus the French — a story back in the late 16th century and a story still in process in late 20th century. A war between England and France in the past; a feud between Anglophones and Francophones in present Canada. Our school play this year was William Shakespeare's *Henry V*, written in 1599, but adapted to the modern English/French conflict.

Director and Master Mr. Scoular tackled the fall play production once again. His interest and knowledge in Shakespeare's work, and his awareness in modern issues, blended miraculously in *Henry V*. Every production and recreation of Shakespeare's plays undergoes some kind of adaptation to modern society. Interests and beliefs change over time and so "new truths blend in with the old". Two years ago, Mr. Scoular directed *Othello* which had a black man kill his white-skinned wife due to jealousy. At the time, the O.J. Simpson story captured America's attention, and Mr. Scoular cleverly related it to the obsessed Othello strangling his defenseless wife Desdemona.

The lead role of Henry V was played with a great deal of polish by the young Greg Meuser. He has stunned audiences before in the successful Focus play, *The Yellow Pill*, and in this larger-scale production, he took his performance to an even higher level. No longer was he performing in the enclosed Science Lecture Hall: now the intimidating Ketchum Auditorium was his new home. Greg played a memorable Henry V and future projects look promising with him in a starring role.

Andrew Camargo, who also acted in *The Yellow Pill*, played next to Greg Meuser once again as the Duke of Exeter. The talented Camargo played a convincing role and adds to the young potential of Andrean actors. The entire cast and production staff spent a long, hard-working month devoted to making a great fall production.

In our age of high-speed action and jolts, special effects can keep audiences gripped to their seats. Mr. Scoular realized the impact this tool of visual effects would provide, and utilized some unprecedented fireworks in his production. A professional pyrotechnics company came in to set up some of the surprises, like background explosions looking like war bombs exploding and the grand finale with its magnificent fireworks display lighting the entire stage and its proud actors. When the commotion was all over, the auditorium was smokin' like never before.

The production really had an up-beat, modern look to it, with some truly superb touches: the music and the hockey game excerpt at the end; reporter Keith Dadson and his crew "occasionally" popping up; outlandish special effects; the Canadian and Quebec flags raised in harmony; and the underlying struggle of Quebec separation. Within the program itself the issue was thrown right into the reader's eyes with facts, dates, events, and quotes. Even the program cover and posters around the school showed half of the Canadian and Quebec flags with a tear in between them.

In 1995 a referendum was held in Quebec with marginally pro-federalist results blamed by Premier Parizeau on "...money and the ethnic vote..." He also said on the night of the 1995 referendum defeat, "it is the Jews, the Italians, and the Greeks who cast the ethnic vote.... To win, we will have to do like them: an ethnic vote!" "Until we take our revenge." Quebec Premier Lucien Bouchard said: "We are one of the races of whites with the least children. It doesn't make sense. White Quebec women must have more white babies to procreate out of a sense of patriotism.... We are not a state which favours multiculturalism.... The official and common language of Quebec is French. We will never, never, but never give on that."

"Canada was built from the beginning on dreams as well as appetites. This wonderful country of ours was put together not by bloodlines,

kin or tradition, but by waves of newcomers of every seed and stock who arrived in what they thought would be tomorrow country and for most of them it was. Too often — as a nation and as individuals — we decry what we lack instead of celebrating what we already have. Yet the most of the world's troubled citizens, Canada appears blessed with the mandate of heaven"

- Peter C. Newman (1996)

"Unhappy is the land that breeds no hero. No, unhappy is the land that needs a hero." - Bertolt Brecht, 1940. In the Shakespearean play *Henry V*, King Henry V led the English and French to peace. Presently in Canada, the continuing struggle to keep this country together impedes our future prosperity. Who will be our hero?

"In our age of high-speed action and jolts, special effects can keep audiences gripped to their seats."

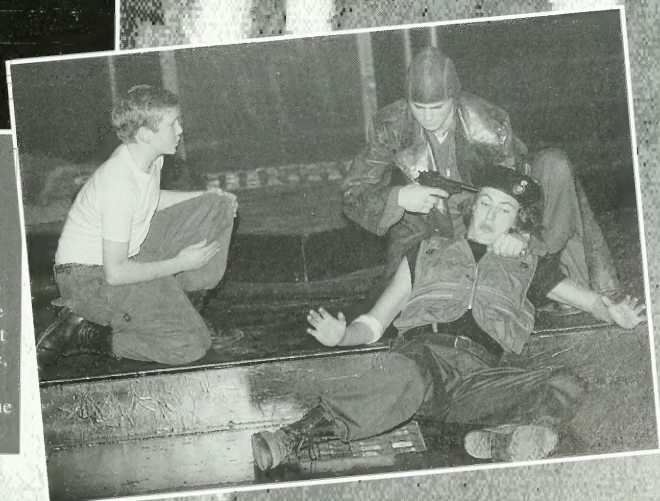

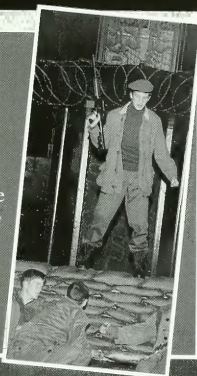

Director's Note

With the passage of time Shakespeare's plays have quite properly assumed the status of myths and it's the honourable fate of all great myths to suffer imaginative distortions at the hands of those to whom they continue to give consolation and nourishment.

Every production of Shakespeare presupposes a national group which is the predominant audience. Meanings latent in the text are generated by community and history - the audience participates in and establishes them. Each generation projects into a play its own particular interests and preoccupations in such a way that we are forced away from the original by our own particular interests. New truths blend in with the old.

More than any of Shakespeare's other plays Henry V has entered into its audiences' blood-stream and has been performed with a particular social context in mind. The strongly nationalistic Olivier film version of Henry V has a jingoistic patriotism about it, which was relevant to the immediate post-war situation. But then in the midst of the horrors of Vietnam, people began to see that the text contains a latent anti-war statement, a sort of play-within-the-play, a hidden play that amounted to a passionate cry against war, which, I suppose, now is the orthodox view of the play. And so, the meaning - the thrust of the play - has changed radically. The text doesn't change, we do.

To a contemporary Canadian audience Henry V has become (don't P. 103)

French and English, the play resonates with a peculiar and ominous intensity -- and it has become impossible for anyone living in Canada in 1996 to read the play without wondering if the movement for Quebec's separation will lead to civil disorder, chaos, terrorism, and internecine violence.

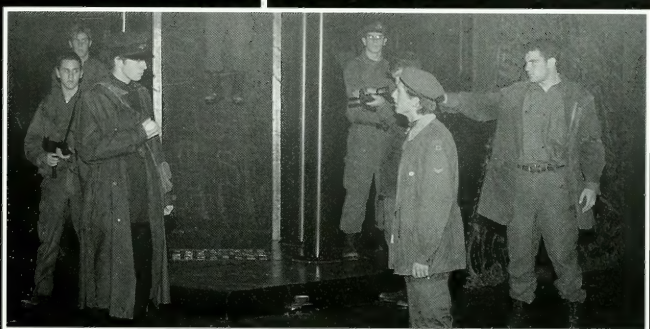

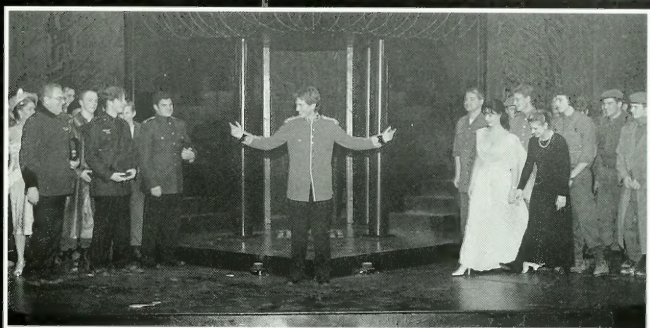

Even the Parti Quebecois government admits that partition could lead to the use of force. In the jungle regime that would inevitably follow a unilateral declaration of independence they know they will have to use force to deal with aboriginal groups across the province who refuse to join a new republic of Quebec. The separatist government will also have to put down numerous partition groups, some of them quite militant. And they seem to expect a military response from Canadian forces. This may be why they are already planning to create their own army. A study released by the Parti Quebecois government in September, 1995 suggested that Quebec could have 17,000 - strong armed force at a cost of about 1.7 billion a year, including CF - 18 jet fighters

In February, 1996, Sylvain Simard, Quebec's international affairs minister, said, "If you take a decision that goes against the will of the majority of Quebec's population it will have to be militarily imposed by force." And in May of this year Lucien Bouchard warned, "If Canada wants to impose its veto and hold us in the federation against our will, we are going to withdraw by proclaiming unilaterally our sovereignty." Given this kind of rhetoric, the biggest mistake would be to continue believing the myth that this is all a polite charade, that Canadians will settle their petty differences with the shake of a hand / well-meaning politicians who don't really want to rock the boat. But the boat is already rocking, and it is rocking hard.

Canada is often seen as a peaceful country that sorts out its internal problems with generosity and aplomb. Many people, including many Canadians, believe that the tensions between Canada and Quebec could never result in bloodshed. The danger lies in believing it could ever happen in such a democratic, reasonable place. An never in Montreal. But not too long ago Sarajevo was just like Montreal - a cosmopolitan and reasonably enlightened centre of commerce and industry.

Lysiane Gagnon, a prominent Canadian military analyst thinks the comparison with Sarajevo or Belfast is all too accurate. Writing in Montreal's LaPresse last month, she warns of the "probably" outcome of the partition of Quebec and notes that "Quebeckers, regardless of their origins, are no more congenitally peaceful than the average human being. And history has taught that any territorial division along ethnic, linguistic or religious lines carries with it the seeds of war.... Do we want to make a little Northern Ireland out of Montreal?"

Bad things happen when democracy gets flung aside. Very bad things happen when a government persistently suppresses minority rights and legislates against people on the basis of their language or their heritage. In a letter to the Montreal Gazette, Stanley Swift writes, "Perhaps when the secessionist realize we, too, have poetry in the blood, they may hesitate wisely on the brink. Otherwise, poetry will run in the streets." Rene Daniel Buboio, a prominent

Quebec playwright, puts the current choice stark terms. "The true alternative" facing the separatists, he says, is "to be the young man, the victim in the white shirt in the tank. Our myths tell us that we are the young man. The truth is that we are seated in the tank." In Quebec, right now, that all-too-familiar tank is moving in from the horizon. It may be late to stop it. Or even to slow it down.

'96 Expansion Week

A taste of *Expansion Week '96*

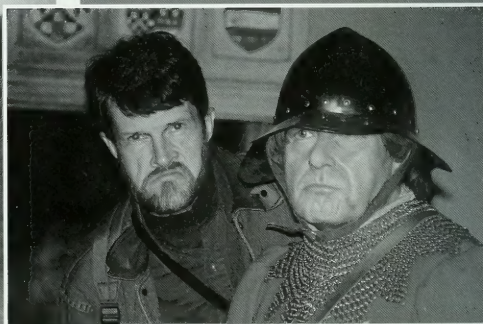

Law

Each year, a group of boys of various ages are guided by Mr. Somerville and Mr. Harper into the bowels of the Canadian judicial system. From the court house on University St. the students learn about what goes on inside a real court room. With the pre-conceived notion of dramatic performances of lawyers questioning witnesses, and the constant restlessness of the court audience, it is often a surprise to see that none of that goes on inside a real court room.

Astronomy

New this year, astronomy, headed by Mr. Dunford, gave the chance for a group of boys to look up into the skies to ponder at its mystery and awe. With the aid of computer simulations, they were able to simulate an actual viewing of Jupiter's moons, measure certain characteristics, such as distances, and even light and energy intensities of different stars.

Bahamas Diving

Led by the nerves of steel of Mr. and Mrs. Hiltz and Mr. Gaertner, 11 brave men went to the nice and warm islands of the Bahamas to go on about 14 dives. Such dives included the famous ship wrecks used in the James Bond films where they were able to swim the same waters as Sean Connery. One day a less wise person (Dale Jordan) decided to point his flashlight into the eye of a shark, and it responded by almost taking a bite out of the entire flashlight.

'96 Carol Service

Carol Service: unbridled enthusiasm

The annual *Carol Service* is, as the title implies a yearly event at SAC, and with each year comes an improvement upon the previous service. The 1996 service followed in the tradition of building upon the last. This year's class is graced with an abundance of musical talent, much so that Mr. Clements found it extremely difficult to give people the time to display their talent, and yet keep the service under two hours.

There were many new or vastly improved additions to the service this year that are worthy of note. Mr. Wenk led his choir once again this year with his very own arrangements such as "The Lamb" and "Villagers All". The choir also delivered other great carols like "Lord of the Dance", and a particular Christmas favourite: "O Holy Night."

Last but not least is the student body, who delivered ten incredible carols with the power and low rumble of an all-boys ensemble. Some of the classics included "O Come All Ye Faithful", "See Amid The Winter's Snow", "It Came Upon A Midnight Clear", and "Hark The Herald Angels Sing". Naturally the essential "Wassail" carol was present, as was our the latin hymn for this year: "Personent Hodie". But who could forget the absolute climax, the zenith of the *Carol Service*, when 450 young, male voices belt out "Amazing Grace" and the "Dorset Carol". It was marked by the clearly involved and pleased Mr. Clements, who leapt up onto the podium and directed the voices with unbridled enthusiasm. It was also characterized by the pure energy and

spirit that each and every SAC student cannot help feeling.

GO HOME. This year's homecoming

ROCKED

the

HOUSE

This year's homecoming was unlike anything ever seen before in the history of SAC. Realizing that in previous years homecoming has been less than spectacular, this year's prefects strove to make it a memorable event.

The excitement started even before Homecoming itself. The Friday night before Homecoming was spectacular. At 8:00 PM, the students met in the Ketchum auditorium to see a skit put on by members of the OAC class. This included a teaching of the chants to the newboys by Brad Livingstone, which was rudely interrupted by two TCS party crashers. A heckler on the catwalk started hurling insults from above. Michael Farrugia went up to catch him. The mysterious person tried to descend down a rope to the grounds, however, Mike was able to chase him on stage. There they sat him in a chair and destroyed his head, which, oddly enough, resembled a watermelon! Bren Christie then came running in saying that some TCS party crashers had come to vandalize our school. Running down to the gravel parking lot, the students drove off the would be vandals, and then proceeded to demolish a car by the light of a bon-fire. The atmosphere was great and everyone was "pumped up" for Homecoming the next day.

Every year, Homecoming T-Shirts have been made available to the student body. In previous years, these T-Shirts have been "last-minute rush-jobs", merely having SAC HOMECOMING imprinted on the front, and

even less on the back. This year however, extending from a ad seen in a magazine, the T-Shirts had a "smiley face" with three percent taken out. The three percent pointed out various aspects of school life: Cadets, chapel, male:female ratio of 462:0, stress. To the other 97% pointed the main objective of this years homecoming: party. Underneath was written: All Day, All Night, All Party, All Welcome. It consisted of four different colours on the back, and one on the front. The shirt was designed by the prefects but drawn by John Haney.

Also, to set aside this year from any other, the prefects made "Cat-in-the-Hats" available to the students for the first time. They were an immediate success. They look similar to red and white striped elongated top-hats made of felt. During the Friday before and Homecoming itself, one could see students walking around the various styles of "Cat-in-the-Hats" and great looking T-Shirts. This year, our students, staff and old-boys were best dressed for the occasion.

On a whole, the school did very well at their games. Many of the teams were victorious in their matches over TCS. First volleyball won their match 3-1 while unfortunately, first soccer lost a heartbreaking game. The highlight of the day was definitely the first football game in which our team was down 20-1 at the half, but came back in spectacular fashion to win 21-20.

Also new to this year, for the barbecue lunch, we used new gas barbecues. These were highly efficient and made everything taste

much better.

But that's not all. For the evening, S.A.C. hosted its annual Homecoming dance. In previous years, attendance at S.A.C. dances has been dwindling. Fewer and fewer girls have been present because of a "bad rep": all S.A.C. guys are scum. The prefects, realizing this, have made a motto for this year: THE NEW BREED. This means that we are all new. We are all good. We are the gentlemen of the school now. We have cleaned up our act. As Homecoming approached, the prefects made an effort to attend a prefect breakfast at St. Clements School, visit Branksome Hall, join Haverger College for breakfast and morning prayers, and have lunch at B.S.S. The male:female ratio of the dance has been estimated at 2:3, a higher ratio than was estimated of many previous dances.

Exclusive to this year's dance was the barbecue, many interesting decorations, a Beach/Hawaiian Party theme, a hand-made friendship bracelet and lei for each girl attending the dance, and, a HOT TUB. Many thanks go out to Mandel who, once again, provided the music for the dance. Their superb job only added to the excitement of the night. They brought with them a laser-light show, two sets of sparklers, a strobe-light, and a fog machine, along with some great music.

The consensus of all who attended has been that this was the Best Homecoming ever! Even until this day, no complaints what-so-ever have been heard about the unforgettable day and night.

The cross-country run seems to get longer each year, but it is a place where some of SAC's best endurance athletes show their skill.

SAC Marathon

ONE OF THE MANY annual events happening at SAC is the Cross Country Run. For the athletes and runners of the school, it is a chance to show their talent and training. It is a chance to compete with your teammates and staff members who choose to run. For the non-runners and other people, the run is a gruelling, embarrassing and hated task to go through every year. However, for everyone, runners and non-runners, the Cross Country Run signifies the beginning of a much-needed three-day weekend with a turkey sitting on the table.

In the past few years, we've experienced all sorts of weather for the run. It's been boiling hot where running 3.5 kilometers was very uncomfortable. It's been rainy where the lower fields were flooded and the route had to be alternated to avoid the lake. And this year, it was a cool, crisp day — perfect for running after warming up.

If you want to finish near the top, you have to start off running hard. You can't let some of the runners go ahead before you start running or you'd have to pass a lot of people.

Another strategy is to pass people going uphill — like in the Headmaster's Hill. When most people are struggling and slowing down, you can use big strides and bursts of energy to pass them. No matter what pain you're enduring during the race, never stop. Don't even walk — just keep jogging and pick up the pace when you recover.

Definitely, at the end around the quad, you should try to either sprint past

people or not let anyone sprint past you.

When you see the quad, the race isn't over so go all out for the next 100 meters.

With the signal from the Headmaster, Robert Bedard, the flood of eager runners blasted off into the field. A herd of people gradually transformed into a dense line of runners circling the grand lower fields. The cleats scraped the grass from its roots and gave the competitive runners an added boost to each stride.

Wet mud was avoided by cautious runners while the competitors charged right through. Refreshing ice cubes were tossed to hot runners — a change from the hose spraying by Mr. Jones in

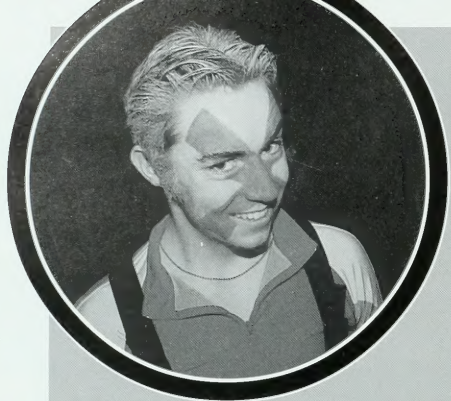

previous years. After reaching MAC house, runners knew the race was almost over. A quick sprint around the quad was all that was left. At the finish line, Dan Wells took the gold, Jeff Messina was second and B.J. Sexton finished third.

The Cross Country Run is a great tradition held at SAC. Both the Run and Track and Field Day help promote running and can be a lot of fun. A lot of athletes look forward to and enjoy the two sports day. There are not a lot of events where the entire school takes part in. The Cross Country Run is one of those precious events.

Dear Cadets,

Television has its good points but I could do without THE WEATHER CHANNEL. Last week I anxiously watched each day, hoping to get some sense of what to expect. They had been right on the money with their predictions for the weather for the Church Parade and the Headmaster's Parade but in my inner heart of hearts I hoped that they might be wrong when I heard their forecast for Saturday. No such luck! However they were wrong in one respect. Given what we experienced their suggestion that we would have showers did

not square with the steady downpour we experienced.

And then came Saturday when you really demonstrated your commitment to the Corps. The somewhat chaotic morning rehearsal produced a superb parade in the afternoon in what was essentially an inhospitable milieu when contrasted with the comfort and familiarity of our own "Quad". I was most impressed by your steadiness on parade, especially when you were left standing while Pipes & Drums did their demonstration. My compliments and thanks for your professionalism. You did a great

job with the Church Parade and Headmaster's Parade but these were relatively easy tasks. Saturday's exercise most definitely was not.

The Area Cadet Officer, MAJ Boudreau, attended our Annual Inspection for the first time. He wants Pipes & Drums to participate in the annual Cadet Band Competition so that other Corps can see how it really should be done. The Military Band truly made a "joyful noise" and the hours of practice resulted in a melodious and effective contribution to the day.

On behalf of the Headmaster

and my colleagues I want to thank you for your efforts and compliment you once again on what you achieved. Team work and diligence have prevailed once again.

Kindest regards,

Geoffrey Smith

Sports Legend

by James G Patterson

Fred Perowne's farewell debut performance at St. Andrew's College: off the ice, on the stage, and toe-to-toe with Coach Cameron. Frank Ruffo ref's a one-sided battle of wits between a hard boiled coach and a washed-up, knocked-out old sports legend.

Breastmen

by Bill Bozzone, adapted by Pat Dawson

Hardly crude, not quite offensive, and always funny, *Breastmen* is a comedy of unusual proportions. Aaron Styling, Keith Dadson, and Andrew Hodges expose their talents, held up and together by Pat Dawson's wonderbra, er, wonderful direction. Alex Wong lends support.

Orphans

by Lyle Kessler

Theft, literacy, and Hellman's mayonnaise: a dysfunctional parentless family struggles with its own private disease. Mark Gooderham and Tony DeCarli play at the violence of love.

D.

Blue Denim

by Leo Herlihy and William Noble

The truth is that Boy meets Girl is only the beginning. Peter Dyson and Daniel Melville struggle with friendship and Frank Ruffo.

B.

Some People

by Bill Kitcher

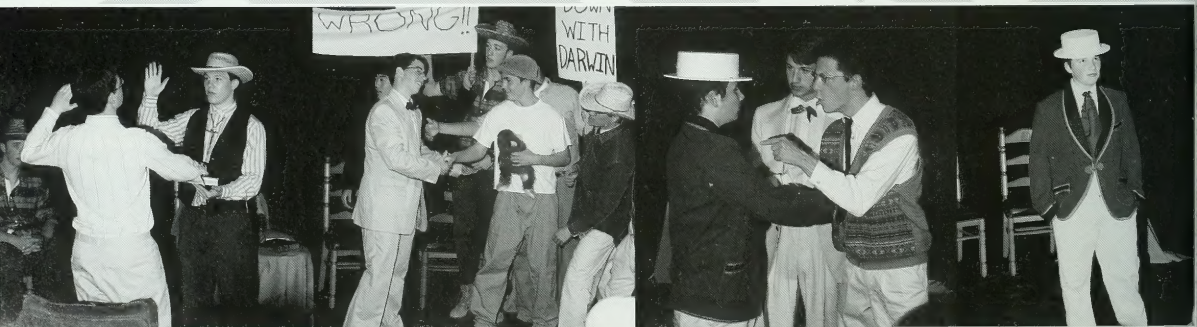

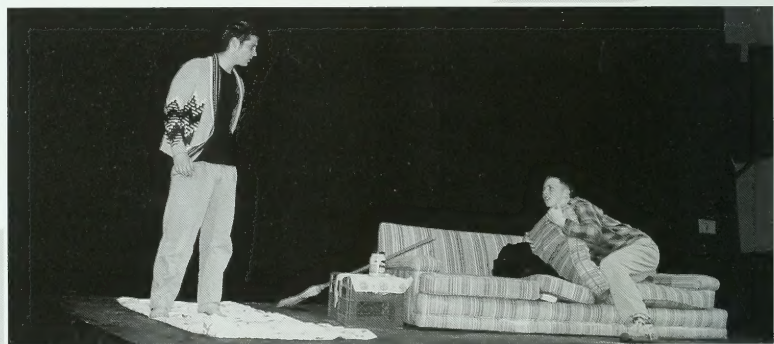

Two cool cats do hard time on Death Row with their dog-eared but daring companion. Alex Gray, Jacob Marcinski and Zahir Thobani show *The Man* that you can't keep a wild thing down, no matter what some people think. Pat Dawson shows again how the pro's pound out a performance, and Alex Wong keeps a leash on things.

C.

Monkey Trial

adapted by David Timms

It was the trial of the century down in Dayton, Tennessee, in 1925 -- forget Bernardo and OJ! The top politician in America, William Jennings Bryan (Andrew Camargo) defends *The Bible* against the attacks of top lawyer Clarence Darrow (Greg Meuser); meantime, ascerbic journalist H.L. Mencken (Aaron Styling) offers his views on the truth. Directed by David Timms and Fraser Cowell.

Broken Hearts

by Kevin McLeod

Heartbeat flickers to a stop and blood runs cold. Come see what's on the other side of the final door. Jane Kravchenko, Susan Roncadin, and Lee Clements hold the Gates open, and Frank Ruffo sits in the Big Chair.

Trying To Find Chinatown

by David Henry Hwang

Looking for the best dim sum in the city? A night of nookie-nookie with Miss Saigon followed by a good old fashioned ritual suicide? Chinatown tears at the skin of racism under a wash of Jimi Hendrix virtuoso riffs. Directed by William Scoular. Dynamics by Jeff Mesina and Greg Meuser.

The Philadelphia

by David Ives

You have woken in a place south of the Twilight Zone and around the bend from the Bronx. You are standing in an enigma, wrapped up in a riddle, and served over easy with a side-order of cheese. Join Colin Parent, Andrew Camargo, and Deanna Rose, as Jennifer Caparu guides your travels through The Philadelphia. Greg Cook rides shotgun.

Waiting for Shuggie's Ma

by Iain Heggie

If ye dinnae ken what yer mother's daen, an ye hanna seen whar yer mates a' been, Shuggie's Ma's got somethin' to lairn ye. Got it? Och, then see it, ya wee...! Ned Vukovich trains the talent, as Hugh Long and John Haney take their spots among the lowest of the Highland's brood. Eric Cheung keeps things regimented.

Wandering

by Lanford Wilson

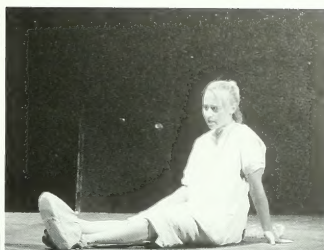

How do you think? Where do you wander? How do you think when you wander? A lifespan of about 40 years, in flash backs... making you wonder. Lee Clements points Will Mercer, Jason Stringer and Lauren Ecclestone in the right direction; Hugh Siddeley keeps things real.

The Talk

by Frank Pugliese

A death, four brothers, the East Village, cooking, Ellen DeGeneres, Long Island, ice machines, and coffee. Confused? Ned Vukovic chalks the walk as Peter and Brook Dyson, and Mark and Chris Gooderham talk The Talk.

the Cabaret

What a show! I didn't know what to expect from this Cabaret considering I didn't like it when I came five years ago but wow, can these people really perform. The atmosphere was amazing, I could see it when I went to take pictures of the crowd waiting to enter the Tuck Shop. Everyone was jumping, screaming, yelling, waiting for the performance to begin. Fortunately, things didn't get out of hand thanks to the OAC bouncers, Glenn Cowan, John O'Hea, Jeff Slightham, Richard Couture, John Decarli, Buff and a few more directing the traffic flow in and out of the Tuck Shop. Too bad the Tuck shop is so small because so many deserving boys were turned away from the show, they either had to listen outside or wait until next year.

The Cabaret is similar to a little club scene with performers coming from the student body, the faculty and professionals. The concert started with Rabs and Donnelly playing one of my personal favourites, "Wanna be", written by the Spice Girls. Hodge and Morgs did a little flexing of their muscles, keep on trainin boys. Tony Decarli and Mark Gooderham did their favourite impressions of teachers, a little reminiscent of the House Plays. But then the concert really kicked in with Coco Love Alcorn, Mr. Dominato, David Ramsden, Ryan Evans & Jeff Mesina, Matt Fordham and Brook Dyson, Brad Ferris and Tori Ierullo, Mr. McGee, and many more. But my favourite performance, a performer who put on an Underworld, Born Slippy kind of performance, was Kurt Zwinghammer. Now this guy can really jam on the guitar. He was the man, playing stuff on the electric guitar which is undescrifiable, wow. If you missed him this year, make sure you check him out next year. Not to be forgotten is Inferna, her devilish 'MC'ing of the Cabaret adds the perfect touch of the "night" to the evening.

The Cabaret was once again a huge success with the kind of turn out which comes from the student body as well as the faculty. A special thanks should go to the Technical crew who kept the show running as well as the coordinators, William Scoular, Torin Buzek and Darcy Montgomery.

Note from the Co-ordinators

And there it is. By the time this is in your hands our work here will be done. The actors are acting, the bands have struck up the tune, and poets, singers, artists and performers you never knew had it in them have taken to the stage. Somewhere a technician is breathing a sigh of relief as a lighting cue hits its mark, or sharing a laugh about the one that didn't. They are your friends, your teachers, perhaps your sons or parents, and all the work they've done, all the time they've spent away from you, is here for you to enjoy.

It's been eight years since the first *Focus* stormed across the campus; eight years of dreams and talent, and hard work and fun. We've all seen some memorable performances, from first-timers to accomplished professionals. And now, if we can beg your indulgence for a moment more, a look ahead to future opening nights.

As the College approaches its centenary, so the *Focus* festival approaches the close of its first decade. In the years between then and now we'd like to ensure that the celebration of the arts continues at St. Andrew's. We want more actors on the stages scattered across the campus, more bands strutting their stuff at the Cabaret and in the halls, and we need you to help. Next year, come out for a part. Talk to someone about your sister's amazing band. Bring in your juggling Dad. Sign up for the technical crew or the production staff, or offer to paint us a sign. Whatever you've got, we want... just get involved.

Focus is a celebration. Not only of the arts, but of the artists that make it all happen, in front of and behind the stage. If you can talk, you can sing; if you can move you can dance... It's not just a slogan. It's *Focus*.

Darcy Montgomery, SAC '92
Production Manager

Okay, so what have we got here?

Sixteen plays, four micro-dramas, the work of countless visual artists, six concerts, eight authors in the reading series, nine bands, and twenty-four cabaret acts.

Once again *Focus* sets out to provide a theatrical gymnasium at St. Andrew's College for artists of every kind throughout the School — and I would like to thank all the directors, producers, performers, designers, stage managers, and

crew whose talent, incredible energies and commitment have brought *Focus 97* to life

Anything new this year? Sure. Shorter plays and more of them. From the quirky hilarity of *The Philadelphia* and *Waiting for Shuggie's Ma* to the sidesplittingly funny *Breastmen* and *Sports Legend*, there are gems of comic writing. Others like *Blue Denim*, *Orphans*, *The Talk*, *Wandering* and *Trying to Find Chinatown* have an eye cocked on social consequences. Or, as my mother used to say, "Keep on doing that and you're going to get it!"

All of these short plays are streaks of theatrical lightning. They don't last long,

but their power can stand your hair on end. They must, by nature, imply rather than explain and often depend on metaphor to extend their reach. And they stick like glue in the mind because the viewer remembers the whole play.

Audiences don't come to *Focus* loaded for bear expecting more than can be delivered. Performers don't feel they're climbing the Rockies. Everyone brings to the event a relaxation of spirit that allows the performance to seep into our heads and hearts.

This accounts for the sense of intimacy that the festival produces, and in terms of atmosphere that is exactly

what *Focus* is all about — informality, with everybody looser, ready to talk and ready to act on impulse. Think of the pieces you are about to see and hear as palette cleansers if you will — but they have bite and tang and aftertaste.

Let the performances catch you by surprise. They're meant to.

FOCUS - A CULMINATING ANNUAL TRADITION

By Andrew Camargo and Greg Meuser

This year's FOCUS on the arts festival was a huge success. When a grade 11 dramatic arts class started FOCUS as a class project only a few years ago, they could have never predicted that it would rise to the scope and depth it has, and grow to encompass the entire school for three very intense days. There are always many sections of FOCUS. Plays, being the most prominent one.

This fleeting three-day stint in the first week of May was a time when the students let their creative juices flow. The plethora of drama, painting, creative writing, and music filled one's senses and quenched one's thirst for art (in all of its forms). The College campus was transformed: quiet, forgotten nooks became crowded hot spots as plays sprung up in almost every conceivable corner. The Dunlap Hall Gymnasium blossomed with original artwork from every grade. All of this was pervaded by music of the concert bands, ensembles, student bands, professional musicians, and the immensely popular Cabaret. This was a celebration of the arts, and of the people who contribute to them. It was a time of revelry, friendship and enjoyment for the entire school. It was a chance to hear and see the arts from many different people. It was a feeling of school involvement, of artistic freedom, and self-fulfillment. It was our time. It was FOCUS!

There were more plays this year than there ever has been in SAC history. Focus plays can usually be divided into two genres of plays: comedy, and dramatic. Dominating the comedy genre was the IMMENSELY popular BREASTMEN, starring Keith Dadson, Aaron Styling, and Andrew Hodges. Dominating the dramatic side of things was TRYING TO FIND CHINA TOWN, starring Jeff Mesina and Greg Meuser. The play PHILADELPHIA was revitalized this year by an all new cast consisting of Andrew Camargo and Colin Parent. Although this did not get as many laughs as the untouchable BREASTMEN, it was a worthy second. THE MONKEY TRIAL, also starring Andrew Camargo, Greg Meuser, and Aaron Styling, was an insightful take on the John Scopes trial. The great thing about this play was that you'd never know what to expect - it was different every time! THE TALK provided the epitome of "jumping on queues", as most of this difficult play consisted of four brothers arguing, cutting each other off at every line. This talented crew consisted of Chris & Mark Gooderham, and Brook & Pete Dyson. Mark Gooderham also starred along side Tony Decarli in the disturbing ORPHANS. John O'hea, Dave Sutton, and Rob Gray play three hilarious umpires, in JUDGMENT CALL. Fred Perowne made his acting debut and finale with Coach Cameron in yet

another funny sports play, SPORTS LEGEND. WAITING FOR SHUGGIE'S MA provided a wee bit of 'Scottish accents, brilliantly conveyed by John Haney and Hugh Long. Other fantastic plays included BLUE DENIM, OUTLAWS, EUKIAH, VARIATIONS ON THE DEATH OF TROTSKY, and BROKEN HEARTS.

The visual arts exhibit was a great success this year, with Andrew Camargo's original, yet bizarre alien landscapes, Angus Wai's action sports paintings, Darren Gray's surrealist works, and Chauncy Birch's abstract inventions, this year's OAC art class was very talented. There was much potential shown by younger artists such as Albert and Herbert Leung, Russell Frasier, and various other talents. As usual, all the work produced by Andreans at all grades has been exceptional.

The music this focus has been very widespread, and represented music from both sides of the spectrum. Choirs and concert bands filled that chapel with euphoric music, while bands like Reeve, Slow Deep & Hard, Childproof and yes, even Psychedelic's Natch rocked the BBQ's. Reeve consisted of Jamie Near on guitar & vocals, Dan Near on drums, and two non-school members on lead guitar, and bass. Reeve displayed great talent in doing many different cover songs, ranging from titles from Our Lady Peace, to I Mother Earth. Slow, Deep & Hard displayed a serious ability to jam. With Brad Ferris on vocals and guitar, Andrew Camargo on bass and vocals, Torri Ierullo on lead guitar, and Dan Near on drums. Childproof was daring enough to attempt no cover songs, but to play all their own material. Psychedelic's Natch fed off the positive reaction of the audience to keep them going.

As usual, the Cabaret was an unbridled success. With a great show of imitating talent from Mark Gooderham, the substantial muscles of Eric Morgan, the Rabs/Donnelly version of "Wannabe" by the Spice Girls, Pumpkin & Mesina's playing, Ferris and Ierullo's tribute to Silverchair, and various other student talents, the student body displayed their own special talents brilliantly. Outside SAC talents included the unbelievable guitar playing of Kurt Zwinghammer, the beautiful singing of Coco, the "Shut up and let the poor guy sing!" act by David Ramsden, and other's filled the gaps, and made for three talent saturated shows. Inferna did her thing,

The New Breed presents:

MayFest - The Highlander Games

Pippin

When it came time for John and Lee Clements to embark upon the school's annual musical, they were apprehensive about choosing the relatively unknown "Pippin". With very well-known plays like "Damn Yankees", and "Man of La Mancha", "Pippin" did not ring a bell, (that it, unless they were old enough to have seen the Broadway production over twenty years ago. But after the first showing, the problem was resolved my outstanding word of mouth. By the final performance on Saturday night, the Ketchum Auditorium was packed. This capacity crowd gave the cast a standing ovation. All in all, "Pippin" was a very successful and enjoyable musical.

"Pippin" takes place around the year 780 AD When the legendary Charlemagne ruled the Holy Roman Empire. Pippin, the son of Charlemagne, was raised as a scholar, and wishes to lead a 'fulfilling', 'meaningful' life. Dissatisfied with the lifestyle of a scholar, Pippin dabbles in many different ways of life. First, Pippin tries the life of a warrior, battling for his father against the 'Visigoth' army. Soon thereafter, he concluded that he is not really cut out for a savage way of life. Inspiration finds Pippin, encouraging him to try his hand at being an Emperor. Pip makes waves in the water, summoning up a revolt against Charlemagne (under the manipulation of Pippin's devious stepmother, Fastrada). Pippin murders his own father while he is praying in a chapel, and takes over the role

of Emperor of the Holy Roman Empire. As with war, Pippin learns the hard way that he is NOT cut out for leadership. He resigns this position too, before the entire Empire collapses under his poor leadership.

Pip tries it all: Sex, art, religion..... but none of them are to any avail. Totally depressed, and devoid of a structured life, Pippin wanders off into a forest, without any real purpose, or destination. Here, a widow, Catherine, and her son, Theo, find Pippin lying helpless, and subsequently take him in, putting him to work for the mother and child. Inevitably, Pippin finds his way into Catherine's heart, and develops a strong relationship with the child. Pippin and Catherine fall in love, but he does not feel fulfilled. Pippin leaves Catherine. It is at this point an awful twist of fate awaits Pippin. He is placed on judgment by a group of third-party observers. The play culminates to a spectacular climax.

Pippin was conveyed brilliantly by a talented Mark Andrew Scott. Mark's substantial singing experience made the production of this play smoother, easier, faster, and of a very high quality. Jeff Mesina and Lisa Kuch did a spectacular job of fulfilling the cynical, looking-glass roles of the Leading Players. These parts were extremely difficult, but Jeff and Lisa pulled it off extremely successfully. Andrew Camargo surprised not only others, but himself too, with the fact that he could actually carry a tune relatively well. Andrew had his first taste of a musical with the part of Charlemagne. Andrew was extremely lucky to land this part in his first

year, and loved playing it for every second. With a massive belly, and royal robes, the robust Emperor played the belligerent/knowledgeable cretin that ruled one of the world's greatest powers in history with the occasional one-liners that sent the crowd into a fit of laughter.

Jeff Slightham also made his theatrical debut in Pippin. Jeff showed an abundance of charisma and a knack for humor in the hilarious role of Lewis, Pippin's half brother. Lewis plays a chronically egotistical, basic person. He knows the way of the sword, and that is all. He is the antithesis of Pippin (with the exception of their similar narcissism) Jeff had the audience in hysterics with his muscular posing, and his off-the-wall mock-fighting with imaginary Visigoth soldiers.

Fastrada, played by the incredibly talented Lindsay Cadieux, was the catalyst in the betrayal of Pippin to his father. Scheming, cunning, and devious, Fastrada manipulates everyone and their grandmother in order to reach her own end: To have her dear son, Lewis, rule as Emperor. Berthe - was played by Deanna Rose. Deanna was only on stage fourteen minutes, but all in all, she left the greatest impression on the minds of any member of the audience. Her portrayal of Pippin's spunky, mischievous, and down-to-earth grandmother was nothing short of pure genius. She played the part with enthusiasm, unparalleled charisma.

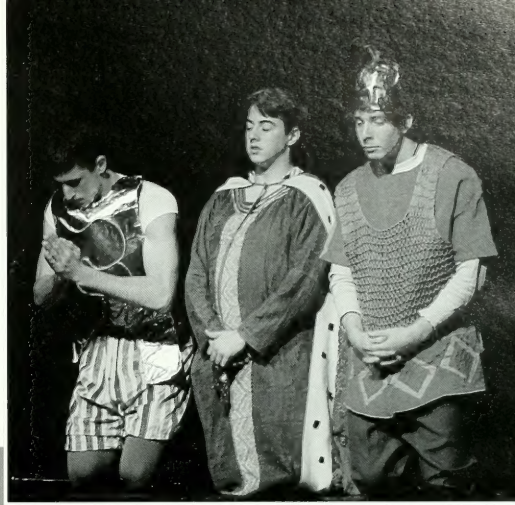

Melissa Heaver and young Julian Treasure played the parts of Catherine, and Theo. Melissa

conveyed the melancholy with a convincing flare. Julian did a very effective job of bringing a hyper, young child to life. And a special mention goes to Otto, the duck. His was nothing short of solid (pun intended).

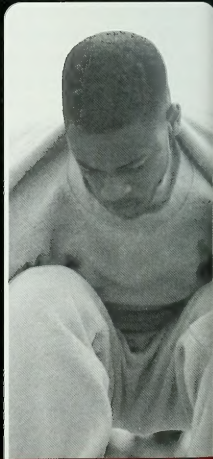

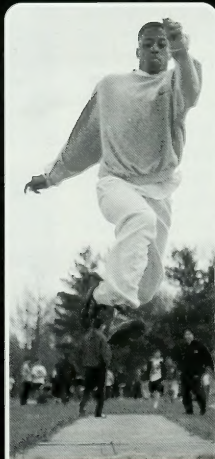

The talented Greg Meuser headed some off the wall humor with his 'interesting' portrayal of a headless soldier, and the head of a soldier. He also flew like a butterfly into his Aladdin-like role as a player. The rest of this very strong ensemble consisted of the men with the moves: Bren Christie, and Victor Richards. The seduction crew was Heather Hall (yo!), Geeta Parmar, Janessa Pileci, and the graceful Alana Newell. Nikki Adelson, Jamie Duncan, and Christopher Crow were solid players, and have their foot in the door for years to come. Mike Farrugia's amazing hair graced us, and kept us going for those long rehearsals. As always, Andrew Hodges and Ben Wood deliver hilarious performances with their atypical charisma. Hodgey and Woody can't help but to steal the show. There is a golden rule in theatre: Any animal on stage will automatically steal the show. This held true with Deanna's puppy. How can any actor compete with a puppy?

A very special thanks goes to John Clements, whose musical talent and direction made Pippin pleasant to listen to, and Lee Clements, who did a brilliant job of shaping the acting that took place between songs. Together, the Clements' are an exceptional team, turning out productions as successful as "Pippin".

SAC 1ST FOOTBALL WAS SILVER IN THE ISAA LEAGUE, BUT NUMBER 1 IN THE MEMORIES OF THE SCHOOL.

What a season and what a team!! This year's football team was one of dedication and hard work.. Every day and every practice, players and coaches gave it all they had to improve and to do their best. We did accomplish some remarkable achievements by being undefeated in regular season play.

Our final record was 4-1, only losing the ISAA Finals late in the fourth quarter in a hard fought match. We were blessed by a number of great players who have been members of our program the for last 3 years.

We would like to thank all the seniors for their effort and determination. They were lead by our team captain Mike Foy and Co-captains Brad Livingstone, Fred Perowne and Richard Couture. To all of you who were present at our homecoming heroic game,

I am sure you recall the fantastic comeback that the team demonstrated being down by 20 at half time. With character and valour, we clawed our way back. With a finish that I will never forget, a beautifully thrown ball by Fred Perowne and a perfectly run pattern and catch by Sean Bruce and with only a few seconds left on the clock.. equalizing the score 20-20, to be completed by a precise point-after kick by John Lowes.

This completed a most exciting game, giving us the victory against TCS for the first time in three years. The Most Improved Player Award: With the type of team we had this year, we had a great number of players that showed improvement throughout the season!!!

We decided to award this trophy to two very deserving members of the First team: Matt Rooke and Gregg Cook.

Our defense dominated the ISAA league this year and had a major role in our success this season. They were lead by two outstanding football players Mike Foy and Richard Couture. Offensively, we feel that we did very well because of the hard work of our offensive line, tough running from our running backs and great leadership from our QB Fred Perowne.

It was very difficult to choose only one person when we had

so many outstanding players on both defense and offense. This years Most valuable player was awarded to Fred Perowne.

The coaches would like to thank all the players for this wonderful season and wish the grading players best of luck in their future endeavors.

U16 FOOTBALL

One of the most gratifying experiences a coach can have is teaching a group of enthusiastic boys a new sport. For my part, I was also learning a sport even though I had played Football for several years. I was amazed at the patience and tenacity with which the boys approached this year in many ways. To begin with, they had to put up with a new system of offensive calls, based primarily on the First team's approach. Then they had to contend with my tampering with these plays to fit our own unique ability. In the end our team gelled like no other team I've witnessed. We asked many difficult and challenging athletic endeavours of the boys and demanded total commitment. They never let us down. Many season highlights stand out; but a few speak for themselves. Austin Porter (6 pts) came to me and ask me to see him run. And run he did: for several key touchdowns. Ian Snider (12 pts) ask to try his hand at quarterback and with Tom Long successfully led our offensive squad to many dazzling shows of running and throwing prowess. Alex Naghi's (21 pts) determination with the ball required two and three tacklers to take him down.

Alain Chicoine's (18 pts) cunning eye snatched several interceptions, including a touchdown. Alex Gawel decided early on in the season that his role was to take down any and everyone in a different coloured jersey. Mike Crispi was asked to play ironman and took the task to heart. Joe Farrugia (24 pts) and Aaron Styling blasted and ran for passes with precision and excellence. Our defensive line was incredible allowing few passersby. We look forward to next year eagerly and wish our graduates success at the First team level while hoping they

never forget their humble beginnings at U16. But the squads would not have gotten to this high level of performance if it hadn't been for the dedicated coaching staff of John Walden and Ron Kinney on Defense and Geoff Smith on the Offensive line. Congratulations on a 3 - 4 season with MVP honours going to Alex Gawel and MIP honours going to Ian Snider and Ian Green.

The Look of

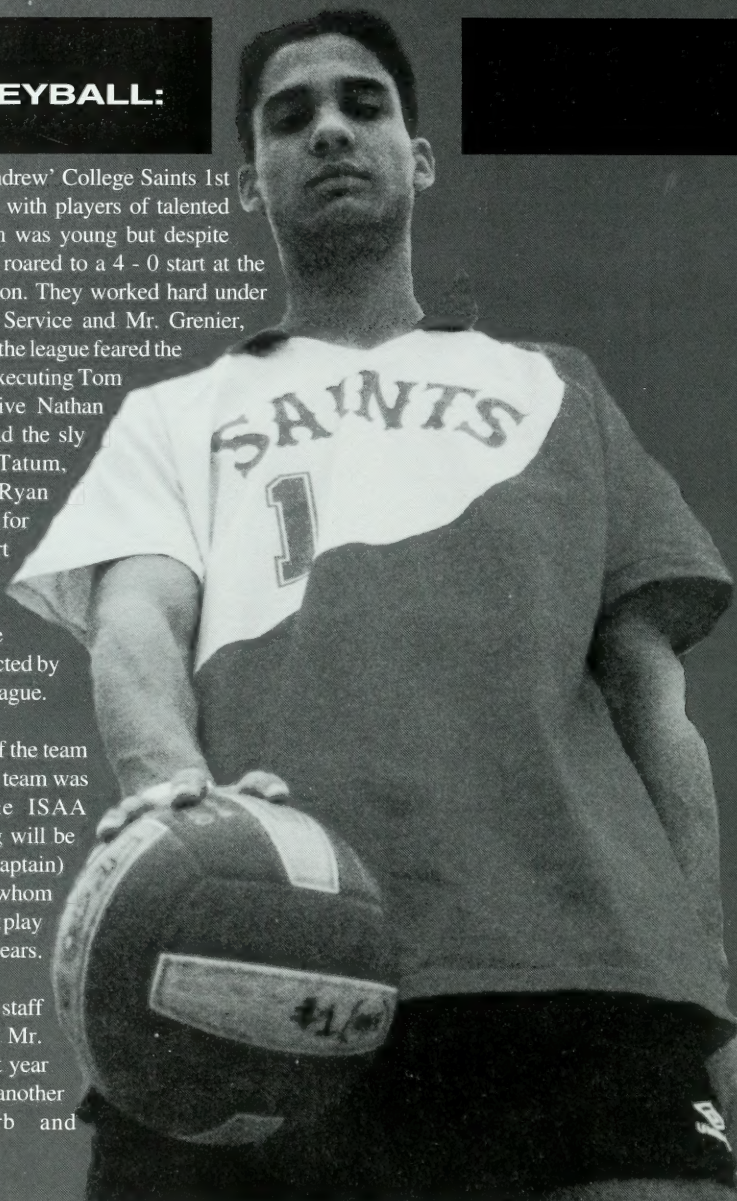

1ST VOLLEYBALL:

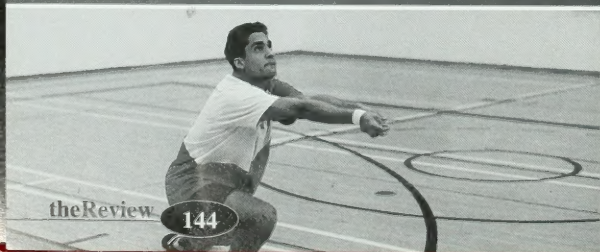

The 1996 Saint Andrew' College Saints 1st Volleyball was filled with players of talented dominance. The team was young but despite that hinderance, they roared to a 4 - 0 start at the beginning of the season. They worked hard under the guidance of Mr. Service and Mr. Grenier, making every team in the league feared the offensive line of the executing Tom Newton, the aggressive Nathan Geddes-Morrison and the sly Ronald Ho. Mike Tatum, Craig Allison and Ryan Evans must be praised for their consistent effort because without them the offence and defence could not have been feared and respected by all the teams in the league.

The inexperience of the team went unnoticed as the team was ranked third in the ISAA standings. Graduating will be Nathan Morrison (Captain) and Mike Tatum, to whom we thank for their great play for two consecutive years.

Under the coaching staff of Mr. Service and Mr. Grenier the team next year will definitely have another memorable, superb and exciting season.

SAC Tier II Volleyball

This year was a brilliant year for the II volleyball team. The entire team played at a competitive level the entire season; the caliber of volleyball rose as the team played with more intensity and pride as the season progressed. The team gained respect for themselves, and by playing teams very closely earned the respect of other schools. Our team was led by the efforts of veteran graduating players - Captain James Lau, and Harry Lyi. Albert Tsai and Ron Cruz provided points with superb spikes and cruise missiles the entire season. Carson Cheung help the team with his vocal encouragement and blocking ability.

Atsushi Takada, Kevin Liu, the Berts and Mike Kerr's precense were felt at crucial moments in the game.

On the court the team showed that the season was successful by reaching the semi-finals of the Tier II league.

The team would like to thank Mr. Dominato for his professionalism, expertise, and positive attitude at all moments of the season. The team has learned a lot from him both on and off the volleyball court.

Best of luck to every player in their future endeavours and thanks for a great season.

Ron Cruz.

Under14Volleyball

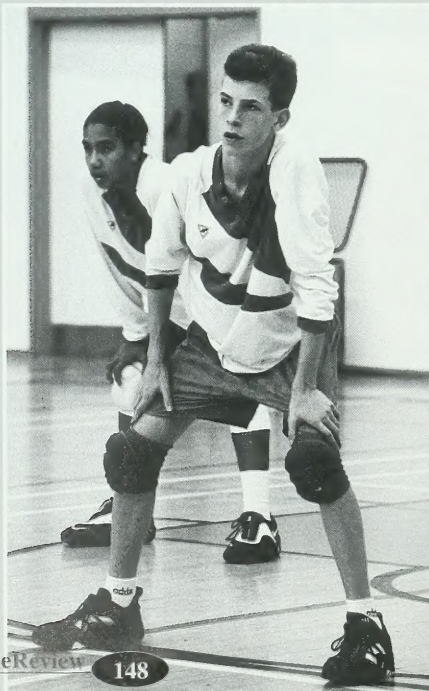

The U14 volleyball program had a slow beginning this year. It was a struggle to get enough guys out to fill a single line. Eventually, however, we ended up with nine dedicated individuals. With only two returning players in Tom Haney and Graydon Stock, we were decidedly lacking in experience. We worked hard as a team at learning to serve and receive serves.

We also spent a good deal of time on positioning and footwork. Results were not immediately evident, but came about gradually and almost unnoticeably. At the CISAA final tournament, we won one match and lost two. But, we played some very close games against teams that were bigger and more experienced.

All of the guys put forth an excellent effort and should be commended for their improvement over the course of the season. We were a much better team by the final tournament than most of us thought possible at the beginning of the year, and therefore our season must be considered a success.

Mr. Service.

"We were a much better team by the final Tournament and therefore our season must be considered a success." Coach Service.

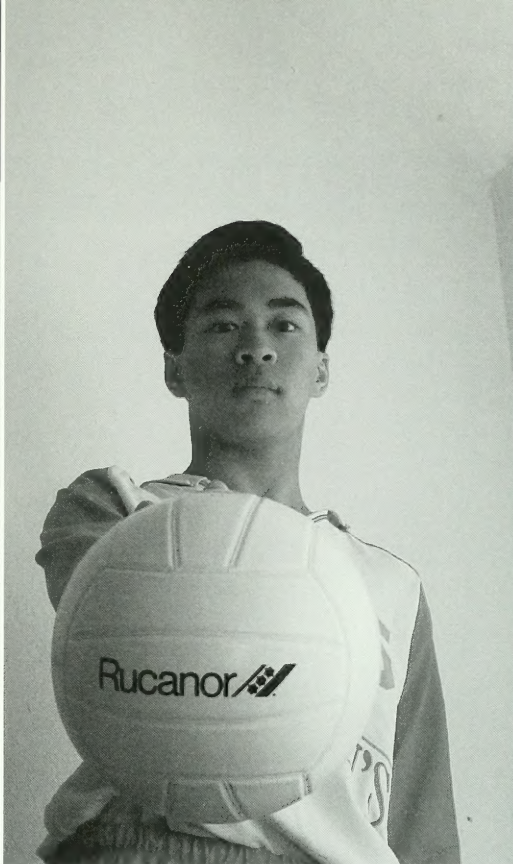

This year's U16 volleyball team was full of energy, fun and determination. The team performed well throughout the season surviving the highs and lows as a unit.

After many hours of hard work, we showed up at the final tournament in third place but in peak condition. We managed to defeat teams easily whom we had struggled to beat or had lost to previously.

In the finals, we surprised the undefeated Hillfield by taking the first game of the match but we couldn't maintain that unbelievable level of play long enough to bring home the trophy.

Congratulations to all the young men on the team and thank-you for making this such a successful and enjoyable season.

UNDERDOGS

SAC TALENT MAKES 1ST SOCCER GET TOUGH

This was a very interesting year for the First Soccer team. Our season record, including tournament games, was 6-5-6. Despite a less than exemplary finish to the season there was a genuine feeling of satisfaction by both the players and I. This was in part because there was very little separating the 8 teams of this league. There were few easy wins and certainly no easy losses - our league losses were from games that we often dominated. The inaccuracy in our shooting at key times, despite hard work to improve it, was our biggest problem. There are six graduating players this year:

Jason Shields had but one objective in mind on the soccer field - to score a goal in this his graduating year - and it didn't come a moment too late for in our final game vs RSG He scored not 1 but three goals!

Bren Christie has some early injuries that prevented him from getting stuck into any one position, but he was always an effective defender and supporter of the team.

We will miss Keith Dadson's speed and timely heading of the ball (he prevented a sure goal in our game against Appleby by heading the ball clear of the net). His game and

confidence seemed to improve as the season progresses. He finished as a starting player. One of the most valuable players this past season, and graduating this year, is Vic Richards. He was a goal keeper's best friend and an attacker's worst nightmare! He was equally competent and threatening as an attacker.

The MVP was the one player you didn't want to play a game without. He was equally competent as a defender, a half, and as a forward. The only position I haven't seen him in is goal!

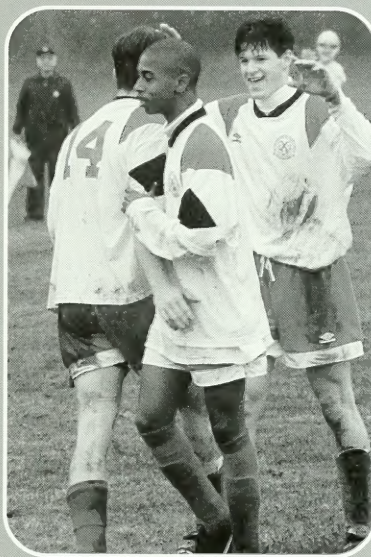

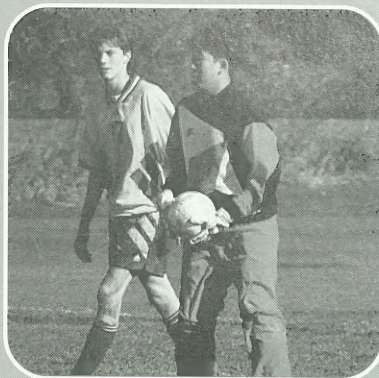

Congratulations to this year's MVP, as chosen by his team mates and coaches, for the second year in a row - Chris Heinig.

The MIP award as chosen by his team mates and coaches was Chester Lo.

Special mention must be made to a graduating player who has in many ways been part MVP and part MIP.

He was certainly missed when ever he was not on the field. He has been an effective and respected captain of the team for the last two years. Our thanks to Simon Williams.

Congratulations to Under 16 Soccer 1996-97 ISAA Champions

We had another tremendous season this year, with many veterans returning from the U15 team. The season had many ups and a few downs with only two losses in games against a strong UCC team. The final tournament seemed to go our way with UCC being disqualified, and only a little competition from other teams. The final game was played against St. John's Kilmarnock, which we won in a 4-0 victory declaring us the ISAA champions. However, UCC had different plans for this ISAA championship. They said that they should have and would have won if they had not been disqualified.

With a little persuasion from Mr. Paul Bedard, we decided to give UCC another chance at the ISAA championship. If UCC won, we would share the trophy, if they lost or tied us, we would be declared sole victors. The game was very stressful with UCC scoring first. But we countered with a corner kick by Eduardo Vargas. The game ended with those two goals making the score 1 - 1. Therefore we once again were declared the ISAA champions. Our captain was Dan Thorne and our assistant captains were Eric Yamada and Matthew Wettlaufer. The MVP was awarded to Eduardo Vargas. Our MIP

winner was Javier Morales. Another special mentions is for Andrew McNabb who helped keep the team alive at defense, Jason Kaptyn and Khaz Kadiri in goal and for Mike Palmer with his lightning fast passes. Nick Abraham and Brian Chishom should also be thanked for their accurate passing abilities and quick reflexes. We would also like to thank Mr. Clements for a great coaching job and sculpting us into the fine players we are today.

Under 14 Soccer Report 1996

This season's Under 14 soccer team featured, as usual, a cast of many new faces. Only 6 members of last year's Under 13 team were on the roster when the selection process was completed after a season opening mini tournament at Appleby College. As with most teams it took a while earn each

others' strengths, weaknesses and names. The six week season allowed us much opportunity to slowly to improve in anticipation of our CISAA tournament on October 26 back at Appleby.

As the month of September moved into October, we were clearly improving and playing a system which allowed us to capitalize on our strengths. We had a strange game against UCC on our Homecoming day where

both teams were left playing on a field that resembled a bog. The 1-1 result was a true measure of the teams' abilities. As the season progressed we were able to compile an overall record of 7 wins, 3 draws and 1 loss. We entered the tournament as the number two seed and met UCC in the semi-finals. After a hard fought game we fell short to UCC, the eventual champion, by one goal.

Our team's MVP for the season was one of our co-captains, John-Ross Lennox who was a pillar of strength on our team and would do anything asked of him. The team's MIP was Alejandro Creel who returned from an injury plagued Under 13 year to exhibit real grit in every game. Special mention should be made of co-captains Antonio Mijares and Nick Weedon whose leadership was important to

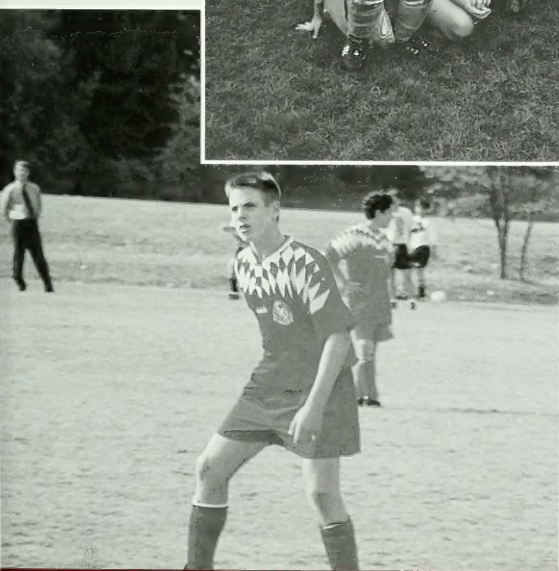

our team's success. Similarly Bryan Dickins supplied outstanding goalkeeping all season long and was a pleasure to watch. Thanks again to all members of the team for your good nature and fun.

Under 13 Soccer 1996

The enthusiasm of this team was considerable. Aided by the able contributions of the self-named "La Collection Mexicano" the members held their own under both trying and fair conditions, winning at over 80% of their appearance. The apex of the season was the National Independent Schools Under 13 Soccer tournament, hosted this year by Ottawa's Ashbury Collge. We played in mud reminiscent of reports of the Great War's Battle of Passiondale and ended being honourably squeezed out in the second period of overtime in the Consolation Final.

The Captain of the side deserves much of the credit for his team's even tempered approach to match play. Pablo Sanders led his troops by example, as a model of both grace and fierce determination.

In addition, magnificent contributions were also made by the nominations for MVP and MIP: Diego Sierra and Tyler Hurst

We enjoyed the chance to work with this collection of promising young Andreans.

This year's cross-country team showed great enthusiasm in a sport that requires not only dedication but perseverance. Coached by Mr. Perrier, Mr. Tsioros and Mr. Wenk the team learned what real training was all about, often being taken out on desertion runs, 10 km away from any signs of civilization. With a strict regiment of endurance and speed workouts the team looked poised to defend its ISAA

Championship from the previous season.

To win the Championship the SAC cross-country team needed to have top three finishes by the midget, junior, and senior teams. Many memorable and exciting races were run, but unfortunately the team met a Crescent team that was much too strong in its Junior division to retain the title. Nevertheless, there were some spectacular performances. Rabnett and Hodges's FAT Runner Song always seemed to rally the troops while B.J. "the white rabbit" Sexton always showed his stuff during the warm-ups of each practice.

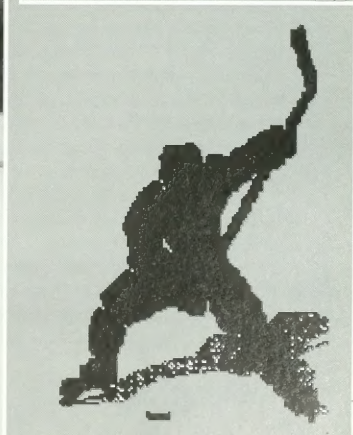

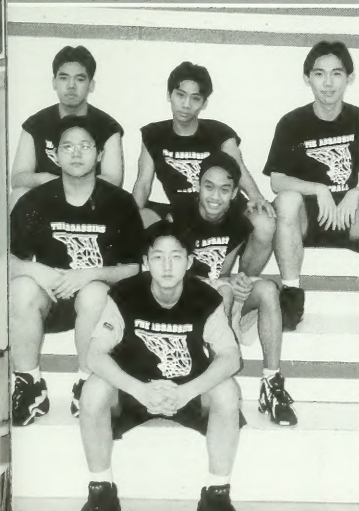

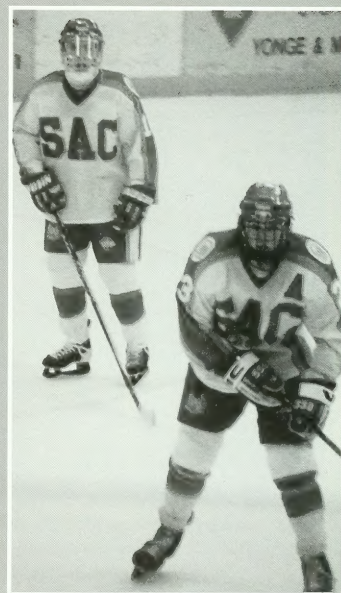

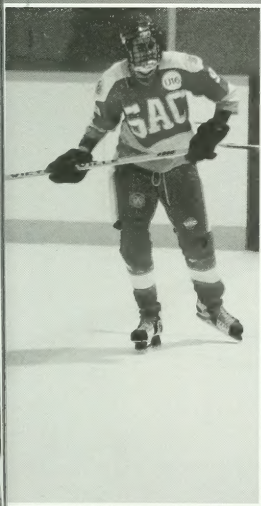

This senior team had a great finish at Trinity, with two of the top five places. The junior team showed their hard work attitude with a respectable finishes. Daniel "ordinary superstar" Wells demonstrated his tremendous talent with numerous top 10 finishes and finished in the top 20 at OFSAA Championship held in Toronto. The midget team looks promising and should follow in the junior and senior teams' success. Overall the team displayed the desire and drive to improve its performances and succeeded.

3-Peat CISAA Champions

Another season, another championship. The 1996-97 Saint Andrew's College Saint's won its third ISAA title to three-peat their way into SAC Basketball history. The team boasted a 27 - 4 record against teams from Ontario, Quebec and even the United States. The Saints were undefeated against ISAA team having a 9 - 0 record in the league and its only losses in York Region League play was against Huron Heights and Vaughan Highschool, metro Toronto Ranked teams.

Each member of the team signed a goal sheet at the beginning of the year. The goals were to go undefeated in the CISAA, win the CISAA Championship for the third year and to reach OFSAA. Two of the goals were reached but in a York Region playoff game against Vaughan highschool the Saints lost in

a tight match in which the Saints played its most competitive game of the year. Competition in the CISAA league and York Region is not intense, only one team in both league had quality players to play against. If the Saints do not play against quality competition during the course of the season it is difficult for the players to make the right decisions on the court when playing against OFSAA caliber competition.

A special thanks goes to Mrs. Perrier for her medical attention and pregame taping of players. Another special thanks goes to Dale Jordan for managing the games and providing water and accessories when necessary.

Coaching his 5 CISAA winning team in the 90's, every year Coach Josselyn seems to have the right amount of talent to win. Assisting Coach Josselyn this year is Coach Service. It is his first year as a coach in SAC's prestigious

basketball program. Coach Service instilled new systems of defense and offense into the 1st Basketball program to boltster the level of play. His 2-2-1 Full Court trap and Michigan Offense's made SAC's defense and offense reach peak levels of performance.

The Most Valuable Player this season, and for the past 3, is Tim Jackson. The MVP is the player you could count on for excellent play on the court, but Tim showed that off the court leadership was invaluable to a team concept. Tim's leadership, both on the court when he plays and off the court in the locker room is unmatched. He has the competitive fire to spark a team before a tournament, his wise words made every player on the team a better player and a better person.

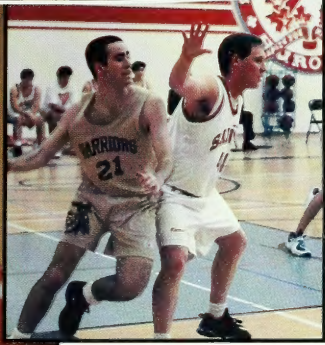

Tom Newton is the most improved player. At the beginning of the year he had trouble

catching the ball in the post as injuries seemed to hinder his performance. But during a one week period in February, Tom averaged over 30 points in 3 consecutive games and was a major factor rebounding and blocking shots. At this point the in the season the Saint's hit their stride winning game after game. Tom's improvement changed the team from a good one to an unstoppable one. No one will forget Tom's thunderous dunks or the in-your-face slam served up to a Sacred Heart (York Region) player where Tom dunked the ball over the Sacred Heart player, was fouled and hit the free throw for a three-point play.

The team, over the course of the season changed drastically. One player left the team while another joined mid-season. Two players improved their games to become starters. With so many moves team chemistry might be questioned, but each player played controlled team basketball: getting strong

SAC BASKETBALL IS ABOUT PRIDE, DEVELOPMENT AND LEADERSHIP

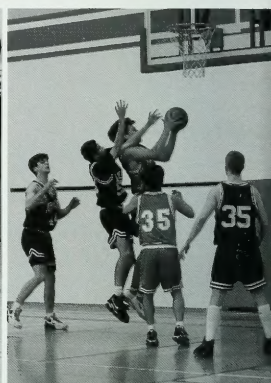

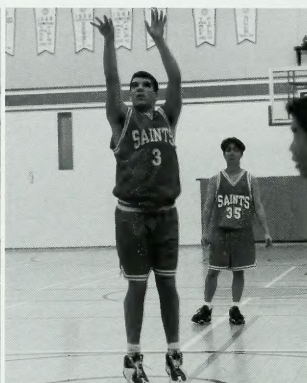

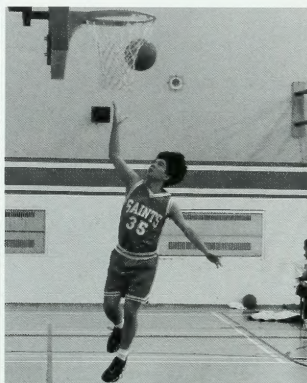

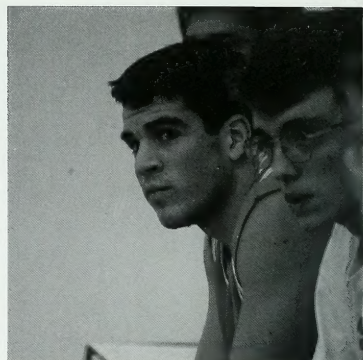

rebounds, taking the ball strong to the hoop and making the extra pass so each player knows where to rebound.

A dynasty is ending for SAC basketball, with 5 graduating players including two starters Chris Donnelly and MVP Tim Jackson and three valuable role players in Carey Chow, Andrew Hodges and Tim Rabnett. Next year the rest of the players Ryan Evans, Tom Newton, Kevin Liu, Anthony Weber, Tim Downard and Tom Bielecki will have to step up their games. However the future looks bright for the SAC basketball program with sparkplug, enthusiastic players coming up from the JV, U17 and U16 programs.

This was the winningest team of the past championship series. SAC basketball has taken a lot of pride in developing players in the younger programs. For me and most of the players on the team, we have been with the program since the Under 16 level. SAC basketball is about pride, development and leadership. That is why we win.

JV Basketball

The New School

At the beginning of this year's II basketball season, the team was optimistic. We hoped to continue the turn around started by last year's team. Seconds had only won 1 regular season game in four years prior to last year. Last year they won 11 games during the season. This year's team still had 6 returning players including last year's scoring leader and leading rebounder. Only 1 member of the starting line up did not return. However certain players lost their basketball focus before the season had begun and even with Mr. Perrier's expert coaching the team continued on a downward spiral throughout the season until the final games.

Players who were not expected to contribute to the team's success did so by entering the starting line up and playing much better than those who

were expected to shine. Adam Newton, this year's MVP, showed the team leadership, voice, and rebounding prowess. He demonstrated that even though the team was not successful on the scoresheet that it could be successful to each individual player in improving their basketball skills.

If the season's success was just measured through the win and loss column then the season would be considered a failure. But that does not account for all the strides the team made throughout the season in individual performance and team performance. In a game against Appleby, the Saints played their hearts out only to lose to the eventual Tier II champions by 2 points. This was a constant situation for the Saints because they were competitive in many of the games but did not have

the skill to get over that hump and win the game.

Mr. Perrier's dedication to the Tier II program and the Saint Andrew's College Saints basketball program must be noted. His continual encouragement to players during practice and games helps players in ways they can't comprehend. The team must thank Elias Zeekah, for his help during the season in getting water bottles and scoring the game.

Second basketball is a very different experience from first. But the seconds is a training ground where players can improve themselves enough to play at the first team level. The program will probably produce a few players who will step up and replace this year's graduating players.

1st Hockey

A silver medal for a gold deserving team.

The goals of the 1st Hockey team are the same year in and year out. Our sights are always set on A - the provincial championship, B - the CISAA Championship, and C - the Macpherson Tournament Championship. However, some years these goals seem a little far-fetched and for the 96-97 Saints, surely this was the case. With only 3 returning defensemen and 2 bona-fide scorers in Fred Perowne and Chris Heinig, this was the classic rebuilding year. Wrong. Breaking all the odds the final tally was:

1 - A York Region Championship (winning 3 difficult playoff series vs. Brother Andre, King City, and Thornlea)

2 - An OFSAA silver medal (losing to UCC in the final)

3 - A 2nd place finish in the CISAA (another dissappointing semifinal loss to TCS)

4 - An overtime loss in the MacPherson Championship (losing 3-2 to St. Charles after tying the game with 6 seconds left on the clock)

How did this happen?

Fred Perowne proved to be an outstanding captain/leader.

Fred & Chris Heinig maintained a goal a game

The young kids - Hirmer, MacPherson, Near, Parent, Weedon, Yoshida - proved to be competitive and intelligent.

John Lowes changed positions and played defense like a veteran.

Jason Perrier literally came off the bench and assumed a full time role after a game playing opposite another team's best player.

Craig Brown and Doug MacIver were two of the best defencemen in both the ISAA and York Region leagues.

Mike Tatum caught fire after X-mas and no one could put the fire out.

Matt Rook became the best checking forward in either league.

Andrew Malloy was a capable backup.

Jamie Taylor and Mark Gooderham (along with Yoshy) were regularly a plus line.

One of the greatest seasons ever. Well done guys!

- A.D. & D.G.

Many thanks to Harry Lyi - a great manager, Mr. Dawson, and Mrs. Perrier for all your hard work.

...Breaking all the odds!

Tier II Hockey

This year's team consisted of a lot of talent at the 2nd hockey level. Our team went unbeaten in the first six games of the year. The only team to give us a run for our money was the U.C.C. Blues, which beat us in the I.S.A.A. final at U.C.C. This team had no problems with opponents such as Rosseau Lake, LCS, and TCS.

With a few graduates leaving this year, we were led by captain Chris Gooderham with solid defence. Rough Richard Couture was the enforcer who had everyone's back.

Our MVP in Graeme Martin along with assistant captains Matt Fischer and Charlie McLean, were an offensive threat to opposing teams.

Thanks for the cheerleading from Johnny O, (and the fan support). To Mr. Grenier, who led our team as a single handed coach in every practice and game, thank you. Good luck to all returning players and players moving up. Keep 2nds alive!

The BOMB SQUAD

THE '96-97 CROSS COUNTRY SKIERS ROCKED THE LEAGUE.

The Cross-country skiing team has enjoyed excellent success in the past few years and this year was not an exception. This year our skiers captured the CISAA championships for the third year in a row as well as winning the YRSSAA division to advance to OFSAA in North Bay.

Our success can be attributed to our devoted skiers, coach Mr. Gaertner and assistant coach Mr. Jamieson. Our winning season did not

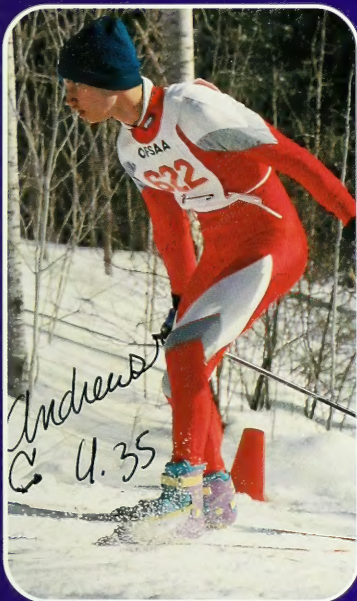

come easily; many practices both before and during the season were needed to get our skiers into shape. Dynamite Dan Wells, the MVP had an excellent first senior season finishing first at CISAA and a remarkable 8th at OFSAA. Salvador Lopez adapted to his first time on skies very well and became our 3/4 skier on the team as well as winning the MIP. A good team competitiveness added extra incentive for our skiers to do well in their races. This year all

levels of skiers gave their best on competition days which allowed us to have a successful season.

The fondest memories I have of the Cross Country Skiing are of our out trips to Haliburton, North Bay and Sir Sam's. On the trips, just about everything from parking lot doughnuts to using an out house in negative ten degree weather took place. We had some good times staring out Bennies and Dan's window in North Bay. We would like to thank Mr. Gaertner for devoting many hours into spending weekends with the team.

The times at Hardwood

Hills were great with; John 'Crazy' Haney hitting the jump, Ben Wood the iron man skiing 30 km on Wednesdays, Bernard eating more than he skied, which worked for him. Mark Newton set a record on broken poles over his three years on the team. Messina looks to be a promising skier for next year. Colin Russel was plagued by injury but still did his best to catch Dan. David Revington, the most senior member of the team, with 5 years of cross-country skiing under his belt underwent surgery for his knee and was slowed down by it all year; everybody on the team was amazed as to how Rev could defy cigarette tar

Alpine Skiing team

WON the **CISAA TITLE.**

Alpine Skiing, led by captain Greg Berdette, captured the first championship for Alpine Skiing in St. Andrew's history. This was accomplished by placing three and sometimes four of our five racers in the top five, securing victories the whole season. Sensation Peter Dyson, FIS racer, took the league by storm, winning his first race and placing in the top three for the remainder. Will Mercer and Steve Amell secured our winning hold on the league by finishing close behind Peter in the top five. Brook Dyson and Greg Berdette rounded out the team, pushing other schools further back in the standings.

The team will remain much the same next year as Greg is the only member leaving. A strong Alex Addison, coming off a promising season, will boost SAC to another CISAA Championship.

TERM 2 SPORTS IN REVIEW

Ending the Drought: 1st Swimming - ISAA Champions

SAC'S FIRST SWIMMING TEAM WON THEIR 1ST CHAMPIONSHIP OF THE 90'S WITH A DECISIVE VICTORY OVER THE CISAA LEAGUE.

This year for the first time since 1986, SAC First Swimming won the CISAA Championships and although we had lost swimmers due to graduation the team spirit was as strong as ever. This year's team captained by Michael Graaf battled their way through the four qualifiers with amazing results, and it became clear to the team, that once again, our major rival and competi-

tion would be UCC. To our great surprise the team from Ridley College put up a tremendous battle in the CISAA final and they were the real worry to us in the last minutes of the meet. This season, though, was to end very differently from the last ten, with us finally recapturing the CISAA title we had last won in 1986.

Two very special swimmers need to be recognized, Daniel Wells, this year's MVP whose contribution to the team was limitless and our MIP, Ian McGuigan, who improved to move up from the Second Team. Ian improved so terrifically this year that he bettered his stand-

ing from the last qualifier to the finals by a full 17 seconds! Special thanks go to Mr. Walden and Mr. Smith whose coaching expertise put us in contention against our rivals

for the title. Thanks to everybody for a year to remember and here's looking at next year for another fantastic season.

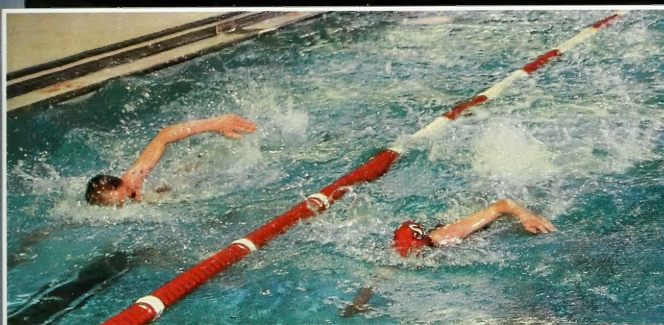

Michael Graaf

Under 16 Swimming

A great showing for the Under 16 Swim Team. The future looks bright.

This year's Under 16 team was one of many talents and of many future prospects. Battling their way through thick and thin this team had hopes of repeating, or hopefully bettering their performance from last year. However, in the final meet, it was once again UCC who took first, and despite the great effort put forward by all team members, this year's squad placed third. A special mention goes out to Mrs. Shields who brought her knowledge and swimming experience to the team for the second year and without whom the junior members of the team could not have functioned. Also, Mr. Smith should be mentioned for his ability to coach a swim team and read the newspaper at the same time. Without Mr. Smith's coaching expertise, this team would never have come as far as it did in the last few years. Finally, we have to mention the MVP, Jorge Camil, for his endless commitment to the team and the MIP, Michael Charlebois, for the great effort that he put in throughout the year to improve as much as he did. Congratulations on a successful season and next year is looking even more hopeful.

Because of their quickness and basketball fundamentals Under 16 Basketball made it to the Championships for a second year

welcometothe
PLAY Ground

Training camp began last November with 35 players vying for the 14 spots available on the U16 squad. It was challenging and difficult to choose the team, but after some difficult decisions the roster was set. I was pleased with our early season play, and right from the beginning a team mentality developed that allowed us to be at the top of the league all year. Our very impressive 15-4 record during the season made us the second seed in the final tournament. Our losses were all by fairly slender margins; an early 12 point loss to Crescent followed by a 2 point loss to Appleby, a 3 point loss to Crescent, and a 3 point loss to UCC. In the opening game on the final weekend we played to a steady 10 point victory over Royal St. George's, putting us in the semi-final against our old rivals Hillfield. We had beaten them in OT just two weeks earlier, and on this day played to a 4 point victory. In the final game against the first seed Crescent, we led by 5 going into the final quarter. A couple of quick turnovers put us behind

and we could not make up the deficit; we lost in the final 44-40.

The Most Improved Player on this team was a split between two hard working players, J. Lo and I. Kadiri. The Most Valuable Player for the U16 team is the player who played every position from centre to point guard, and who led the team in scoring, B. Hraacs. Honourable mention for MVP goes to point guard N. Abraham.

I was very proud of this team all season long. We were sportsmen in every game of the year, taking victories in stride and accepting losses as challenges to overcome; it has been an honour to coach this very responsible group of young men.

Never Give Up

With a 9 - 11 record the Saints proved they were a team to be recond with.

Under15Basketball

The U15 basketball team had a record of 9 - 11. The players demonstrated a great deal of spirit and desire throughout the season. They were enthusiastic and dedicated to improving their basketball skills and worked together as a team. Their "never give up" attitude earned them positive attention from other coaches. The players on this team have a great deal of talent and hopefully, they will have great basketball careers at St. Andrew's. Special thanks goes to statistician Sammy Kitafufe and to manager Rob Vrscay for their excellent work during the season.

This term, I had the privilege of being captain of an outstanding U14 basketball team. This was truly a genuinely successful team, both on and off the court. As we became more familiar with each other we improved from a solid unit to a seemingly unbeatable squad. The triumph of our season was well shown in our record of 17 wins and 3 losses. However, we also displayed perseverance and strength during the season overcoming a few injuries and some half-time deficits to accumulate many impressive wins by large margins.

As we entered our playoffs in second place in the league, we gained confidence. We continued to play astonishingly in the ISAA tournament, beating Pickering College. The next game was a great test for us, we faced a talented Crescent team to whom we had lost to once during the regular season. It was one of our closest games of the year and in the last remaining seconds we pulled-out what might have been our biggest victory of the year. We put forth a very valiant effort in the championship game but lost to UCC in a high octane match.

Everyone should be congratulated on a phenomenal season. A special thanks to Mr. Somerville, for his patience and continual support which encouraged our team to excel to a premium level of play.

Josh Kelson

Under13Basketball

Under 13 Bball featured players who were new to the game. They learned and grew with Coach Hanson during the entire season.

What a season, many wins, too many losses. The team consisted of only one returning veteran. Because of our lack of basketball knowledge we lost many games. As the season progressed our team learned the fundamentals of basketball and won a total of 8 games.

This year's MVP was Derek Choi and Diego Sierra. Both Diego and Derek were capable of scoring in down low and helped rebound. The MIP was Brian Lin.

Thanks to Mr. Hanson for coaching us and to Mrs. Lorrman for cheering us on. Best of luck to all the players in their SAC basketball careers.

The Saints Under 16 Hockey team dominated the ISAA league and captured the Championship.

U16 Hockey

The Junior Terminators

The Under 16 Hockey team had what can only be described as an outstanding season. By any measure this team performed beyond all expectations and above all, they did it as a "team".

The goal of the Under 16 programme is to develop players who will eventually play for 1st Hockey and reduce the adjustment time needed to be a contributing player at that level to that end Under 16 Played in two leagues and while York region is an under 17 league, our success there cannot be measured in the win/loss column. Losing to the eventual league champions, King City, in the quarter-finals 4-5 in overtime, without our biggest and toughest player, Ian Sinclair, demonstrated just how far we had come the experience developed in this league set us up for the success we had in ISAA competition.

And successful we were. The team was undefeated throughout league play and the championship tournament, while amassing 16 wins and 1 tie in 17 games, and putting 114 pucks behind opposition goalies and only allowing 17 against. The end of year tournament is where we played our best hockey. We scored 34 goals in beating UCC, LCS, Ridley, Lakefield and in the final, Crescent, while only allowing 2 goals against. Coach Dunford would be proud! In the championship game our play was to wear down their best player (and arguably the best

..an outstanding season!

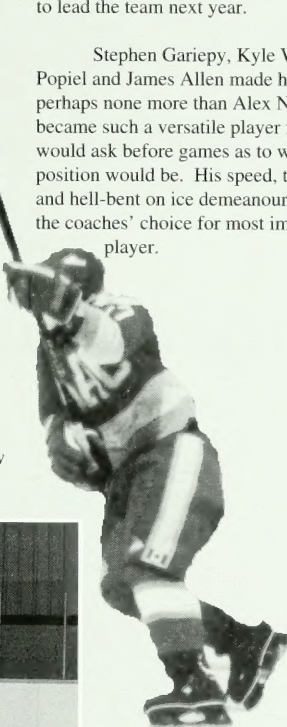

player in the league) with constant checking by Captain Rick Pollard and Ian Sinclair. Midway through the second period, with a 4-0 lead and this player throwing up behind his bench with fatigue, we knew the championship was ours.

Lead by Rick Pollard, a three year veteran, and assistant captains Jamie Files and Brian Chishom, this team never lacked for leadership. These and other veteran players like Alaine Chicoine, Jason Kaptyn, Tom Long and Scott Murdock grew as players and in most cases are ready for the jump to 1st Hockey.

Our Goaltending has never been stronger with two excellent young goalies in Graeme Brown and Ian Snider. Graeme who sparkled at the end of year tournament and Ian Snider who will forget his performance against King City, were outstanding throughout the year and suggest that the senior goaltending needs will be satisfied for a few more years.

Rookies like Ian Sinclair (Who didn't play hockey last year to experiment with that other winter sport - BBall), Robbie Carter, Paul Perrier, Mike Craig and Ross Marshall became impact players and if they don't make the jump to 1st, will be expected to lead the team next year.

Stephen Gariepy, Kyle Walsh, Jack Popiel and James Allen made huge gains but perhaps none more than Alex Naghi. Alex became such a versatile player for us that he would ask before games as to what his position would be. His speed, toughness and hell-bent on ice demeanour made him the coaches' choice for most improved player.

U14 Hockey **QUICKHARDandINTENSE**

After two seasons without an experienced goalie, this year's U14 team had five good goalies trying out. One of the highlights of the season was Tyler Hurst's first game in net vs UCC "A", where they out shot us at least 40 - 15 and yet he stopped all but one shot to earn a 1-1 tie. It was obvious at this time that we were not the powerhouse team of the past two years. We had some very good players, especially defensively, but our weakness was a lack of two strong forward lines. After Christmas our prospects improved with the addition of Peter Bachetti and Luk Zoratto. Peter's first game with us was against Nichols and he scored three times on slap shots just inside the blue line. Luk's soft hands, speed, toughness, and great play making ability now gave us two competitive lines. Still, we only managed to finish the season with a 500 win record, with 11 wins, 11 losses and 1 tie.

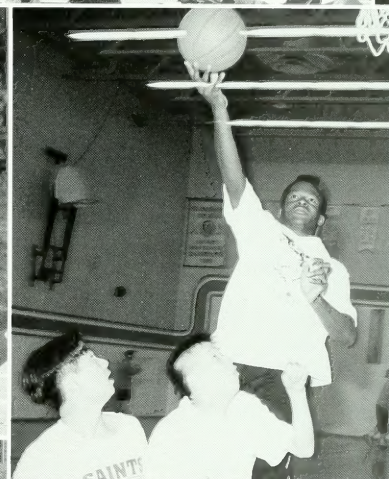

We were ranked a generous 4th in the

final CISAA tournament behind UCC "A", Holy Trinity and Appleby, and just ahead of Crescent, Nichols, Royal St. Georges and UCC "B". We drew Crescent in our first game and lost 5-3 after being ahead 2-0 in the first, and 3-2 in the second. They tied it up in the third and went ahead 4-3 in the final minutes and then added an empty net goal. This defeat placed us on the consolation side of the draw where we defeated UCC "B" 10-0 to go onto the consolation final. There we met Nichols School whom we lost to 7-5 in our only season game against them. We had to defeat Nichols or we were going to go home very disappointed.

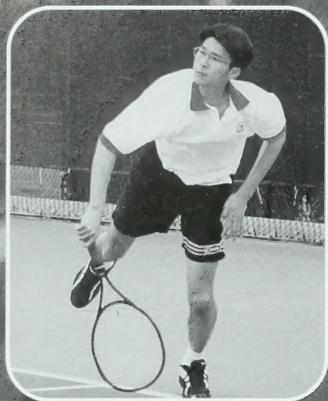

Andrew Gosbee got the start in net and played his best game of the season. Graydon Stock "C", our best two way player and eventual team MVP, broke his wrist early in the game, and then Peter Bachetti, our power forward and most consistent scorer, was thrown out of the game for a hit from behind. With the loss of two key players, Nick Weedon "A", our most versatile player, was moved from defense back up to centre. This left only three defenseman for the last half of the game. To be able to win the game we needed smart, aggres-

sive, and consistent play from our three dominant veteran defensemen. This we got from Ian Green "A", Greg Heward and John-Ross Lennox. Their hard quick shots from the point, aggressive checking of opponents on the rush, dominance of forwards in front of the net, and short shifts enabled the three to play well for the remainder of the game. So after one of our best defensive games of the season, we defeated Nichols by a score of 4-3. Though we had hoped to fair better in the tournament, it is always a pleasure to play well.

It is safe to say that the first tennis team is perpetually rebuilding with many foreign players at the top of the roster only staying for one year. With only one returning member from last year, we managed to build a respectable team which only lost once in regular season play. Due to some unfortunate flip-of-the-coin seedings we left the final tournament earlier than expected but not without first forging out some personal bests in terms of performance and wins. Many thanks to all the members of the team for their enthusiasm, dedication, and good humour. Looking forward to next year with, count 'em, two returning players!

2nd tennis

It was a short but productive season. In the beginning, we had a bunch of fun and exciting tennis players. By the end, they had improved their tennis skills and posed as a competitive threat to other teams in the ISAA. Coached by the talented and experienced Mr. R. Bedard, we played our hearts out under his leadership and guidance. He was a real figure in SAC tennis. The ISAA tournament hosted by SAC had to deal with cold temperatures and windy conditions. We advanced to the semi-finals and played some

competitive tennis against RSG. There were two tie breakers which ultimately decided our fate. Gerald Li and Ramirez narrowly came back to win their match but Gene Chiba and Matt Ward let their tie breaker slip away after Gene had fought off a few match points by making some clutch winners. There were some great matches along the season - it was an exciting season.

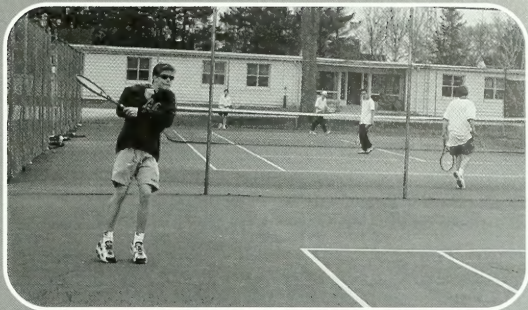

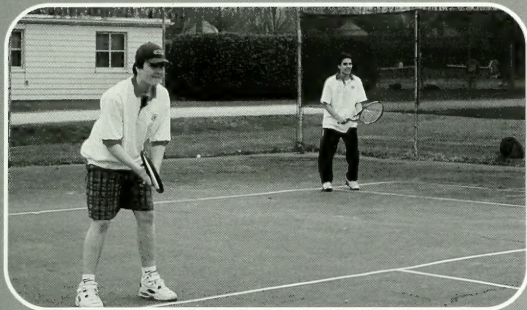

U15 Tennis

The St. Andrew's College under 15 tennis team had quite an interesting season. We hadn't ranked the players so it was a bit of experimenting of who would play what position all season. Our 1st singles/doubles and 2nd singles/doubles changed just about every match. The first match was played against Hillfield Strathalan College. We came out with about a fifty-fifty result, not bad for our first match. We had a combination of coaches, at

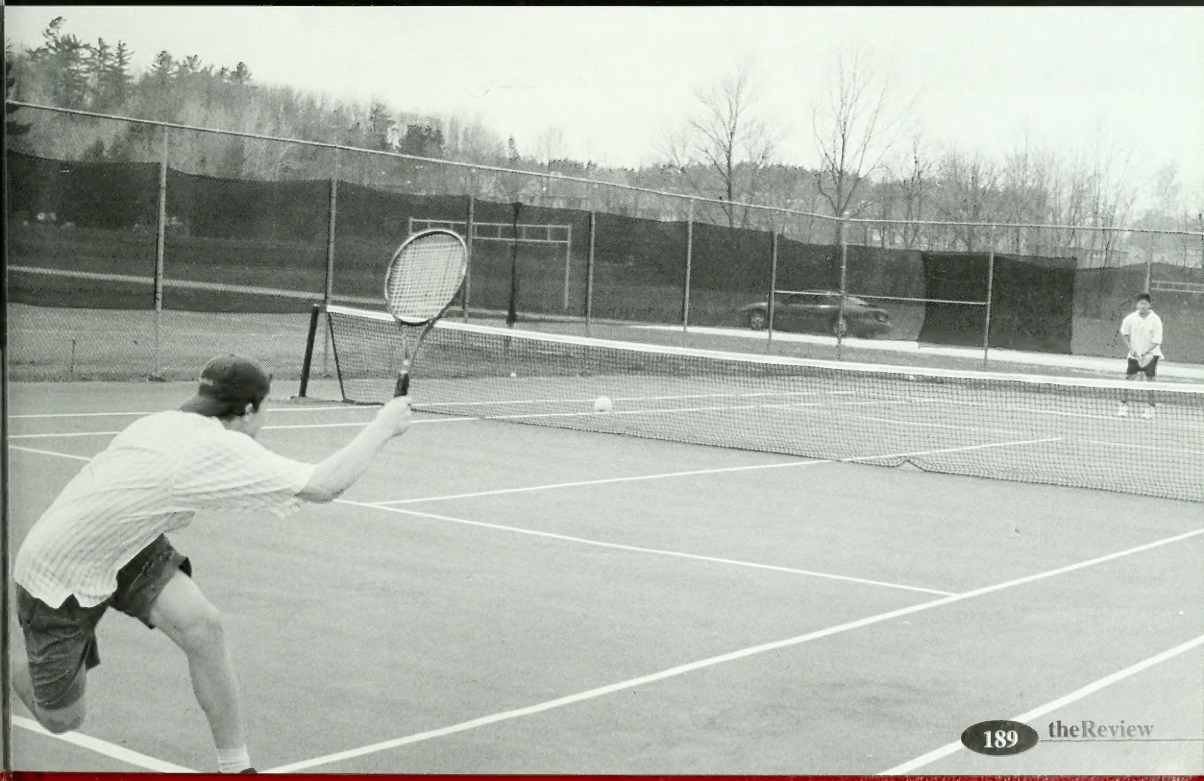

the beginning of the season Ms. Kravchenko along with Mr. R. Bedard organized practices and then for awhile Mr. R. Bedard alone. Before the final tournament at the Mayfair West Tennis Club hosted by a school which name will be unmentioned, Mr. P. Bedard gave us some great tips and some hard drills. The people who didn't turn up for the "high before" practice which included some of the top players, weren't able to go to the tournament because at that

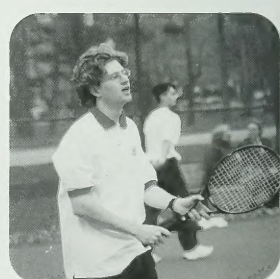

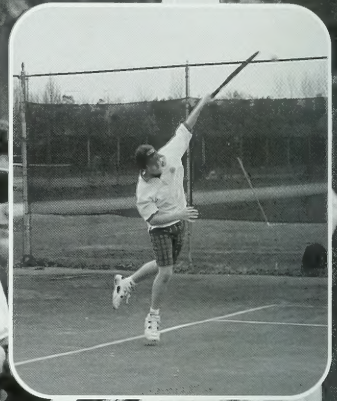

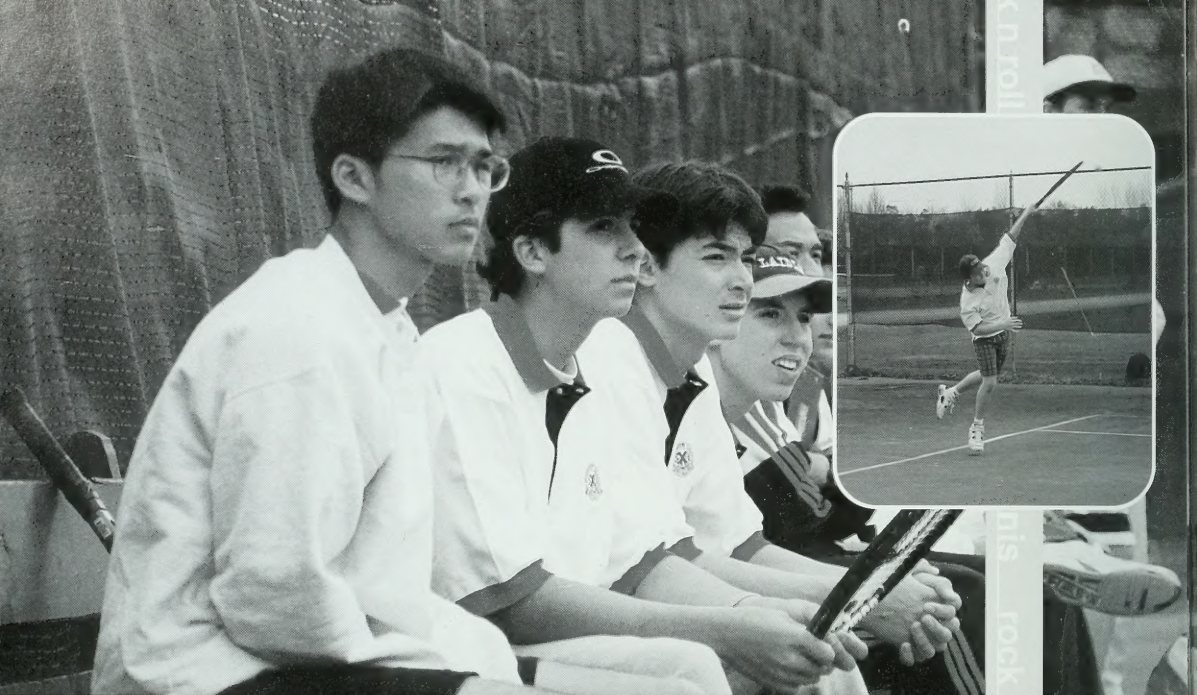

practice we were supposed to find out the time of the tournament. We had a very good day and everyone improved their game quite a bit and unfortunately we just missed the final. Surely these players will be ready to move on to other and more demanding teams next year.

S.A.C. LACROSSE

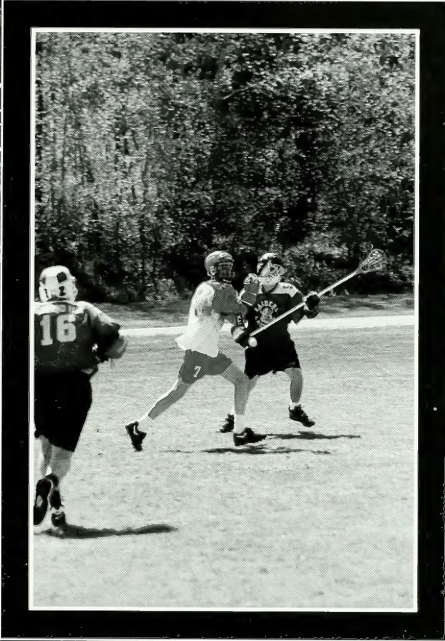

Coming of Age

The lacrosse team set high goals this season because it was the coming of age of the lacrosse program. We had the talent, the depth and the desire to compete with any team in ISAA and York Region. We felt it very realistic to win ISAA and have a berth in OFSAA. We looked forward to a heavy schedule in May playing on average 4 games a week. Unfortunately, this was not to be. All too often we found ourselves waiting around the lacrosse field either for the referees or the other team and then returning home without a game. As a result the team became unfocused.

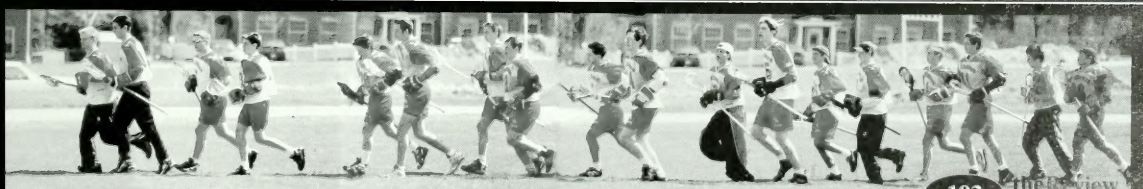

After an amazing outburst at the beginning of the season, beating teams by an average of seven goals in our first three games, we were unable to attain our goals. We finished third in ISAA behind Ridley and UCC and third in York Region behind Richmond Hill and Huron Heights.

The team would like to thank and wish good luck next year to graduating players Fred Perowne, our MVP, Graeme Martin, our co-captain, Jeff Marshall, for his offensive skills, Mike Tatum, for his willingness to take on anyone on the opposing team, and Matt Fischer, for his lightning-fast cradling and his face-offs.

We would also like to thank our coaches Mr. Cowell and Mr. Robson for their efforts in finally making the lacrosse team a contender.

In the longest rugby season in St. Andrew's history, our record stands at 16 wins and 2 defeats. We had 11 returning players from last year's Championship team, and may very capable athletes joining them. So when people asked me earlier this year what our chances were, I replied "We have no excuses". John MacMillan and I set out to challenge these players to higher standards, and by entering York Region, the route to OFSAA was clear. In total, 28 players represented the 1st XV at one time or another.

We had a combination of forward power and experience (Richard Couture, Brad Livingstone, Mark Newotn, Mike Foy, Tim Jackson and Glen Cowan), excellent defence (Dan Herce, Mike Farrugia and Will Diep were strong running centres with dependable defence) and speed and finishing ability on the wings (Matt Rook and Chris Heinig). Our intention of using Simon Williams as a primary attacking player at full back was unfortunately lost to injury early on - but he was with us all the way. Jeff Slightham was able to fill his place with confidence. Adam Newton, Will Mercer, Brad Ferris and Dan Ginou all had regular starting positions, and the stength of the ben - Tom Lariviere, John Lowes, Justin Scott, Chris Fusco and Greg Meuser - was invaluable.

After three exhibition games and a tournament in Quebec, we were ready to compete in the two leagues. We sailed through the York Region games until we met Father Bressani, and earned the win there without 5 starters. In the Independent School games, Ridley was our best,, and the only big disappointment was - yes - TCS. Oh, to have that one back.

After a York Region season with 188 points scored and only 8 conceded, we played our best to win playoff games 34 - 9 and 17 - 3. We were peaking at the right time, and were able to enter OFSAA

1st XV Rugby

with confidence. Seeded third, we had an early scare against Cedabrae (3 - 0), but we played much better second day to convincingly beat Oakville - Trafalgar, 22-6 and Lawrence Park, 17-3. The final was expected to be against perennial favourites, Barrie Central, but they were defeated in the semis by fourth ranked Dunbarton.

The final was much tougher. Dunbarton had done their homework on us and we defended an early lead to win 7 - 3, deservedly so according to most neutral observers. We had scored 45 points in 4 game, only 14 (one try and

three penalties) against.

John and I would like to thank all those graduating players who have contributed and gained much from the game here at St. Andrew's. In spite of all the scoring, defence and an unwillingness to give excuses were keys to our success. The same will be true with a new team next year. We can hardly wait.....

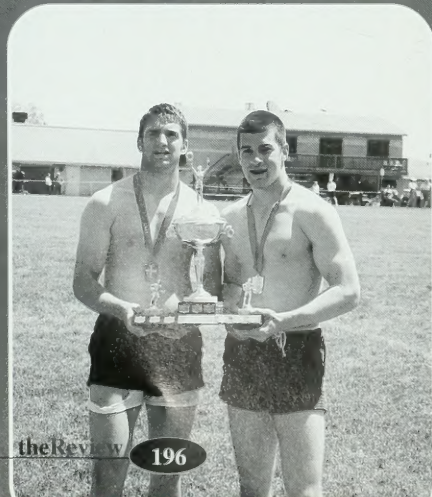

This year's veteran team had relatively few new faces, but Will Mercer and Matt Rook were two very competitive players who put their mark on the team. Matt was a threat every time he touched the ball, and he earned the MIP award.

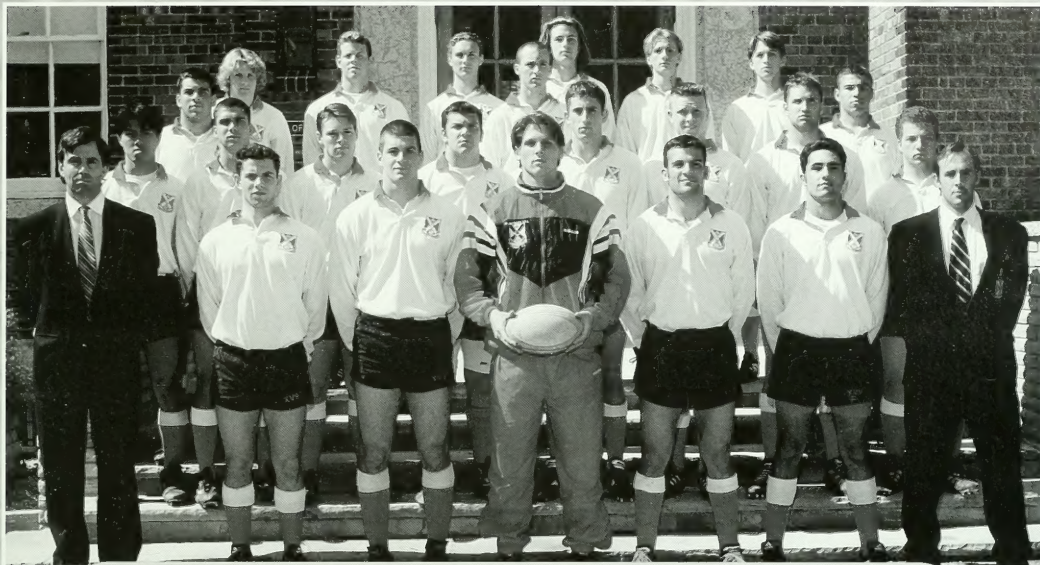

The MVP award is given in honour of Courtney Stoaite, the man who started rugby at SAC in the early '60s. The ward goes to Tim Jackson, a three year player on the team who, in representing Ontario and Canada on the Under 19 teams, has gone as far as is possible for a player at his age. In spite of this, his ambitions were for his team closer to home here, and he took enormous pride and joy in winning OFSAA.

The under-16 rugby team had quite a good season this year. The team was composed of a mixture of veterans and beginners but lacked the numbers to make the year a truly successful one. The talent and dedication of the u16 team showed in that many of our wins were blowouts, while all of our losses were within a few points.

The members of both the u15 and u16 (and even one Australian u14) that practised together on a daily basis, worked, ran and even swam hard in an effort to improve their quality of play while all the time retaining their sense of humour which made practise fun. Many thanks to all of our players for making it such a successful year, especially those players from the u15's who played up and were such a big part of the team. Everyone conducted themselves with a sense of class and style that they should be proud of.

"With powerful rucking and mauling, strong running and enthusiasm, the team went on to achieve a undefeated season."

Under 13/14 Rugby

With many boys returning from the previous year, and the arrival of some very capable new athletes, this season promised to be most successful. We weren't to be disappointed.

After a few weeks of intense training and a lot of running, we met UCC in the wind and snow. The technical calibre of this game, which we won by a try, was to set the scene for a string of victories. Convincing wins over HTS, CDS, and Appleby were some of the highlights of the season, especially since our opposition was often much larger than us.

With powerful rucking and mauling, strong running and enthusiasm, the team went on to achieve an undefeated season.

My thanks to all the boys for their hard work: good luck to those moving up to under 15, and special thanks to Mr. George Steeves, who once again lent his time and expertise, and helped mold the boys into a very successful team.

MVP Greg Heward
MIP Richard Khoury.

Senior Badminton

The 97 Senior Badminton team came together with last year's distinguished veterans Sammy Lam, Alan Wong, Andrew Hodges, Daniel Lim and Vincent Kwok, Ricky Luk, Royce Lo and Herbert Leung came up from under 16, and new time players Chester Lo and Hugh Siddeley joined in to form the best group of badminton players the school has ever seen. Our first tournament for York Region came quickly with little time for preparation. It resulted in Sammy Lam and Ricky Luk going to the OFFSA as 1st and 2nd singles in York Region. Sammy Lam won OFFSA and proved to everyone that Sammy truly is the "God of Badminton!" Throughout the rest of the season all players improved their skills and teamwork qualities under the dedicated coaching of Mr. Dominato. Coming out of the CISAA Tournament we ended up third out of six teams. Our MVP was Sammy Lam, and MIP went to Hugh Siddeley.

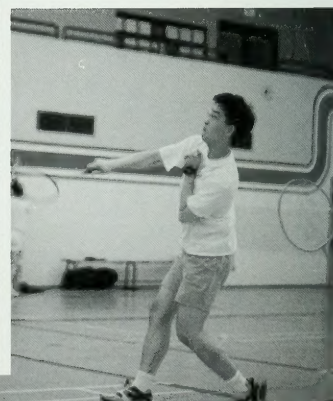

Thank-you to our graduating players Alan Wong, Hugh Siddeley, Andrew Hodges and Vincent Kwok. Many thanks to Coach Dominato for his devoted attention to each player. Best of luck to all the badminton teams next year.

While the ISAA badminton St. Andrew's College has a strong badminton program with promising future. There is no doubt that the school has a badminton championship banner in the big gym.

U14 Badminton

The U14 badminton team had a great season.

All players were committed to improving their level of fitness and developing their skills.

They won 6 out of 7 meets, losing only to Crescent, and were confident of a strong finish in the final tournament - but it was not to be. Stirling Hall School claimed first place and Sac finished in 4th position. Individually, however, John Patton and Roger Chau won a medal as the top doubles team in the tournament.

The team would like to offer special thanks to Mr. Scrase and Mr. Grenier for their assistance in practice.

This year's MVP, as chosen by their teammates was Peter Mang.
The MIP award goes to John Patton.

U16 Badminton

The season started with many questions after last year's very successful campaign. What was known was that we had our work cut out for us if we were going to succeed. Throughout the season changes in position were made to find the best possible "chemistry" for success.

In the end some changes worked, others did not. At the end of the year tournament at Humber college, the team played well with some outstanding individual results. No.1 single Dan Thorne finished a very respectful 4th in a very tough division, while the doubles teams of William Cheng and Grahame Brown and Louis Leong and Robin Lo, played their best Badminton of the year. Paul Perrier who played doubles for much of the year won the consolation final as the third single and shows signs of becoming a top level player.

The surprise of the tournament and the season was the play of Asad Haque who finished off an undefeated season with a CISAA championship as 2nd single.

The school finished third at the tournament which is where we expected to be.

Thanks guys for an excellent season. SK.

Track & Field

The Track and Field program this year experienced many ups and downs. Lately there has been a deficiency in the number of young and up coming athletes to replace the experienced and departing veterans. As a result, our Junior and Senior programs have been excellent while our Midgets have been greatly lacking in numbers. We were happy to see an increased interest this year in the U14 division with the addition of five new members ably led by MVP Pablo Sanders and MIP Paco Ortiz.

This year's theme to senior track in lieu of last year's defeat at the ISAA championships was "Back with a VENGEANCE". At the Independent School Track and Field meet, both Victor Richards and Keith Dadson broke the existing ISAA Senior records in both the triple jump and the 200m respectively. Overall the team walked away with champions in the relay, 200m, 100m Hurdles, Steeplechase, and Triple Jump in various age groups. Through all this the team was unable to capture ISAA gold once more. Although the team was somewhat disappointed with these results, it was able to step up its intensity when it came to the York Region championships sending 9 athletes to the Central Region championships participating in 7 different events. Again the team put forth a tremendous effort and was able to send 5 athletes to the Ontario championships: Dan Wells for the Open Boys Steeplechase and Keith Dadson, Victor Richards, Nathan Gettes-Morrison, and Tomiwa Adamson for the 4X100 Senior Boys

Relay. The senior relay team also broke the school record with a time of 43.21. The Midget MVP this year was Sammy Kitakufe while the MIP was Boris Kholodov. At the Junior level, the MVP was Dan Wells and the MIP was Ibou Barry. For the Senior division, the MVP was Keith Dadson and the MIP was Ben Wood.

The intensity and energy that this year's track team displayed in competitions was at a level that hasn't been matched in years. The quality of the athletes was at a peak this year as many of the long-time veterans have now made it to the senior level. Many of the younger members were guided in their endeavors by the seniors this year in order to prepare them to lead the team to another successful season in 1998. Judging by the increased interest in the sport and the results of this year, it seems like the track team will surpass expectations in years to come.

This year, the coaching staff of Nick Tsioros and Bob Perrier was extended by the addition of Mark Service, this helped in spreading the coaching duties so that more aspects of this greatly varied sport could be covered in the short season. The team is extremely thankful to these people along with Mrs. Perrier for all the energy and effort they have put into the team this year.

Overall, the team did extremely well in both private and public school competitions. If this is any indication as to the future, the track program will continue to flourish and will again become an unstoppable force not only in the ISAA but also in York Region.

It was the best of times and the worst of golf. Actually, that's not true - the golf was great. The only problem was, Trinity's was better. Although the team averaged a score of 79 at the annual Hockey Valley Tournament, Trinity edged by with an average of 78. The SAC foursome was fantastic - compliments to George Brown's amazing 75 and Mike Graaf's 79. Jason Kaptain and Ryan Brandham also finished the day with very respectable scores. The CISAA tournament at Thunderbird proved to be less fruitful. The team wasn't quite as sharp, as they finished up in fourth place. John Haney shot an 88 to beat the WALRUS (Mike Graaf), who was having a very bad day and finished with a 97. Despite the fourth place finish, the season was an enjoyable one. Next year should prove to be full of great scores again, however, the team will have to rebuild in the personality department as four of the most off-the-wall, hard-core ball-whackers

have graduated - Ian McGuigan, Colin Russel, and finally, the unforgettable twosome - John "Crazy" Haney and Mike "The Walrus" Graaf. St. Andrew's Valley will now again be safe to play. Special mention must go to the coach himself - Mr. Gaertner. He put his heart and soul into the team, and, for the most part we tried to give it back - hopefully with some degree of success. He put new elements of danger into the game, and was mean with the ball retriever. Keep up the good work Sir, but let us remind you - the 70's ended 18 years ago! That goes for your pants too! The MVP for the 1997 Senior Golf team was Jason Kaptain while the MIP was George Brown. Congratulations to both! Best of luck for the '98 season - Make the College proud. The future looks bright!

P.S. - Don't forget the GARY GAERTNER GOLF TROPHY!!

SAC GOLF

We started off the season okay. We had a whole bunch of boys try out for the team, but in the end, we ended up with six members. In our first tournament that we had we came in last place, but as the season went on we improved and ended up in third place in the final tournament. Andrew Gosbee started the season shooting around 110, but ended up with his best score as 82. He became the team's MIP. James Lee who also improved a great deal was our MVP.

SAC INTRAMURAL

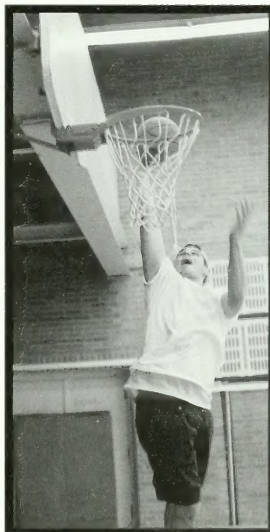

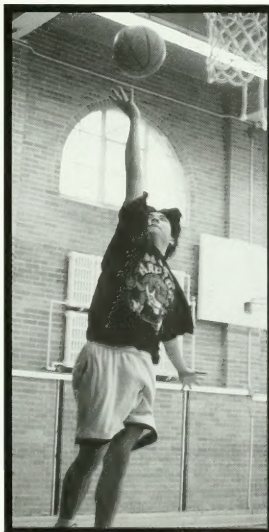

3 ON 3

Finally something to do until Next
Basketball Season...

BASKETBALL

Mr. R. Giel, Scott

This year marked the **first year** for the Intramural **3 on 3 Basketball League**. The league consisted of over 40 players with various skill levels, ranging from 1st team caliber to 1st year players. The skill level of players was distributed evenly to **9 teams**. This was a new experience for every player many of whom helped out in each phase of the league whether playing, refereeing or scorekeeping. With the experience some of our referee's got, they will **think twice** before arguing a call next year. Many showtime plays were **highlighted** during the season, with **thunderous post-game dunks** by Anthony Weber, Ronald Ho and Ikaz Kadiri, to Joey Yeh's three point shots, to Ryan Evan's drives to Jeff Mesina and Gerald Li's trash talking. With the exception of post game hostility, the season was a success where players played each game competitively and everyone had **a lot of fun**.

Each team played at least four games during the season before heading into the **final tournament** which featured tight first round games but in the finals it featured Dream team 3 featuring Anthony Weber, Raymond Jordan, Eric Park, Sung Choi and Omar Sands vs. the Twin Busters featuring Ronald Ho, Albert and Herbert Leung, Jeffrey Lo, James Lau and myself. The game was very close, having 3 lead changes, but in the end the **Dream Team 3** prevailed 21 - 18. Thanks for making the inaugural year of 3 on 3 a success. I wish everyone the **best of luck** in their basketball careers.

The S.A.P.B.H.L. was a very successful ball hockey league this past year. The league COMMISSIONER Mr. D. Galajda, ensured that the team's were balanced and under the \$85, 000 salary caps. There were four teams in the league and the regular season ran for

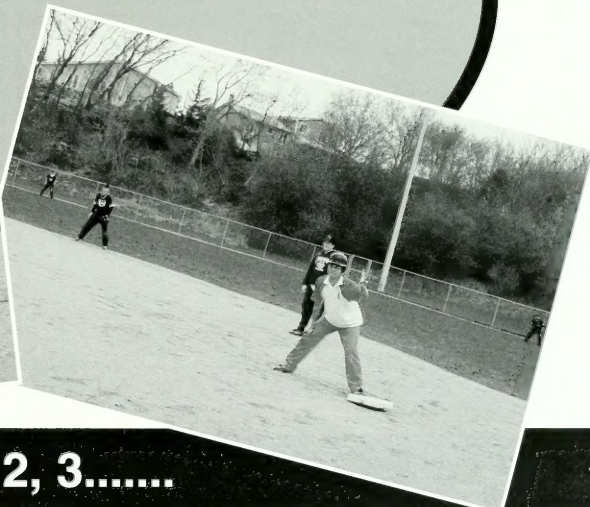

finishing first, the scoring championship in this first season was a tight race and ended up tied with Jeff Marshall and Mike Tatum. The top regular season goalie was Jamie Talbot with a 1.78 FAA. The play-off race was on, with the SKIDS facing the BLUE COLLAR TRUE'S in the first round. It came down to

four weeks. Regular season stats can be seen in the FINAL STANDINGS table with the Northern Skids

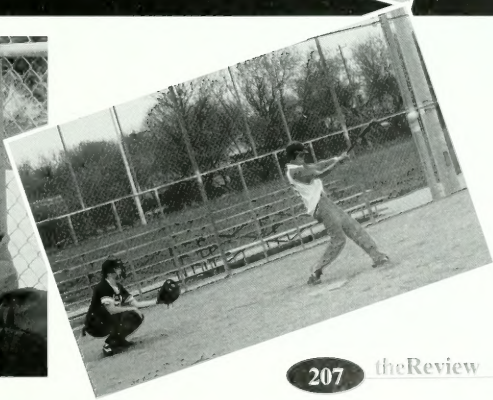

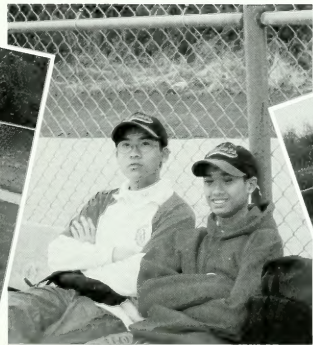

the final game in the best of three series and the SKID's prevailed. In the other SEMI-FINAL series the Beaters easily beat the Presto Shooters. This set-up a classic FINAL with the leagues two best teams, going neck and neck. In Game one of the best of three final, the SKIDS overpowered the Beaters and won 5 - 0. In game two, the Beaters ran over the SKIDS and won 6 - 1. In the deciding game three, what hockey is all about, the BEATERS simply took the championship right out of the hands of the SKIDS winning 4 - 2. It was a tough series, but the better team won. Congratulations to all players and to the champions Fred Perowne, Chris Heinig, Mr. D. Galajda, Jamie Taylor, Yamato Yoshioka, and Chris Gooderham.

the Review 96/97

As another Review ends, another school year is brought to a close. Next year heralds a new era for the college. A changing of the guard, which brings with it new rules, and a new perspective. Big changes are in store for the school in the coming years.

Who would have thought this sight will never be seen again

But, no matter how much some things may change, some things never will.

Preparing for exams

Going to Chapel

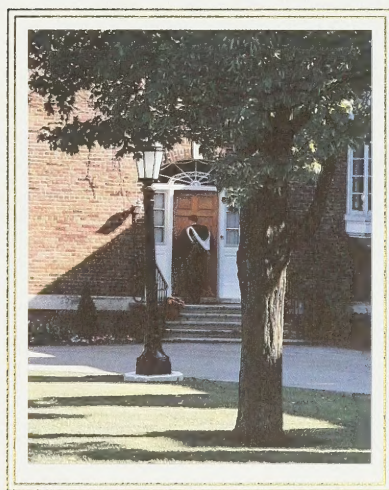

Playing hockey on the Mac House Triangle

Hopefully, we will never look back
- the Editors

The End
